CALCUTTA:

GENERAL INTELLIGENCE,

FOR JANUARY, 1851.

Copy of an Address from the British Inhabitants of Ceylon, to his Majesty on his late providential Escape.

ADDRESS TO THE KING:

Most Gracious Sovereign,

We, your Majesty's Loyal Subjects the British Inhabitants of Ceylon, united by every Tie that can bind a grateful and affectionate People to their King and Constitution, and deeply nettled with Horror at the late atrocious Act of Treason, perpetrated against your Majesty's Sacred Person, do now approach your Throne, to salute your Majesty with the fervent and unanimous Gratitude with which We have acknowledged the Signal Interposition of the Divine Goodness in our favour,

in preserving a Life at all times so justly dear to us, and at this time so indispensibly necessary, not merely for the Welfare of the British Empire, but for the Tranquillity, Security, and Independence of the civilized World.

At the same time that We thus express our Feelings on an event so deeply interesting to ourselves and our Fellow Subjects, it is no small Consolation to us to consider that the Wretch who has excited this alarm through all those extensive Dominions where the blessings of your Majesty's Government and Protection are diffused, has appeared incapable of appreciating their Value, and We firmly trust that the Reproach of so atrocious a Parricide will be wiped from our Age and Country, by the unquestionable Infamy of the Man who attempted it.

That your Majesty may long enjoy the delicious Fruits of those Domestic Virtues which You, Sire, have cultivated with such pious Care; that the bright Example of them may long and successfully operate on the Hearts and Conduct of your grateful and affectionate Subjects; and that those princely Virtues which have raised to so exalted a height the Power, Prosperity and Renown of Great Britain, may long continue to display themselves triumphantly at the Head of a great Nation and a glorious Constitution, in the maintenance of true Religion, Liberty, and Social Order, is the Prayer which, Most Excellent Sire, We offer up to the Author of all Good in the utmost Fervour of our Hearts.

On Friday last arrived the ship Candidate, from Bombay and Cochin, bringing the following passengers to this Presidency: Mrs. Clarkson, Messrs. Crawford, Dingle, Steadman, Godwin, Morrison, Sraigie, Bouchie, Sparrow, Lewis, Jennings, Writers on the Bombay Establishment, who have come round to enter as Students at the Fort William College.

Lieutenant C. Poole, Ensign Macdougall, Messrs. M'Collock and Woodcock, are Passengers on the *Ganjava*, which arrived on Friday last, from China and Prince of Wales's Island.

The *Sarah*, Captain Fitzherbert, which arrived from Soosoo, on Friday last, brings accounts of the capture of the *Perseverance*, cut out from Acheen Roads, by a small Schooner rigged vessel on the 19th November. A Frenchman is arrived on the *Sarah*. He was prize master of the *Bee*, a small vessel taken by L'Uni, the day before her capture by H. M. Ship *Arrogant*. He sold his prize at Acheer, where she is now said to be fitting out; in the mean time the French crew had betaken themselves to a small boat, in the hope of making depredations upon the coast of Pedier, but were fortunately captured, and carried to Prince of Wales's Island.

On Thursday last accounts were received of the arrival of the ship *Ganjava*, Captain Barber, from China, last from Pinang.

By the *Ganjava*, we have been favoured with the following account of an action which took place on the 3d of November last, between the Honourable Company's armed ship *Cornwallis*, Captain Romaine, and *La Gloire*, French Privateer, off the Sand Heads.

"On the 3d of November, at 6 A. M. being in Lat. $19^{\circ} 47'$ Long. $88^{\circ} 68'$ East saw a ship a head standing to the Westward;—at $\frac{1}{4}$ past 8 the stranger tacked and stood towards the *Cornwallis*;—at $\frac{1}{2}$ past 9 made the private signal to her, which she did not answer;—cleared ship for action—at 20 minutes past 10;—from the very suspicious appearance of the ship and of her superiority to the *Cornwallis*, as well as from the information of a Gentleman on board who had recently been at Mauritius and knew her to be *La Gloire* privateer of 18 Guns, Twelve and Nine Pounders and 170 men, tacked ship to join five sail of American ships which were then in sight half courses down;—40 minutes past 10, it being little wind, perceived the Privateer with her sweeps out; at 11 got out on sweeps, shewed our Colours and fired two shot across her fore-foot and another at her which passed over her, she immediately returned it with her Bow guns, hoisted the National

Colours; a running and galling fire was now kept upon both sides with round grape and double headed shot; at half past noon, finding that the *Cornwallis* had no stern chasers, the Privateer got right in her wake, by which means her sails and rigging were much cut, the enemy keeping within Musket shot on her quarter and direct in her wake; at two P. M. having neared the Americans a good deal and finding that the shot from one of them reached him, the enemy hauled his wind close on the starboard tack and stood off; the *Cornwallis* was immediately brought to the wind also on the same tack and commenced a very brisk fire upon him, but tho' many of her shot reached fluted him, he made such good use of his Sweeps as to be soon out of Gun shot; she kept hovering about the Americans during the rest of the afternoon, but left them during the night and was not to be seen in the morning. The sails and riggings of the *Cornwallis* were much cut, but fortunately no person was hurt, excepting the Boatswain, wounded by a grape shot.

January 15th.—On Thursday last, accounts were received of the arrival of the Honourable Company's ships Earl Spencer, Captain Rutt; Lord Walsingham, Captain Smales; Extra ships Tellichery, Captain Baker; and Herculean, Captain Franklin.

Mr. J. Denty.

On Tuesday the 7th, arrived at Kedgerer, the ship *Lalla*, Jonathan Young, Commander, from Bombay, laden with Copper, Lead, Iron, and Bales, on account of the Hon. Company. Passengers Mrs. Hunter, Mr. Hunter, Surgeon on this Establishment, and Mr. S. Aste.

The *Lalla* sailed from Bombay on the 20th of October. We have been favoured with the following particulars of her voyage:—On the Malabar Coast, she experienced light variable winds, chiefly southerly, with a current setting to the northward; so that she did not reach the latitude of Cape Comorin before the 9th of November. It was the Commander's intention to put in at *Columbo* or *Point de Galle*, for the purpose of filling up his water, the consumption of which was great, from having five horses on board. But on the 9th of November, came on a fresh gale from the westward, which would have made it dangerous to go into either of those ports. It then became necessary to stand in for *Trincomalee*, and at this time the current ran to the southward at the rate of from 60 to 72 miles in 24 hours. On the 19th in the evening, arrived in the harbour, and anchored in *Nicholson's Cove*.

This harbour is too well known to require a particular description. It is universally allowed to be one of the finest in the world. The fort, which is situated on a neck of land, contained between the open sea and the northern extremity of the harbour, has a commanding aspect. The flag staff is erected on a point of land about half a mile to the north-westward of the fort. This point, projecting into the sea, is high and steep, consequently the most conspicuous part to ships at a distance. Its latitude is $8^{\circ} 34'$ N. and its longi-

tude, by the medium of a great number of Lunar observations, Mr. Bagshaw, the Master Attendant, has determined to be $81^{\circ} 18' E$.

Nicholson's Cove, where the Lalla came to, contained between the points of *Elephant* and *Osnaburgh*, is capable of containing five or six large ships, and here they are completely sheltered from every wind. On the top of *Osnaburgh* point is a small fort. The ascent, from the western side of the point, is steep and rugged; but the labour bestowed on surmounting it is amply rewarded, by a most interesting and romantic prospect of the fort and the great basin, with the various islands contained in it.

The edge of the harbour, on the road from this point to *Trincomalee* fort, is lined with rocks of pure Quartz, as white as Alabaster, and splitting into regular forms, resembling crystals. All the banks of the harbour and the islands contained in it, are covered with wood, the growth of which is found to be exceedingly rapid. This wood, when the place came into our hands, extended up to the fort, and surrounded it on all sides. It doubtless contributed greatly to the former unhealthiness of this station; which was severely experienced by the fleet under Sir Edward Hughes in 1782, and in no small degree by his Majesty's 80th regiment on their first arrival. The wood is now cleared away, to a considerable extent round the fort; this work is still continued, and the climate is found to be improved in proportion to its progress. The troops are now healthy, and the sick from other parts of India, who have repaired here for change of air, have experienced a rapid convalescence. Among the trees furnished by the woods in this vicinity, are the *Satin wood* and a species of *Ebony*. The former arrives to a great size, so as to yield Planks of $2\frac{1}{2}$ feet in breadth. The harbour produces great abundance and variety of fish. Turtles are not uncommon. The only fruit, when the Lalla was there, were Plantains and Water-Melons, but at the proper season they have grapes, which are said to be of a good quality.

The business of watering and receiving the necessary supplies occupied two days; during which the Commander and Passengers were entertained with great hospitality, at the house of Mr. Bagshaw. November 21st, at one P. M. weighed, with the wind at N. N. E. and afterwards had fresh

breezes at N. N. W. W. S. W. S. S. E. till the 30th in the morning, when they made the *Great Andaman*, without going to the southward of $7^{\circ}58'$ N. So expeditious a progress flattered them with the hopes of a speedy termination to their voyage; but from this time, the winds hanging much to the northward, they were obliged to stand off and on, and did not clear the Island before the 6th of December. On the 13th made the Latitude 17° North, and from that time had light variable winds and calms, with southerly currents, at the rate of 18 and 20 miles a day, till the 21st when they reached the Lat. 18° . The stock of water, rice and other provisions being nearly exhausted, it was determined to touch at *Cheduba*; and they got sight of that Island on the morning of the 22d. On the 23d in the morning, entered the straits, and on the following day, at 3 P. M. anchored at *Cheduba*, in $5\frac{1}{2}$ fathoms, mud; in Lat. $18^{\circ}51'$ N. about two miles off the fort, which is the residence of the Rajah, or Governor, under the King of Ava. Before the ship came to anchor, the Rajah sent off a boat, with a present of fruit, and with instructions to inquire whether she was in want of Provisions.

At this place, Captain Young, who went immediately on shore, found Captain Alms, formerly commander of the *Amboyna*, with three European officers, a Carpenter, Boatswain, Gunner, his Mate (all Europeans) and about seventy lascars. Their ship, bound from *Bengal* to *Amboyna*, was taken, on the 15th November, in Lat. 19° N. Long. 90° E. by the French Privateer *La Gloire*, Captain *Bourgogne*, and they were landed at *Cheduba* on the 30th of the same month. The Rajah at first assured them of unconstrained permission to depart, and promised to supply a boat for their conveyance to *Bengal*; but after *La Gloire* was gone, he began to prevaricate, and at length owned that he could not release them till he should receive an answer from Ava, which could not be expected in less than forty days.

La Gloire was seen on the 6th of December, working out by the northern passage; but the Rajah afterwards informed the Prisoners, that when clear of the Island, she steered to the southward,* and in the night of the 8th the report of several cannon was heard in that quarter, where two other ships had been seen by the natives. These circumstances led

Capt. Alms and his officers to conclude that the privateer had there fallen in with some of our cruisers. She is described to be a long ship, low in the water, with black sides, very taut-rigged, with the stern entirely open. She carried 200 men, seventy of whom were completely armed for boarding, when she came along-side of the *Amboyna*. Captain B. informed the Prisoners that their ship was the first prize he had taken since leaving the Isle of France. He had, some days before, been chased by a large ship, and thrown over-board all his guns, except two, which he used as stern-chaces. The prisoners spoke highly of the conduct of Capt. B. and his officers, who treated them with the utmost kindness, permitting them to retain their private property, and supplying them with money to defray their expences, during the time they might be obliged to reside at *Cheduba*. But the delay, protracted so far beyond their expectation, had nearly exhausted their stock; and as the Rajah made them no allowance, they were under no small anxiety about the means of subsistence. Another source of great uneasiness to Capt. Alms, was the mutinous conduct of some of his own people, which manifested itself soon after they were put on shore. But this, by a proper exertion of firmness on his part, had been in good measure subdued before the arrival of the *Lalla*. The sight of her awakened their hopes anew, and they repeated their solicitations to the Rajah, but in vain; so that nothing farther could be done for their relief than to give them such a scanty supply as could be spared, and to convey the intelligence of their situation to Bengal.

The live stock obtained here consists of fowls, ducks and hogs. Rice is produced on the island in abundance; fish of a good quality are plentiful, and the natives salt or dry them very well; but during the time that the *Lalla* remained there, no fresh fish could be procured, because the Rajah had ordered all the boats to be drawn on shore, from an apprehension that Capt. Alms, or some of his people, might find an opportunity, by their means, of escaping on board of the ship. All these provisions are cheap, when there are no strangers at the port, but the arrival of a single vessel raises the price very much, as may be seen by the following comparative table of prices, when the French Privateer was there, and nine days after her departure.

When La Gloire was there		after her Departure.
Fowls (small and large)	7 per Aracan Rupee,	10 to 15
Ducks (scarce)	5	5 to 7
Hogs (middling size)	2 Rs. each,	1 to 3 Rs. each.
Rice	4 Baskets (of which 2½ make a bag) one Dollar,	3 Baskets pr. Rs.
Paddy,	8 ditto ditto,	
Salt Fish (Pomfret)	15 per Dollar,	30 per Rupee.
Salt,		4 Baskets.
Eggs,		50 ditto.
Melons,	20 per Rupee,	} same price.
Plantains,	2 & 3 Bunches,	

The Fort is an enclosure formed of Bamboos. The houses are constructed of the same materials, and thatched with straw. They are raised on posts of wood, about two or three feet from the ground, to preserve them from wet; this part of the country being overflowed during the rains. At present all the wells are dried up, and water for the ship was procured from a river to the southward of the Fort. And, although the boats went a long way up the river, yet the water they got there was brackish.

December 26th, left Cheduba, and on the 1st of January, at Noon, having just crossed the swatch, in lat. 21 05, spoke the LORD WALSHINGHAM, EARL SPENCER, TELLICHFRY, and HERCULEAN, supplied them with as much live flock, rice, vegetables and water, as could be spared. Next morning spoke the PERSEVERANCE brig, Captain M'Neelance, from Prince of Wales's Island, from whence he had sailed upwards of two months. His rice and water having been almost expended, he sent his boat up the Aracan River, where she was detained eleven days, and nearly given up for lost; but she returned at the end of that time and brought abundance of water, rice, and fresh provisions; so that this vessel was enabled to contribute towards the relief of the Indiamen. Had CHEDUBA been better known as a place of refreshment, the distress of those ships might have been alleviated, at least a fortnight sooner; for they were off that Island; but the account in the Directory having led them to suppose that no supplies could be obtained there without fighting for them, they declined going in. About six weeks ago, they fell in with his Majesty's ship Arrogant, off the Nicobars, she kept company with them five days. The Arrogant mentioned having chased a privateer, which probably was La Gloire.

The American ship *Fanny*, Captain Macalister, which arrived on Friday last, from England, left the Downs on the 18th of August, and touched at Teneriffe, whence she sailed on the 26th of September. During her stay at this Island, a ship came in bringing accounts of a dreadful plague that had broken out at Cadiz in Spain, and carried off in the course of a few days, a considerable portion of the Inhabitants. An English Squadron had made an attack upon Ferrol, with what success, it was not stated. On the 2d of November, the *Fanny* spoke the Abundant Store Ship, from London, to the Cape of Good Hope, and supplied her with water and provisions.

The American Brig *Eliza*, from Hamburgh, on the 3d of August, and the Cape towards the end of October, is also arrived—H. M. ship *Diomedé*, the Honourable Captain Elphinstone, had been dispatched from the Cape, in quest of three French Frigates, known to have been at Monte Video, in Rio la Plata, but was not fortunate enough to fall in with them. Captain Elphinstone, had however made some Captures in the course of his cruise, two of which arrived at the Cape previously to the *Eliza*'s departure. These were sold together with their Cargoes, consisting of Hides, Tallow, &c. &c. in which latter article, the purchasers had the good fortune to find concealed a very considerable sum in Dollars.

Captain Sydenham, Mr. S. N. Wyatt, Assistant Surgeon; Messrs. Howell, Simpson, Avitmall, Galoo, and Malchus, are Passengers, on the *Anna*, which arrived here on Friday, from China, whence she sailed on the 25th of November. Considerable apprehensions were then entertained for the safety of the Honourable Company's ship *Talbot*, which had been a missing ship for upwards of six weeks, and was last seen in a very violent Gale of Wind.

All the other ships from Bombay and Madras, had arrived in safety at Canton. The H. C. ship *Ganges* having proved very leaky on the voyage, a survey was ordered to take place as soon as she could be unladen, to examine whether she was in a state to receive Cargo, for Europe.

Accounts from the Coast, brought here on Friday Evening, state the Capture of the ship *Frederic North*, from Columbo,

to this port, by *La Gloire Privateer*, on the 2d instant, off Point Palmiras. The Passengers and crew were landed on some part of the Coromandel Coast.

A privateer of 26 twelve pounders, and twelve nines upon the quarter deck and forecattle, full of men, commanded by Captain Mourain, sailed from Nantz the 18th July : She was to stop at the Isle of France, and thence to proceed to the Bay of Bengal ; with a brig in company of 18 nine pounders.

Another privateer from Boudreaux, 26 twelve and 10 six pounders, sailed early in Jun , with a Cargo of Wine ; she was supposed to be the one that engaged the *Wellesly*, Captain Gordon, off the coast of Brazil, in August last.

Eleven sail of the line (English) in the North Sea.

The latter end of September last, a most gallant exploit was performed by the boats of the Squadron under Capt. Hotham, cruising off the Isle of France, cutting out of the inner-harbour, the ship *Sea Nymph*, under Hambro' colours. The particulars are as follows :—" This ship was discovered by the squadron early in the morning close under Cannonner's Point, with light airs of wind, off the land ; and notwithstanding every exertion of each ship, they could not prevent her from getting close under the batteries ; although the *Lancaster* fired several broadsides at her :—She was supported by a number of shot from the shore, and the boats from the Privateers, in the harbour, towed her into shelter about noon.

" Captain Hotham was now determined not to part with her, notwithstanding they had succeeded so far, as to get her into the inner-harbour, protected by a chain of batteries and three privateers, ready for sea. At sun set the boats of the squadron were hoisted out, well manned and armed, with volunteers ; but notwithstanding every precaution was used to prevent the enemy from perceiving our intentions, it was soon made known to the Captain of the port, that the English had their boats out, and supposed for the purpose of cutting out this ship. In consequence of which a party of forty soldiers was sent on board her from the shore, and all the batteries manned, ready to prevent a surprise ; at the same time three boats were ordered from port to tow her still farther up the harbour,

“ It appears from the Supracargo's account, that he was ordered to go on board his ship by the municipality, just as it was dark, when he found his ship in possession of the French troops, and the boats in the act of towing her farther up; that he had not been on board more than six minutes, before six English boats were discovered close a-long side, and a dreadful fire commenced on all sides immediately; but, in a few minutes the British Tars had possession of her, and, most of the Frenchmen killed or wounded. They instantly cut the rope, by which the French boats were rowing, and sent their own boats in their stead.

“ They towed the ship's head round, and made sail on her, the wind being direct out; upon which a most tremendous fire was opened upon them, not only from the batteries, with shot and shells, but from the privateers of which they had to pass within pistol shot. By the bravery and good management of the British seamen, she was soon without their reach; altho' the ship was much disabled and her masts and riggings cut to pieces, with the loss of eight seamen killed and wounded. The first Lieut. of the Lancaster lost his arm:—the slaughter among the French was great, even from their own guns. She arrived at the Cape on the 18th October, with several other prizes of small value.”

On the 12th ultimo arrived at Bombay, the Honourable Company's Cruiser Princess Royal, Lieutenant Francis Higginson, from the North west Coast of Guzerat, last from Diu, having in tow a piratical Dingey taken by one of the armed vessels employed on the Surat station under the orders of Commodore Selby. On the evening before the Princess Royal came in she fell in with nine Mahratta gallivats, who appeared to meditate an attack, but on the Princess Royal saluting them with a few discharges of round and grape shot, they desisted and hawled their wind to the Northward.

We hear that the Honourable the Court of Directors have been pleased to present Thomas Wilkinson, Esq. of the Civil Service of the Bombay establishment, with the sum of £. 2500, in testimony of the high opinion they entertain of his Services while employed as President of the Commission in Malabar in the year 1796 and part of 1797.

We understand from authority that the name of Carnac has been assumed by James Rivett, Esq. a Member of Council at Bombay, as his sole surname, in compliance with the Will, as well as from motives of respect and regard for the memory of the late General Carnac.

Letters from Tranquebar mention the arrival of the *Esther* at that Port,—she left the Mauritius on the 5th of November.

By the same medium we learn, that several trading ships had arrived at the Island from Bourdeaux, which were fitting out as Privateers, and that no less than 11 ships of that description were out on their cruise at the time of the *Esther's* departure.

A Frigate and Corvette had arrived from Europe, and which were said to be the forerunners of several armed ships.

An Address from the Cadet Company at MADRAS, who are about to join their respective Regiments, to Captain ARMSTRONG.

DEAR SIR,

With the warmest feelings of the heart, that gratitude, affection and respect can produce, that part of the Cadet Company who are now about to join their respective corps, with an unfeigned sorrow bid you adieu. Placed in a situation equally arduous and uncommon, it required no moderate abilities to command universal satisfaction: the best proof we can give of your success in promoting our happiness, is, that we sincerely regret the period is arrived when we shall no longer enjoy the benefit of your instructions as a soldier, and the pleasure of your society as a friend.—We disdain to flatter any human being, but when glowing expressions are alone capable of conveying our sentiments, we hope you will excuse us for thus publicly declaring the high opinion we have of your character and conduct.

We remain,

Your affectionately attached Servants.

The General Officers and Colonels of Regiments who came home under the regulations of January 1796, having addressed us on the alterations in those regulations so far as concerns them by the subsequent orders contained in our separate dispatch of the 6th June 1798, and requested to be relieved from the operation of these orders, we have thought proper to comply in part with their request, and have agreed that such of the General Officers or Colonels, above mentioned, as have not retired from the service, being indulged with the receipt of their pay and off reckonings during two years and a half furlough, from the time they left the Presidency to which they belonged, or any other of the Company's settlements where they may have been on actual service.

Capt. Lamington Baillie, and J. L. Richardson, have returned to this Presidency, from furlough, by permission of the Hon the Court of Directors, without prejudice to their rank.

BERHAMPORE, JANUARY 12, 1801.

Extract from Station Orders, by Major General Rawlstone.

The dress, steadiness, and Soldier-like appearance of the 9d European Regiment under arms at the review this morning, was in all points perfect, and the fullest approbation of the Major General; the marching and heelings were in good time and executed with precision, the evolutions and Manœuvres with celerity and spirit, and the firings, close and connected, and the conduct of the corps on this occasion does Major Hopkins, the Staff, and Officers attached to it, great credit."

CIVIL APPOINTMENTS.

Lieutenant Colonel William Kirkpatrick, Resident at Poona, in the room of Colonel Palmer, resigned.

Mr. N. B. Edmonstone, Secretary to the Government in the Secret, Political and Foreign Department.

January 20th.—The snow *Venus*, Captain Robert Lander, from Penang, arrived on Wednesday last; she left Prince of Wales's Island on the 27th November; and heard a firing in the roads for two days, but saw no vessel.

The American ship *Adventure*, Captain James Barr, junior; last from Copenhagen, arrived on the same day.

The Honourable Company's armed ship *Cornwallis*, Captain George Romaine, is also arrived.

On Thursday last, was launched from the yard of Messrs. Gilmore and Wilson, a very handsome ship, about 800 tons burthen. She was named the *Lucy Maria*, and is to be commanded by Captain W. Dawes.

On Wednesday the Portuguese ship *Monte de Carmo*, Captain Januario, arrived from China, last from Macao, whence she sailed the 22d November.

On the late occasion of a disagreeable discussion with the Chinese Government at Canton, relative to a Chinaman being wounded by a shot from His Majesty's Schooner the *Providence*, the following translation of Extracts from the Chinese criminal Code of Laws, was published by the authority of the Honourable Company's Supercargoes, for the information of all concerned.

ART 1st "A man who kills another on the supposition of theft, shall be strangled according to the Law against Homicide committed in an affray.

2d "A man who fires at another with a Musket and kills him thereby, shall be beheaded as in cases of wilful murder. If the sufferer is wounded (but not mortally) the offender shall be sent into exile.

3 "A man who puts to death a criminal who had been apprehended and made no resistance shall be strangled according to the Law against Homicide committed in an affray.

4th "A man who falsely accuses an innocent person of theft (in cases of great criminality) is guilty of a capital offence, in all other cases the offenders whether principals or accessories shall be sent into exile.

5th "A man who wounds another unintentionally shall be tried according to the Law respecting blows given in an affray, and the punishment rendered more or less severe according to the degree of injury sustained.

6th "A man who intoxicated with Liquor commits outrages against the Laws shall be exiled to a desert country, there to remain in a state of servitude."

The foregoing are articles of the Laws of the Empire of China, according to which judgement is passed on persons offending against them, without allowing of any compromise or extenuation.

Yesterday fortnight, accounts were received of the recapture of the City of London's Prize the *Ganjam*, by La Gloire Privateer, on the 5th instant, off Point Palmiras; the second officer of the City of London, who was the Prize Master, has arrived at Ganjam.

The ship *Thetis*, Captain Lindsay, from England, Madeira and the Cape of Good Hope, arrived at Madras on the 28th ult.

We do not learn that any passengers have arrived on the *Thetis*.

The *Jupiter* was the only Man of War remaining at the Cape, when the *Thetis* touched there; the remainder of the squadron being on a cruise off Mauritius.

We are concerned to communicate the loss of the ship *Mermaid*, Captain Garden, belonging to this port:—She struck upon a rock, about two miles from the S. W. point of Diamond Island, in a violent gale of wind, and was wrecked.—After they had clung 13 hours to the rigging, a boat manned with Burmah men, came out to the assistance of the crew; the whole of which was fortunately picked up.—The loss of the *Mermaid* is entirely to be attributed to her unmanageable state, caused by her having been deprived of the main and mizen masts, when captured and released by the Privateer *Malartic*.

Letters from Tranquebar, mention the arrival of a vessel at that place, from the Isle of France, which she left on the 16th of November.—By this conveyance, intelligence is received that *La Confiance*, Captain Surcouff, with his prize, the *Kent*, reached Mauritius, in safety early in the month of November. The *Cartel*, *Le Libérateur*, dispatched from this port in June last, had likewise arrived, after a passage of five months, conveying thither several of the prisoners captured in *La Forte*, whose Commanding Officer, it is said, has been tried by a Court Martial for the loss of the Frigate and honourably acquitted upon the grounds of the very superior force of her opponent *La Sybille*.

A Corvette had likewise arrived from France, announcing an intended succour to the Island, of a respectable body of troops, accompanied by a new set of Commissaries, with extraordinary powers.

A letter from an Officer, dated on board the *Caledonian*, at the Cape of Good Hope, in March last says, “Such was the incredible violence of the wind in the late storm we encountered in latitude 23. 30. and longitude 58. East, that one of the people, in coming down from the main-top, had his shirt blown to pieces from his back; and the jolly boat was blown from the stern, and carried perpendicularly as high as the mizen-yard.

January 24th.—On Monday last arrived the ship *Burnaby*, from Bencoolen, under charge of Mr. Russell, the Chief Officer, Captain Gardyn, having died during the voyage.

The *Burnaby* sailed from Bencoolen on the 6th November, and has had a very tedious passage up the Bay.

The Danish Company's ship *Bekkeskow*, Captain Krag, arrived also on the same day, from Copenhagen, last from the Cape of Good Hope; she sailed from the former place on the 14th of June, and from the latter the 20th of October.

Extract of a Letter dated Camp near Poonah, 12th December, 1800.

"Scindea, has at last made a movement for his return to Hindostan, he left his palace on the 5th instant, and is now living in his tents about six coss from Poonah.—The army have not as yet broke ground, though they are in the hourly expectation of receiving orders for that purpose.—We cannot leave Poonah without recalling to mind the many civilities we have invariably received in this quarter, from the British Resident Colonel Palmer, nor can any length of time efface from our memory, his polite and hospitable conduct towards us; his benevolence and generosity have so repeatedly been noticed by others, that it is almost unnecessary to repeat them. Suffice it to add, the heart, which is capable of diffusing so much good to its fellow creatures, will always find an inward gratification amply to compensate him for the act, a reward to a feeling breast, far superior to the commendation of others: our best thanks are due to him, for the many favours we have received at his hands, and wherever he may be, he will always possess our warm and cordial wishes for his health and happiness; long, long may he enjoy them!"

G O BY GOVERNMENT.

THE GENERAL ORDERS of the 25th September, THE RIGHT HONOURABLE THE GOVERNOR IN COUNCIL published to the Army the high sense His Lordship entertained of the services rendered to the British interests in India by the HONOURABLE COLONEL WELLESLEY, the Officers and Troops under his Command.

The Governor in Council has now the satisfaction of announcing the entire concurrence of the MOST NOBLE the GOVERNOR GENERAL in Council in the sentiments expressed in those orders, on the Despatches from Colonel Wellesley; and the Governor General in Council, has directed the Governor in Council to communicate in General Orders the thanks of the Governor General in Council to the Honourable Colonel Wellesley, for the judgment, energy and valour, which have distinguished his operations against Dhondia Wagh, during the late rapid and prosperous campaign, and for the important services, which he has rendered to the Honourable Company, in terminating the War against that Insurgent with such signal and speedy success.

The Governor in Council has farther been directed to convey the thanks of the Governor General in Council to the Officers and Troops acting under the Command of Colonel Wellesley, for the gallantry and perseverance manifested by them throughout the arduous service; and particularly, to express to the Officers and men of the Detachments of Cavalry employed in the action of the 10th September, the high sense entertained by the Governor General in Council of the eminent courage and discipline manifested by them, in the attack on the Army of Dhondiah Wagh, which terminated in the fall of that Insurgent, and in the complete destruction or dispersion of his force.

"The Governor in Council is farther pleased to add, that it will afford to the Governor General in Council the highest Satisfaction, to represent to the Honourable the Court of Directors, the important benefits, which have resulted to the interests of the East India Company and to the British Nation in India, from the Services of the Honourable Colonel Wellesley, and the Officers and Troops acting under his Command during the late campaign."

Circumstances having rendered it necessary for the Governor in Council to employ the Services of the Honourable Colonel Wellesley, at a distance from Mysore, His Lordship in Council has been pleased to appoint Colonel James Stevenson to the important Command of the forces in Mysore, Malabar, and Canara, and the Governor in Council has great satisfaction in this opportunity of manifesting his high sense of the zealous and spirited support afforded to Colonel Wellesley, by Colonel Stevenson, as second in Command of the army employed against Diandra.

Fort St. George, 27th December, 1800.

G O BY GOVERNMENT.

The high sense entertained by the Most Noble the Governor General in Council, of the meritorious Services and eminent abilities of Lieut. Colonel Cloze, having been repeatedly published to the Army, the Governor in Council considers it to be unnecessary for his Lordship to add any observation to the following Extract of a Letter from the Honourable Court of Directors, expressing their approbation of that Officer's Conduct.

Par 223. - From the great estimation in which we held the character and abilities of your late Adjutant General, Lieut. Colonel Cloze, even previous to the knowledge of the distinguished Services rendered by him, in the late war against Tipoo Sultan, we should have felt no hesitation in yielding to his request, had he continued to occupy that situation, that his Allowances should maintain their equality, with those of the Quarter Master General. But we have the satisfaction to observe, by your late dispatches, that Lieut. Colonel Cloze, on account of his eminent Talents and integrity, added to his extraordinary Skill in the Country Language, and to his experience in the Manners, Customs, and Habits of the Natives of India, had been selected by Lord Mornington (now Marquis Wellesley) for the important charge of Resident with the Rajah of Mysore, an appointment which has received our entire approbation. And as both the Governor General, and Commander in Chief, have borne most Honourable Testimony to the Ability, Zeal, and Energy displayed by Lieut. Colonel Cloze, during the late Mysore Campaign, thereby manifesting extensive knowledge, approved experience, superior talents, ardent valor, and indefatigable activity, we have resolved to present that Officer with a Sword, to be made in England, of the value of (300) three hundred Guineas, in testimony of the high sense which we entertain of his Services upon that memorable occasion."

Fort St. George, 21th December, 1800.

G O BY GOVERNMENT.

The Right Honourable the Governor in Council, has much satisfaction in publishing to the Army, the following Extract of a Letter

from the Honourable the Court of Directors, dated the 7th of May last, expressive of the just sense, which the Honourable Court entertained of the meritorious exertions of Captain Mackenzie, in collecting Materials for a Map of the Nizam's Dominions

Par 175 —“ The several Plans and Geographical Materials executed by Captain Colin Mackenzie, referred to in these Paragraphs, have been submitted to the inspection of Major Rennell, as was also Captain Mackenzie's Map of the Nizam's Dominions, formerly transmitted to us, to which the plans before mentioned, are supplementary,—as in the 303d Paragraph of your subsequent Dispatch of the 15th October, 1798, you have repeated your recommendation of this Officer, for some pecuniary compensation on account of his Maps and Surveys, we authorize you to present him with the Sum of Pagodas (2,400) Two thousand four hundred, for his past services in this line.”

BOMBAY.

DECEMBER 13, 1800.

Extract from the Minutes of Council, under date the 10th of December, 1800.

The Governor in Council, while he sincerely regrets the loss of so valuable an Officer as Captain Hall, who fell in the late action of the Intrepid with an Enemy's Privateer in the Gulph of Persia, pays but a just tribute to the memory of this gallant Commander, in declaring his entire approbation of the brave defence made by Captain Hall against the daring attacks of the enemy who with superior numbers twice attempted, but failed to board the Company's Cruizer.

Lieutenants Smee and Best, with the other Officers and men of the Intrepid, are also entitled to the praise and thanks

of the Governor in Council, for the whole of their conduct, during this action.—Lieutenant Smee, in particular, for continuing the unequal conflict, after the fall of his gallant Commander, finally repulsing the enemy, and obliging him to seek refuge in retreat.

The Governor in Council, to mark his sense of this laudable conduct, directs the Superintendant of Marine, to cause four months pay to the petty Officers and European seamen, and three months pay to the sepoys and lascars to be immediately advanced them, as a gratuity for their exertions on this occasion; Lieutenant Smee will receive the pay of a junior Captain in the Marine from the day of his gallant repulse of the enemy, viz. the 22d November, 1800, until he shall be regularly promoted in the line—the Superintendant being also directed to employ the intermediate services of Lieutenant Smee in as distinguished situations as his Marine rank will admit of.

The Superintendant is also desired to report whether Captain Hall has left in this Settlement any family or connections, on whom the Governor in Council could bestow some recompense for their late loss.—It being to him a subject of sincere concern that this Officer has not survived to enjoy in person the just reward of his bravery and meritorious exertions.

DEATH.

On the 18th November last, departed this Life at Mangalore, at the advanced age of 84, BRIGADIER GENERAL JOHN CARNAC, a man highly celebrated in the Historical Annals of India—He was early known as the Friend and Associate of the Gallant LORD CLIVE, to whose Military Genius and political sagacity his Country was indebted for regaining and establishing our Possessions in Bengal.

On his succession to the Command of the Forces in Bengal, GENERAL CARNAC early distinguished himself by the important Victory gained over the SHAH ZADDAH on the 15th January, 1761, near BENGAL, which was followed by the surrender of the Prince and the restoration of general tranquillity to the Country; nor were the public advantages obtained on this occasion, the only Laurels which were reaped by the Victor—His honourable and distinguished conduct to his Royal prisoner displayed that rare integrity which formed the leading feature of his character.

GENERAL CARNAC returned to Britain in the year 1767, and was soon after in Parliament as representing the Borough of Leominster;

but his active mind again led him to this Country, where he arrived in the year 1776; with the appointments of Second Member of Council, and Successor to the Chair at Bombay. In discharging the duties of this Station, it may be justly said that his whole conduct was marked by the most honourable and upright intention.

As a Scholar deeply read in the Classics both ancient and modern, he had few equals:—In the earlier part of his Life, he distinguished himself amongst the foremost of his Fellow Students at the University of Dublin:—In his more advanced years, he rendered the knowledge he had acquired, a source of amusement to himself, and instruction to his Friends.

It would be difficult to do justice to his merits as a Gentleman, and a Member of Society:—They were felt and acknowledged wherever he was known, and the Circle of their influence was equally extensive and respectable—Possessed of a disposition benevolent and humane, he was ever ready to assist and relieve the unfortunate, and the delicate mode of effecting it, doubled the bounty which he bestowed.

Having been for some months past in a very declining state of Health, he had been induced to try the effects of a short sea voyage to Mahé, on the Coast, where he had resided for some time; and, on his return to Bombay, his indisposition having greatly increased, it was judged prudent to stop at Mangalore for Medical advice, where he received every aid and attention which friendship and professional skill could afford, during the short time he survived his arrival—He was interred at that place with the most distinguished Military Honours, which were directed by the following General Order from Colonel Mignan, who Commanded at the Station.

HEAD QUARTERS, MANGALORE, November 29th, 1800.

*General Orders, by the Commander in Chief, Jan. 26, 1801.*

The Commander in Chief, remarked with much pleasure and satisfaction the uniformity of Drums, steadiness under Arms, and Soldier-like appearance of his Majesty's 78th Regiment, at the Review this Morning.

Although the correctness with which the several Evolutions were performed, claimed his approbation; his attention was more particularly drawn to the Advance in Line, which was executed with a pre-

cision, regularity, and connection, highly creditable to Lieut. Colonel McKenzie, and the other Officers of the Corps, as evincing the great attention they must have paid to this essential object, to bring the Regiment to its present State of discipline.

Extra Batta to be issued to day to the 78th regiment.

*G. O. By the Most Noble the Governor General, January 27, 1801.*

The Most Noble the Governor General directs, that the following extract of a letter from the Honourable the Court of Directors, received by the Lord Walsingham, Indianman, be published in General Orders.

It being impracticable to accommodate the whole of the Cadets proceeding to Madras and Bombay, this season, consigned to their Presidencies, several of them will take their passage on the Bengal ships, whence they are directed to proceed to their duty by the earliest opportunity.

As this does not arise from any fault in the Cadets, who take this circuitous passage, but merely from the want of accommodation in the Madras and Bombay ships We have resolved that the period of their service may be considered as commencing from their arrival in Bengal.

His Lordship in Council also directs that the Cadets of the Presidencies of Fort St George and Bombay, alluded to in the foregoing paragraphs, be furnished individually by the Town Major of Fort William, with the certificates of the dates of their respective arrivals at this Presidency, that a list of the names of the whole of these Cadets, specifying the ships on which they arrived in Bengal, the dates of their arrival and the Presidency to which they are respectively appointed, be transmitted by the Town Major to the Secretary to the Government.

*P. O. By the Most Noble the Governor General in Council, January 27, 1801.*

*Presidency Orders, by the Most Noble the Governor General.*

*FORT WILLIAM, JANUARY 28, 1801.*

The Governor General derived great satisfaction from the review of the Regiment of Artillery, under the command of Colonel Green, at the Camp at Dum Dum, this day.

His Lordship observed with pleasure the activity and precision with which the Gun Exercise was performed, and the particular accuracy and skill displayed in the Curtain, Moving Target, and Battery practice, especially in the Mortar Battery.

The Governor General also remarked the considerable degree of perfection which the Golandauze have attained under the immediate direction of Captain Lieutenant Johnston, and of Captain and Adjutant Clements Brown: His Lordship approves the meritorious exertions of the former Officer in the original formation of the Corps, and the attention and care of the latter in its recent discipline and exercise.

The general appearance and performance of the Regiment, reflect great credit on the diligence and ability of Colonel Green, and of the several Officers acting under his command, and correspond with the high character long maintained by the Bengal Artillery, and with the eminent services rendered by the Detachments of that distinguished Corps, employed during the late War in Mysoor.

The Governor General requests his Excellency the Commander in Chief, to communicate these Orders to Colonel Green, and to signify to that Officer His Lordship's approbation of the appearance of the Regiment of Artillery, on this day.

By His Lordship's Command,  
M. SHAW, Military Secretary.

*General Orders, by the Commander in Chief, Jan 28, 1801.*

It having been represented to the Commander in Chief, that several certificates granted by officers commanding detachments, to Zemindars and Ghaut Mangies, for expences incurred in crossing troops over the rivers, nullahs, &c. &c. are greatly at variance, with the form ordered to be observed by Government under date 28th April 1794, —His Excellency is therefore pleased to direct, that all officers commanding detachments of troops, shall strictly conform to the rules prescribed in the above orders, and when they shall have occasion to give certificates to Zemindars or others for Boats furnished by them for the public service, that they draw out certificates in the manner therein directed.

The Recruits of His Majesty's 25th Dragoons, 12th, 33d, 73d, 74th, 77th regiments, and the Scotch Brigade, are to be embarked on board the Honourable Company's ship, the Castle Eden.

*Presidency Orders, by the Most Noble the Governor General,  
Fort William, January 29, 1801*

The Most Noble the Governor General in Council, having observed, that in several recent instances at the new stations and posts which the troops have occupied in the Vizier's Dominions, officers have drawn extra batta for native Troops, under a misconception of the General Orders of the 7th May 1800, and 13th October 1784;—His Lordship in Council judges it proper to remark, that as doubts were entertained by some of the officers, whether the native Troops at these stations

were entitled to extra batta, it was the duty of the officers concerned, to have submitted the question, through the proper channel, for the decision of Government.

In consideration of all the circumstances of the case, the Governor General in Council will not order the extra batta, which has always been drawn for the native Troops, at the new stations in the field, to be refunded; but his Lordship directs, that in future, the regulations respecting extra batta to the native Troops be strictly observed, and that all stations or posts, where public buildings shall be ordered to be erected, and lines constructed at the expence of Government, half batta only be drawn for the native Troops. When native Troops shall be ordered to march to such stations or posts, the extra batta must cease, on their arrival at their respective destinations, according to the existing regulations on that subject.

When native Troops shall occupy a station or post, which it is intended shall become to such degree a permanent station, as to require the construction of public Buildings and Lines; the extra Batta of the Troops in such cases shall be discontinued from the date of the Order directing the construction of public Buildings or Lines.

Whenever Orders shall be issued for the construction of public Buildings and Lines, at the new stations or posts, an immediate report is to be made by the proper Officer, by letter, to the Military Auditor General, of the date of the Order for constructing the Lines and Buildings.

Major General John Fullarton, has permission to proceed to Europe, on furlough.

Mr. A. D. Fordyce, being nominated for the artillery or engineer corps, and having expressed a desire to be appointed to the artillery branch of the service, the Governor General in Council is pleased to appoint Mr Fordyce to the artillery corps, and to promote him to the rank of Lieutenant Fire-Worker, with rank as such from the 14th December, 1799.

Mr. Hemming Jones, having arrived at this Presidency, and produced the certificate of his appointment of Cadet for the artillery or engineer corps on this establishment, and Mr. Jones having requested to be attached to the engineer corps; the Governor General in Council is pleased to comply with his request.

Mr J. H. Jones, Cadet of Engineers, is to rank immediately above Mr. Thomas William and below Ensign Henry Wood, conformable to his standing on the general list of Cadets.

Ensign E. S. Arnold is transferred to the Cavalry, and appointed a Cornet, under the express stipulation of relinquishing the rank he has obtained in the infantry, and taking rank, below all the Cadets of the same season with himself, who shall arrive, with appointments to the Cavalry, from the Honourable the Court of Directors.

---

We long since communicated the capture of the ship *Armenia*, of this port, at the same time mentioning, that her commander and crew had been landed in the Island of *Sechelles*. By a letter received from Capt. Meik, dated *Cochin*, the 6th of January, it appears that he, and his crew, together with two midshipmen, and sixteen men belonging to his Majesty's ships *Adamant* and *Lancaster*, were embarked on the 29th of October, on a small vessel of 35 tons, bound to *Columbo*. It is with much concern we state, that this vessel was wrecked on the 9th of November, about 12 o'clock at night, upon a reef of rocks amongst the *Maldivia* Islands, and that five men of his Majesty's ships, three of the *Armenia's* crew, and five Frenchmen, unfortunately perished in an attempt to reach the shore by a raft.

The survivors betook themselves to a couple of *Maldivia* boats, in one of which Capt. Meik reached *Cochin* on the 4th ult. The other in which were the people belonging to the King's ships, had not arrived.

Mr. Maddox, a midshipman of his Majesty's ship *Lancaster*, died by sickness on the passage. Captain Meik expresses himself in the highest terms of the attentions shewn to him, his officers, and crew, by the inhabitants of *Sechelles*, during their stay at the Island.

*Feb. 2d.*—On Monday last came on for trial before the Supreme Court, in its Admiralty Jurisdiction, the case of Samuel Stephenson, charged with the murder of Mr. James Heath Mitchell.

It appeared by the evidence, that on the 2d of June last, the deceased was 2d Officer, and the prisoner a seaman on board the ship Bengal, then on her passage to this country. Mr. Mitchell, it seems, in consequence of a complaint made to him, that the prisoner had been insolent to an inferior Officer, had ordered him to go from below upon deck, but his order not being readily obeyed, he had repeatedly attacked the prisoner with a broom stick, and struck him with considerable violence, which treatment at length induced a scuffle between them, and in the course of it, Mr. Mitchell received a mortal wound with a clasp-knife.

The Chief Justice prefaced his charge to the Jury, by observing on the relative situations of Seamen and Officers on board Merchant ships carrying Letters of Marque.—In ships so circumstanced, he said, the discipline of the Navy, as regulated by the Articles of War, was now by positive Statute, in as full force as in a King's ship; but as there was now no defect of authority on the part of the Officers, the law also required that seamen should be protected on their parts, against the exercise of that authority in any irregular manner. His Lordship then adverted to the circumstance of the particular case; discriminated the characteristics of the four classes of homicide, namely justifiable, excusable, manslaughter, and murder; and concluded by directing the Jury, that the fact in the present instance rested between the two middle descriptions, excusable homicide, and manslaughter. The attack which appeared in proof to have been made upon the prisoner, seemed entirely to exempt him from the imputation of murder, whilst the nature of the case on the other hand was not such as to amount, in the contemplation of the law, to justifiable homicide, it not having been committed in the prevention of a felony, or in any of those circumstances essential to the justification of him, who kills an assailant. But though there might be now no reasonable ground to suppose that Mr. Mitchell meant the death of the prisoner, in the attack which he had made upon him, yet it was for the Jury to say, upon the evidence given, whether, heated as the prisoner must have been by the *affray*, and ur-

ged as he still continued to be by the deceased, armed with a weapon of no inconsiderable offence, he had not reasonable ground to consider his life in imminent danger, and might not have done the deed charged against him, with the view of extricating himself from such peril. If they believed that to be the fact (and how far it was so, his Lordship repeated, it rested exclusively with them to determine) the case would be excusable homicide, and the prisoner would be entitled to a verdict of acquittal; but if they should be of opinion, that the prisoner acted merely from the heat of passion, and not from a principle of self preservation, it would then amount under the provocation given, to manslaughter, which, his Lordship observed, is by a recent Statute, punishable now when happening at sea, in the same manner as if it had occurred on shore.

The Jury retired for several hours, and after ten o'clock at night, brought in a verdict of—*Not guilty*.

---

*February 3d.*—On Saturday last a Coroner's Inquest sat in the Jaun Bazar, on the body of a native woman, who died the preceding night, with suspicion of poison.—The deceased came on Friday evening to the house of a man, with whom she said she had formerly lived in habits of intimacy, but who had discarded her above two years ago. She laid hold of him saying that she had no other protector, or means of support. On his endeavouring to extricate himself and going away, the deceased was seen to follow him; but she returned alone, and was found in the house of that same man, with violent symptoms, such as convulsion and vomiting.—In this situation she accused the man of having given her poison, and about eleven o'clock at night she expired. The man, and another native woman, who at present lives with him, were detained in custody by the T,hanahdar, on suspicion of the murder; but on examination of witnesses nothing having appeared that could implicate them, farther than the afore said declaration of the deceased; and the inspection of the body not exhibiting any appearance that could ascertain the existence of poison, the Jury returned a verdict—*accidental death by the visitation of God*.

Yesterday arrived the Arab Snow *Humaison Shab*, Nacodah Ben Hassan, from Pegue, which port she left on the 6th ult. She brings accounts of the arrival at Pegue, on the 2d

ultimo, of the Ship *Hongly*, of this port, Captain Hodges, from Bencoolen.—She also reports that four French Privateers have been at Mergui refitting.

*February 4th.*—On Monday last, the Portuguese ships *Princes de Portugal* and *Diligente*, arrived in the river from Macão, last from Pinang, whence they sailed on the 6th ultimo.

By the *Diligente* we learn the melancholy accounts of the massacre of Captain George, and his Officers, on board of his own ship, near the Sand Heads, by four of his seaconnies,—the particulars are nearly as follows :

The ship *Marianne* was bound from Prince of Wales's Island to this Port, and had near completed her voyage, when four of the seaconnies rose upon their Officers, murdered the Captain, his first and second Mate and a native Woman—gaining over the Lascars, they proceeded for Chittagong ; when getting sight of land, they hoisted out the ship's boat, laid a train of Gun-powder between decks and were in the act of pushing off from the ship and to set fire to her, when a Tindal plucking up courage, jumped into the boat alongside, plunged his knife into one of the seaconnies' bodies, and being himself wounded, they both fell into the sea and were drowned,—the Lascars upon this attacked and killed two of the remaining three seaconnies ; the survivor took refuge on the Main Top mast-head, being armed with a brace of pistols and a large knife, where he remained for two days—he was at length persuaded, by fair promises, to come down, and having been plentifully plied with liquor he fell a sleep, when he was secured in irons by the Lascars, his arms taken from him, and in this state the ship arrived at Prince of Wales's Island, and is now, we believe, hourly expected at this Port.

*Feb. 9th.*—The approaching departure for Europe of the Commander in Chief, afforded an opportunity to the Military Servants at this Presidency, of manifesting on the part of themselves and of their absent brother Officers, those sentiments of respect and personal attachment, his Excellency's conduct, in his public situation, as well as the urbanity of his manners in private life, could not fail to create in an Ar-

my, which from having so long served under his Command, had the best means of becoming acquainted with his valuable qualities.

The occasion was eagerly embraced, and as the most public mode of testifying their esteem, an elegant Ball was given on Wednesday last, at the New Rooms, to His Excellency. —The style in which the Rooms were fitted up, both as to splendour and accommodation, reflects great credit on the taste and contrivance of the Committee of Officers appointed to conduct the amusement of the evening.

About Nine o'clock, Sir Alured, accompanied in his carriage by Sir James Craig, and attended by his Staff, arrived at the Rooms. His Excellency was received and conducted into the Ball-room by General Popham and the Staff and other Officers of distinction at the Presidency: the Native Troops forming a street with presented arms, and the Bands of H. M. 10th and 78th Regiments playing the "Duke of York's march."

Marquis Wellesley attended by his Staff and escorted by a detachment of the Body Guard, arrived shortly after, and was ushered into the Ball room, the Bands playing—"God save the King." The dances then began, and were continued with great spirit and animation until half past twelve, when the doors of the Supper-room were thrown open, and the company, consisting of nearly 500 persons, sat down to a most elegant and sumptuous repast.

The Tables were so judiciously arranged, that the company tho' very numerous, was completely accommodated. But what most particularly attracted our notice, was the mode in which the entrance from above into the supper-room, was managed.

The flight of stairs was so contrived as to afford a complete vista of the Supper Tables, and when the company was seated, produced, from its novelty, a most pleasing effect. After supper, the dance was resumed, and continued with great hilarity till four o'clock in the morning.

The Ball which followed on the next Friday evening, from the Senior Civil Servants, and principal Inhabitants of Calcutta, was conducted in a similar manner.—We had, however, the pleasure to remark upon one improvement, in the accommodation afforded to the Dancers, by the exclu-

sion of Spectators from the space between them and the benches, the want of which arrangement on the previous occasion, had been attended with some inconvenience. Perhaps too, the Bands being placed on the stairs of the Supper Room, instead of the situation before allotted to them, was of advantage to the general effect of the spectacle.

In pursuance of the Resolution of the Most Noble the Governor General in Council of the 15th January, (notified in the Gazette of the 29th of the same month) to present Captain Moffat, Commander of the Hon. Company's ship *Phoenix*, with a Sword, that Gentleman had the satisfaction of receiving the same the 7th instant, from the hands of Major General Baird, on the Quarter-deck of the *Phoenix*. The General in presenting Captain Moffat with the Sword, addressed him in the following words:

"The MARQUIS WELLESLEY has requested of me, to present you with this Sword from him, as a mark of His Lordship's high approbation of your gallant and Seaman-like Conduct, and that of your Officers and the Ship's Company in preparing for and during the Action on which you engaged and Captured the Malartic French Privateer.

"I congratulate you on this occasion, and feel much pleasure in complying with his Lordship's request."

His Excellency Sir Alured Clarke, K. B. Commander in Chief of His Majesty's and the Honourable Company's Forces in the East Indies, a Member of the Supreme Council of Fort William in Bengal, and Provisional Successor to the Marquis Wellesley in the Government General, having appointed Monday the 16th instant, for his embarkation for England, His Excellency proceeded about six o'Clock in the morning to the Government House, in the carriage of the Most Noble the Governor General, escorted by a detachment of the Body Guard, and attended by several of the Officers of His Lordship's Staff, and accompanied by many of the principal Officers and Gentlemen of the Settlement. The Most Noble the Governor General, His Excellency Sir Alured Clarke, Mr. Speke, and Mr. Cowper, proceeded from the Government House in his Lordship's carriage, escorted by the Body Guard, to Fort William, at the Gates of which, they alighted, and

were met by the Commanding Officer of the Garrison. The Governor General, His Excellency Sir Alured Clarke, Mr. Speke, and Mr. Cowper, walked through the street which was formed by the troops in Garrison, from the Calcutta Gate to the Water Gate; the bands of His Majesty's 10th and 78th Regiments playing a March, and the Officers saluting His Excellency Sir Alured Clarke as he passed. His Excellency embarked at the Water Gate under a Salute of seventeen guns from the Ramparts of Fort William, on board of the Charlotte Yacht, and proceeded down the river, for the purpose of embarking for England on the Honourable Company's ship Bengal.

On Tuesday the 17th instant, William Cowper, Esquire, Third Member of the Supreme Council of Fort William in Bengal, embarked from Calcutta under a Salute of thirteen guns, and proceeded down the river, for the purpose of embarking for England, on the Honourable Company's ship Lady Burges.

*February 18th.*—On Saturday arrived the ship *Aurora*, Captain Aiken, from Tappanooly, whence she sailed on the 17th January. Captains Reid and Douglas, of the Honourable Company's Military Service, are passengers by this conveyance.

We are sorry to learn that Captain F. H. Pearson, of the Engineer Corps, died at Bencoolen in December last.

We have the satisfaction to announce the arrival of the Georgiana Packet, Captain Leigh, from England, whence she sailed on the 15th of September; and the Cape, which she left on the 21st of December.—The Honourable Henry Wellesley has arrived a passenger from England by this conveyance.

The Georgiana brings intelligence that many prizes had been carried into the Cape, by his Majesty's Squadron.—Of the particulars we have not been informed; but in the number were several Vessels under Prussian Colours.

Last week arrived the Honourable Company's frigate *Non-such*, Captain John Canning, from a cruise, in which she retook a small snow named the *Dragon*, from Meigui, bound to the Mauritius.

The *Transfer*, of this port, after her capture by the *Diana*, in November last, had proceeded for Mergui, and on her passage had taken this snow, carried her back to that port, and having laden her with the greatest part of her own cargo, had dispatched her for the French Islands, when she was fortunately re-captured by the *Nonfuch*; we are however naturally anxious respecting the prize, as we have heard she parted with the *Nonfuch* on the 25th December last, and has not, we believe, since been heard of.

The *Transfer* has been fitted out at Mergui, we hear, as a privateer, her poop removed, and every other repair given to her that the port would allow.

Accounts from the Coast mention the appearance of the *Diana*, French privateer, at Ganjam, on the 6th instant, fortunately there were no ships then at that anchorage; the crew had however made free with whatever suited their wants or inclination from two or three *Donies* then laying there.

---

It is with great concern we state the Capture of the ship *Peggy*, Captain Robertson, off Rangoon Bar, on the 30th ultimo; and that of the *Duke of Clarence* from this port to Rangoon, by the French privateer *La Gloire*. The intelligence is brought by Captain Kemp, who arrived here on Sunday, the 22d instant, in a boat from Rangoon.

The *Peggy* fell in with *La Gloire*, at day-break in the morning, and was chased until two o'clock P. M. when the wind dying away, the privateer came up with her. In the hope of wounding the masts, the *Peggy* fired a few shot at the Frenchman, but the attempt was unsuccessful, and she was compelled to surrender.

Previous to the capture of the *Peggy* and *Duke of Clarence*, Capt. Burgoin had taken, on the 27th ult. the ship *Diana*, Capt. Macarthy, from Pinang bound to Rangoon, and on the 30th the Sloop *Endeavour*, Captain White, bound to this Port with a cargo of Timber, the greater part of which he threw overboard, in order to make room for his prisoners, with whom he sent her into Rangoon.

We are sorry to add that the *Snow Dragon*, prize to the *Nonfuch*, was re taken by *La Gloire*, and after taking her cargo out, was burnt; the Prize Master and crew were sent to Rangoon in the Sloop *Endeavour*, mentioned above.

### *Extract of a Letter from W. L. Thompson.*

"I avoid mention of the return of the *Friendship* Captain Dawson, for Bombay, to give even every information from this place. The season has been unusually fine, the *Thames* Indiaman had nearly all her crew sick, and lost her Surgeon, Surgeon's-mate and several of her people. The *Amilton*, Captain Majorbarks since her arrival has had it also, through her whole crew as well as the Country-ships; the *Lovjee* had at one time upwards of One hundred men on the sick list, the general complaint was a severe fever, with violent pain in the Head and Lungs.

"Monsoon has been exceedingly variable indeed, owing I believe to a great extent to the great abundance of species of Tea about its usual price, Sugar cheap, but every other export almost from twenty to fifty per Cent. higher than formerly.

"The good Cotton that has come to Market is very lumpy, some cotton brought by the *Thames* and some of the Indiamen, particularly that (that came the eastern passage) so much mixed with cotton of a inferior quality, as to amount I am told, on a fair trial of several bales to 30 per Cent. in others a few large Bombay stones were found carefully packed in the middle of them."

The price of Cotton has been fluctuating from 9 tale to 11—5 per pecul.

### *Extract of a letter dated TUESDAY, 17th Nov 1850.*

"I had the pleasure of addressing you at our departure from Isfahan, and have now to acquaint you that we arrived at this capital four days ago, after a very pleasant journey, in which we experienced the attention with which we were every where received, and we advanced from which we formed a favourable opinion of our reception at this place, and in which we have not been disappointed.

"Two of the chief officers of the court attended by twelve hundred of the King's gholams or body guard, came out eight miles to meet the embassy, and formed our escort to the house of Hajy Ibrahim the prime minister, which had been prepared for our reception. Here we have the most excellent accommodation, and as the Hajy himself is our *Mehmandar*, we have our breakfast and dinner regularly from his kitchen, and we are now grown so fond of his *pilaws*, that though our own dinners are regularly dressed, nobody ever thinks of tasting them.

"We yesterday went in state to visit the King, and nothing could be more magnificent than the whole ceremony. Captain Malcolm was attended by the whole escort, music playing, led horses and every other mark of dignity which he had usually assumed at other places.

"We did not dismount at the entrance of the *meidan*, as is customary, but proceeded on horseback to the very gates of the palace, where we were received in an antechamber by Solyman Khan Kujer (a near relation of the King's) with whom we smoked our *Callean*s and drank coffee, till such time as the master of the ceremonies arrived to usher us into the presence.

"He conducted us into a spacious court, in which were drawn up about two thousand of the guards, a elegantly crested - at the farther end of this garden was the *Dara Khana*, at one corner of which we perceived the King sitting on his *Mahud*. When we had approached sufficiently near, an officer proclaimed that Captain John Malcolm, *Behander, Ambassador from the Governor General of India*, was come to wait upon his Majesty. To this the King replied, WELCOME, with a loud voice. We then entered the *Dara Khana*, and took our places as follows, Captain Malcolm was seated near the center of the room (at a small distance from the King) at his right, a little above him stood the heir of the throne, and another Prince and the prime minister on his left a little below.

We were all seated at some distance below, exactly opposite his Majesty.

"The sun shone into the room just where the King was seated, and the reflection of the diamonds in his Crown, *Bazubands*, &c. was so great from that circumstance, that it was almost impossible to look at his face. The celebrated *COH-N-UR* shone amongst the rest with distinguished lustre on his right arm. Nothing could be more gracious than His Majesty's deportment during the audience, which lasted about twenty minutes, and we all took our leave much pleased with our reception.

"The King is about thirty two years of age, he has a roman nose and a very long black beard, and his countenance on the whole, is pleasing and dignified."

### *General Orders, by the Most Noble the Governor General in Council.*

Fort William, February 16, 1801.

In dismissing the Infantry of the Calcutta European Militia for the approaching Season, the Governor General signifies his entire approbation of the appearance of the Corps on the 15th Instant.

His Lordship remarked with particular satisfaction the general appearance of the Corps in Line, and when passing in Review, the march in open column was exact, and the distances between the several Divisions were well preserved.

The manœuvres were executed with a degree of accuracy, which could not have been expected from a Corps, whose opportunities of practice have necessarily been so much limited, the fire was, in general, close, and precise.

The Officers and Non-commissioned Officers manifested the most commendable attention and intelligence; on the whole this Review has satisfied the Governor General, that the practice of another Season will improve the discipline of the Calcutta European Militia, to the full extent of the important objects which His Lordship proposed to attain by its revival; and the Governor General entertains the firmest confidence, that in its present state, this respectable Corps would prove a most useful addition to the defences of the Seat of the Supreme Government, under any extraordinary exigency of the Public Service.

By His Lordship's Command, \*

M SHAWE,

*Military Secretary.*

## 1905 THE CALCUTTA MONTHLY JOURNAL,

PUBLIC DEPARTMENT, FEBRUARY 12, 1801.

THE Secret Committee of the Honourable Court of Directors, in a letter dated the 30th of Sept. 1800, having been pleased to direct, that every encouragement be given to the exportation of Rice from India, to England, so as to throw in as large a supply as possible into England, previous to the ensuing harvest in that country, the Most Noble the Governor General in Council has been pleased to direct, that the following extracts from the letter from the Honourable Committee be published.

"That every ship which takes on board three quarters of her registered tonnage in Rice, shall have liberty to fill up with such goods for this port as has been usual of late years to be imported by country ships."

"That the ships which embark in this adventure, shall be allowed to carry out exports from this Kingdom as of late allowed to country ships."

"That the said ships shall be excused from paying on the Rice which they import the three per Cent which otherwise would become due to the Company for landing, Wharfage, &c. &c."

"That when the ships are approved by our surveyors, as usual in India, the risk of the Rice which they bring shall be on account of Government, which will of course save the owners of it the expence of Insurance on that article."

"That in case of the price of Rice, being on the ships arrival here, under from thirty-two to twenty-nine shillings per 100 weight, the difference between the price it sells for, and the above rates, shall be made good to the owners on the following conditions, that the ship which sails from her port of landing, within one month after the contents of this being promulgated, shall be guaranteed—thirty-two shillings per hundred weight for the Rice which she brings—if in two months, thirty-one shillings—if in three months, thirty shillings—and if in four months, twenty-nine shillings."

"The above encouragement we have to observe is only to be given on condition that the Rice so laden be purchased by a person under your appointment. We conceive this latter proviso absolutely necessary, because unless the Rice is of real good quality, and the newest to be had, it cannot be expected to answer the purpose for which it is meant. It ought to be of what is generally styled the best cargo Rice."

"Although our Government will endeavour to secure to these ships convoy, whenever they can get it, they still should on no account be detained for convoy. We need not point out, that copper'd ships should be preferred on this business, as so much depends on expedition."

By Order of the Most Noble the  
Governor General in Council,  
C. R. CROMMELIN,  
Secretary to Govt. Pub. Deps.

*General Orders, by the Commander in Chief, February 3, 1801.*

THE Commander in Chief having taken into consideration the temporary inconvenience which the Company's officers might experience, in consequence of not having been furnished with commissions from His Majesty, corresponding with those they may have by regular promotion, in the Honourable Company's army, since the period of the General arrangement that took place, conformable to the regulations established by the Court of Directors, on the 8th of January 1796, when the late Commander in Chief ceased to issue them, — His Excellency, in order to prevent it, and at the same time to obviate any misconception, and remove any doubts, that may have been entertained of the Governor General in Council, is pleased to order and direct, that all officers in the Company's army be considered as entitled to and possessing all the rights they would have enjoyed under commissions granting local rank

in the King's army in India, corresponding with the usual commissions they have obtained in their own, the same as if such had been issued, until His Majesty's pleasure shall be known.

And to prevent any mistake or delay, which a want of information of the dates of the several promotions that have taken place amongst the officers of the Company's army, at the different Presidencies, might occasion in the procuring corresponding King's commissions, as well as to secure to those officers the benefit of a y general Brevet promotion that His Majesty may have made, or that'll be graciously disposed to make, the Commander in Chief is further pleased to direct, that correct alphabetical lists, agreeable to the accompanying form, of all officers who have been promoted, at the several Presidencies, for whom corresponding King's commissions have not yet been granted by any Commander in Chief, be made out immediately, up to the 1st of January, 1801, and transmitted to head quarters, for the purpose of being sent to Europe; similar lists to be sent whenever promotions shall have taken place to render it necessary in future.

*G. O. By the Commander in Chief, Feb. 6, 1801.*

Lieut. Col. Woodburne is ordered to join and do duty with the Artillery at the Presidency.

The Commander in Chief has frequently had occasion to express his approbation of the industry and assiduity of the Artillery men, in the various duties of their profession, and he feels much pleasure in remarking, that the favourable opinion he entertained of this corps, has been increased and confirmed by its behaviour at the Review this morning.

The battery practice was performed with a correctness, which could not be surpassed, and while the Commander in Chief regrets, that the weather precluded the curtain practice being attempted, he is persuaded, that had it not been prevented by this circumstance, it would have been equally entitled to his commendation.

The Commander in Chief has much satisfaction in again repeating the high sense he entertains of the merits of Colonel Green, and the other Officers, under whose instructions, and by whose exertions, the regiment of Artillery has been brought to its present state of discipline.

Extra batta to be issued to the Artillery men.

*General Orders, by the Commander in Chief, Feb. 16, 1801.*

The Commander in Chief, before his final departure from India, esteems it not more an act of justice to the Army, that has served under his immediate orders, near four years, than a tribute due to his own feelings, to publish his sentiments of its merits and defects.

He reflects with heartfelt satisfaction, that throughout the whole period of his command, the zeal and attention which have been invariably manifested by the Officers of all ranks, to the duties of their profession, have not had stronger claims on his public approbation, than the cordial support and personal attention he has uniformly experienced, entitle them to his warmest thanks. The Commander in Chief must ever cherish the sentiments of gratitude with which his mind is impressed, for men endeared to him by the spirit of *Honour, Propriety, and Distinguishedness*, that have distinguished their public and private conduct, and he shall be happy on all occasions to bear ample testimony to the collective and individual merits of this Army, and with real approbation embrace every opportunity to promote its interest.

Where the Commander in Chief has had so much reason to express his approbation generally, it might seem difficult to discover cause for particular praise, but the peculiar situation in which Major General Sir James Craig has been placed in the Field, having occasioned the greater part of the Army to be at different times under his immediate com-

mind, and the discipline of the whole having received essential benefit from his unremitting exertions, knowledge, and care; the Commander in Chief cannot resist the impulse he feels, in this public manner to offer his hearty thanks to the Major General, for those, and his other important services, during the period of his command in the Field, which he hopes he will be pleased to accept.

*General Orders, by the Most Noble the Governor General in Council, Fort William, Feb 16, 1801.*

His Excellency Lieut General Sir Ahmed Clarke, K. B. Commander in Chief, having taken his Departure from Fort William, for the purpose of returning to Europe, and Major General Sir James Craig, K. B. being the Senior General Officer upon the Staff of this Presidency: The Most Noble the Governor General in Council directs, that all reports and returns, of the troops under the Presidency of Bengal, be transmitted to Major General Sir James Craig, K. B. at Fort William, till further orders.

His Lordship in Council authorizes Major General Sir James Craig, to nominate a Secretary to assist in carrying on the detail of the army.

*General Orders, by Major General Sir James Craig, K. B. Feb 16, 1801.*  
Major Barnes is appointed Secretary to Major General Sir James Craig.

*G. O. by Major General Sir James Craig, Feb. 17.*

Mr. Bartlett, Conductor, is appointed to the Auction in Fort William.  
*General Orders, by the Most Noble the Governor General in Council, Fort William, February 21, 18*

The Most Noble the Governor General, has been pleased to appoint Major W. Griffiths, to be one of His Lordship's Aid-du-Camp, in the room of Lieut. B. Sydenham, gone to Europe.

His Lordship in Council, directs that the following Paragraph, of a general letter from the Honourable the Court of Directors, dated 24th August last, be published in General Orders.

PAR 3.—Several years ago (viz in 1768) we resolved that such Gentlemen, proceeding to the several Presidencies that season as Cadets, who had held Commissions in His Majesty's Service, should be promoted in preference to all other Cadets of that season, and according to the dates of their respective Commissions.

PAR 6th.—This resolution was observed by us in ranking the Cadets for two seasons only, but we understand that the rule has since been generally observed at Bengal, and that such Cadets who have held Commissions in His Majesty's Service, have accordingly had superior rank assigned them. As it, however, appears in the instance of Mr. Thomas Russell White, that Gentleman may have held a Commission in His Majesty's Service for a short period, for the sole purpose of being placed at the head of the list of rank in India, we have resolved, that no Cadets shall be allowed a higher rank than that assigned him by the list transmitted by us in each season. It is our intention, in forming these lists, to rank at the head of the same, such Gentlemen who shall actually have been for the space of one year at least, a Commissioned Officer in His Majesty's Service, or in the Militia, or Fencible

men, when embodied and called into actual service, or have been in the Company of Cadets in the Royal Regiment of Artillery.

PAR. 7th.—The above resolution we mean to enforce in future, but by no means to make any alteration in the rank which has hitherto been assigned by you to every Gentleman now in India.

PAR. 8th.—The rank of Cadets on the lists of 1798 and 1799, which was forwarded by the Walsingham and Earl Spencer, having been settled before we had come to this determination, it is very probable that some of the Gentlemen may have borne Commissions in His Majesty's service, and may expect superior rank on their arrival in India, agreeably to the custom at Bengal. We therefore in these lists only admit of your assigning a higher rank to such Gentlemen as shall appear clearly to your satisfaction, to have served actually one whole year in His Majesty's service as abovementioned.

PAR. 9th.—Upon comparing the periods of Mr. White's holding a Commission in the 2d Regiment of Tower Hamlets Militia, with the dates of his being approved by us, and of his proceeding on his passage to India, we were led into a long investigation of the circumstances of his obtaining superior Rank in the Company's service; and it appearing, that although Mr. White did not apply for our Secretary's Certificate of his appointment until the 25th June 1797, he had been actually approved by us as a Cadet on the 20th January preceding, and that he did not obtain a Commission in the 2d Regiment of Tower Hamlets Militia, till some month afterwards, we have resolved, that as his Commission in the Regiment is of a date subsequent to that of his being appointed as a Cadet, he shall not have the Cadets of the same season, who have a Commission, and that he shall therefore rank to the year in which his name stands on the list of the rank transmitted by us in the season in which he was appointed.

PAR. 22d.—We have appointed Mr. M'Moody, an Assistant Surgeon, for your Presidency, on the lists of the present season (1799), and have ranked him next below Mr. H. Gibson.

PAR. 23d.—If ever observed in some instances, Officers who had received the benefit of the regulations respecting furlough, had soon after their return to their duty in India, applied for and obtained farther furlough, we decided that the pay of such Officers should be withheld after three years receipt of such Pay, unless in case of certified ill health.

PAR. 24th.—As the regulations do not appear to have been understood by the Governments in India, in the manner above stated, it may seem a hardship, in some instances, to officers who have been permitted to come home on second furlough, under an implied sanction for drawing their pay, if they are not allowed such pay during their second furlough, although the pay altogether drawn may not exceed three years; but in order to prevent the regulations from being misunderstood in future, we have resolved, that no officer who has drawn three years pay on furlough, shall be allowed any farther, on being permitted to come home again on furlough hereafter, unless in case of sickness under the present certificate.

A neat imposition to a considerable amount was a few days ago practiced upon a dealer in Pearls, by an artful swindler, calling himself the Kidmutgar of an officer in Fort William. His master, he told the merchant, had sent him in quest of some fine Pearls, and if he possessed any of that description and would attend him with them into the Fort, he might probably find a purchaser. The merchant consenting, put up some of his finest Pearls, and followed the pretended servant to the South Barracks; where having arrived, his companion left him at the bottom of the stairs, saying he would give notice of his arrival and introduce him immediately. In a few moments he returned, with information that his master had gone out, leaving instructions with his mistress, for whom the Pearls were intended, to select and purchase such as she might approve. Here, however, a difficulty occurred: the Lady's rank was too high to allow of a stranger's admission into her presence. The rogue offered to obviate it by himself carrying the Pearls for his mistress's examination; but to a proposition of this kind from an entire stranger, the merchant very naturally objected. During the colloquy, another man came

up, as if casually, and entering into conversation begged to accommodate matters by remaining as security for the return of the messenger, whom he stated to be an old fellow servant, and to his knowledge, a perfectly honest man. Unsuspicious of any collusion, and no other mode appearing of disposing of his commodity, the merchant unwarily agreed, and put Pearls to the amount of seventeen hundred Rupees into the swindler's hands. He ascended the stair-case, and as might have been foreseen, has never since made his appearance.

After waiting a considerable time and finding there was no hope of the man's return, the unfortunate dupe adopted the only remedy in his power by seizing the Security, and carrying him to the Police Office.—Upon interrogation before the Magistrate, he denied any concern in the theft, at which he expressed the deepest regret; acknowledged that he had made himself responsible for the value of the Pearls, but trusted his utter inability to restore so large a property, and trusted that he should not be punished merely for having placed an ill judged confidence. No doubt can of course be entertained of his being an accomplice in the fraud, and he is detained in custody until the matter can be further investigated.

*March 10th.*—Yesterday arrived the ship Charlotte, Capt. Moreira Dias, from Madras, whence she sailed on the 14th of last month.

Messrs. Fielding, Wyatt, and Richards, Cadets on the Bengal Establishment; Lieutenant Frisell, Bombay Establishment, and Mr. Gardiner, have arrived passengers from Madras by this conveyance.

---

A horrid circumstance occurred a few days since at Chander-nagore. Information was lodged with the Officers of Police, that in the house of one Radah Caite, a corpse, supposed to be his Mother's, who a few months before had suddenly and unaccountably disappeared, had been discovered thro' an aperture in the wall. The Magistrate accordingly repaired to the spot, where was found, as had been represented, a female corpse, consumed to a skeleton, and forcibly crammed into a basket. Upon his examination Radah Caite confessed, that about four months ago, a quarrel had arisen between him and

his mother, in which, she having given him great provocation, he had struck her a blow on the face. That her abusive language still continuing, he then left the house, and returning home a few hours afterwards, found his Mother a lifeless corpse.

Alarmed he said, lest suspicion should rest upon him from it's being known that he and his mother lived not upon very good terms, he immediately buried the body in his own house; and to the various inquiries regarding her which had been since made by his brothers and the neighbours, had uniformly replied, that she was gone to Paunrah upon a visit to his uncle. That some days since, however, understanding in conversation, that this account was doubted by many of the neighbours, who had determined to give information of their doubts, and cause his house to be searched, he had dug up the body in the design of throwing it at night into the River, but was prevented from putting this intention into execution, by an unexpected visit from one of his brothers. The corpse had in consequence continued from that time in a basket deposited in a small hut communicating with his dwelling house.

Against him there is at present no other evidence than this confession, and the circumstance of the body being found in his house, combined with his assertion that his mother had gone to Paunrah:—Strong presumption, it must be confessed of his guilt. He has therefore been fully committed to take his trial before the Judge of Circuit, and of a crime, at the bare mention of which human nature shudders, we sincerely hope he may be able in the end to establish his innocence.

*March 17th.*—On Saturday last arrived the Houghly, Captain Hodge, from Pegue, which she left on the 2d of February.

*Extract of a letter from Pondicherry, dated 25th of February 1801.*

" We had an alarm at this place just after day light yesterday morning,—that a privateer's boat had during the night cut out three Rice vessels that were at anchor in the roads;—the three vessels were seen under sail, the nearest about a league from shore —there appeared to be no doubt of the truth of this report, as the owner of the nearest vessel with another of his man had made their escape and swam on shore; —one of them had received a wound in his head.—Captain Godfrey, who commanded the place at the time, with Mr Courson, the Master Attendant, interrogated these people, and they both declared that towards morning, a privateer's boat had boarded their vessel, and that they had done the same with the two others; —that the enemy had placed ten armed men in each vessel, and were then taking them off: the crew of a small sloop came also on shore and told the same story, so that there seemed not to be the smallest doubt of the truth of it, and what corroborated it in Mr Courson's opinion, was that he had seen a suspicious looking vessel off the place at the close of the evening before.

" It was Mr Courson's opinion he could come up with the nearest of these vessels, and in a very spirited manner offered to do so;—for this purpose Captain Godfrey furnished him with a Subadar's party of 30 men, which were equally divided in four boats, on Mr Courson's approach towards the vessel, a boat was discovered with people in it making their escape —Mr Courson after placing a guard of Sepoys in the vessel, pursued, and took the boat, in which was six Frenchmen, who it seems had escaped about ten days before from Poondamalie, — from them he learnt that the two other vessels had sailed of their own accord; —that they alone had been the cause of the alarm, that about four in the morning at a fishing village a little north of the Town of Pondicherry, they had seized a Cattamaran, paddled to the vessel, and had made themselves master of her just before day, —that some of the crew jumped over board and the others they confined below —The prisoners were brought on shore, and in the evening sent off by Captain Godfrey to a detachment of his Majesty's 74th regt. under Captain Dyce, that had marched from Pondicherry that morning for the Presidency, — here ended the alarm; —but it was most fortunate indeed that an attempt was made to save the vessel, for the prisoners would absolutely have carried her off,— she is a fine snow, laden with 40 garce of Rice, belonging to a Moorman

" When Captain Godfrey from the shore perceived Mr. Courson had recovered one vessel, and was then pursuing the people endeavouring to escape, and believing the two others to be in the same predicament, he determined to attempt the recovery of them also, which would have been practicable as a dead calm had taken place, he accordingly manned another boat, and with another party of Sepoys went off to join Mr. Courson for this purpose, but on coming up with him, learned the facts here related."

*Extract of a letter, dated Fort Marlborough, the 1st of January.*

"The West Coast has had a dreadful visitation of sickness these last two months.

"A Fever similar to the yellow Fever of the West Indies, has raged here with unmitigated violence. The great fatality has fallen upon the Chinese Colony. Our few remaining troops have only sustained a loss of three Europeans.

"It has most unluckily happened that all the Medical faculty are laid up in illness - Doctor Campbell, from the severe cold, rains, and damps, he sustained in an expedition into the Country and to the Hills, has been confined these two months. Mr. Lumsdaine has also been laid up with a periodical Bilious Fever, which he is frequently subject to, and Doctor Harlev, (the Head Surgeon,) with difficulty (from a severe Fever of which he is scarcely recovered) able to do duty.

"Within these last fifteen days a Catarrhal Fever, has spread almost universally over the Coast, and the other Fevers of the Bilious Type are diminishing - The writer of this has a melancholy remark to make, that in the course of eight years, eleven Medical Gentlemen have died from climate, and the severity of the duties of this Coast, and sixty-one Gentlemen including Officers, with the Gentlemen of the Civil establishment, besides itinerant Captains and Officers of Ships.

"The fatality has spread a sombre gloom of melancholy every where around. The Bell has been ordered (through the humane attention of the Commissioner) to cease from tolling for the dead, it had such a melancholy effect on the living.

"Captain Pearson, was rapidly carried off, by the fatal Fever of the season, the 6th day from its attack.

"God grant it may cease with him, as there is no other Officer could be spared from duty here."

*Extract of a Letter dated Camp, near Hyderabad, 31st Jan. 1801.*

"Yesterday evening, Lieut. Colonel Bowser, took his final departure from the command of the Subsidiary Force at this station, on his projected return to Europe, to enjoy the fruits of a well earned repose, after a long period of active military services, accompanied with the *esteem* and *regret* of every member of the detachment. An appropriate address, expressive thereof, and highly spoken of in point of style and composition, is intended to be forwarded to the different papers, for publication, in the course of a few days.

"At a conference highly honourable to all concerned, as held with the Colonel prior to his departure, it was generously proposed, and *universally* assented to, that the whole of the prize funds arising from the sale of an *Elephant*, *forty-six horses*, and nearly *ten thousand bullock loads*, of Brinjary grain, captured by the detachment, which served under the Colonel in co-operation with the Hon'ble Colonel Wellesley's army,

against the late Doondeah Whaug, should be presented in the name of the Subsidiary Force, a moiety to the Madras Male Asylum, and the remainder to be divided and given for the naval pillar and literary fund. The Colonel's "departure too was graced with an act of the highest philanthropy, the gentlemen of the detachment having got up a play, for the benefit of a distressed family, left by a Native of Germany, of a respectable family, *who died lately a private Artillery man* in Capt. Burk's Company. The play was translated by the unfortunate Man himself, and not without some merit, from the German of *Von Kotzebue*, being

"THE SIEGE OF COPTAL,"

which notwithstanding the deficiency in dresses, scenery, and decorations, went off with peculiar eclat; it might be termed a triumph of the feelings over the judgement, emanating from the finest emotions of the heart; tho' Lieutenant Falkner, who so ably sustained the prominent character in the piece, would have excited an applauding interest on any stage."

*February 7.*—The Madras Militia under the command of Major Taswell, were reviewed on Saturday last, by his Excellency Lieutenant General Lake, who was pleased to express himself highly gratified with the appearance and discipline of that respectable body; in an order issued on the occasion.

### MILITIA ORDERS.

Major Taswell, feels the most sensible gratification in having it in his power to communicate to the corps the favourable notice of Lieutenant General Lake, who has been pleased to express his desire, that his full approbation may be explained to them for their soldier-like appearance, and good conduct this morning at the Review, of which, a testimony so highly honourable, will no doubt, be a stimulus to the continuance of their meritorious exertions on all occasions, in the event of their services being hereafter required: Major Taswell at the same time, has the pleasure to return them his warmest acknowledgements for their having so cheerfully met his wishes, in their persevering and regular pursuit of those duties, which has produced so respectable an advancement in their Military acquirements, and which has thus established the flattering character, they have so deservedly gained, since the corps has been first embodied.

To the officers in particular, for their exemplary attention, he cannot sufficiently express the obligation he is under, more especially to Captain Brown, to whose professional abilities, combined with his unremitting and zealous exertions in their discipline, the corps, at large, he does not entertain a doubt, will join him in the tribute of praise, that must be unanimously considered as principally his due, for the credit they have acquired.

### GARRISON ORDERS.

Lieutenant General Lake, having at the request of the Right Honourable Lord Clive, reviewed the Madras Militia this morning, is happy in the opportunity, which has been afforded him of witnessing the respectable progress which has been made by this corps in Military Discipline, during the short period since it has assembled.

The appearance and movements of this corps evince great attention in Major Taswell, their commanding officer, and do honour to the zeal

and Loyalty of the other officers and men. And Lieutenant General Lake is satisfied, that if their Services shall be called for, they will not fail to be important to the settlement and their Country.

Lord Clive, is gratified by the account which he has received of the performances of the Madras Militia this morning, and his Lordship in dispensing with their further attendance this season, desires to return them his thanks, for their cheerful and diligent attendance on the day appointed for exercise.

After the review, the Right Honourable Lady Clive, Miss Clives, Miss Lakes, and the principal Ladies and Gentlemen of the settlement, partook of the breakfast given by the officers of the corps, in tents erected for the purpose

---

We give publicity to the following circumstances in the hope that they may be serviceably cautionary to Commanders of Ships under similar situations:—His Majesty's Ship Suffolk, being lately off Diamond Island, near the Coast of Pegue, Lieutenant Malcolm, of the Suffolk, with twenty-five Seamen, were landed for the purpose of obtaining a supply of Turtle for the crew:—the party in a few hours turned forty fine Turtle, and with which they immediately returned on board the Suffolk. It does not appear that Lieut. Malcolm or the Seamen eat of any production of the Island, which is nearly barren, or even drank of the water, to which not any noxious quality had been heretofore ascribed, be that however as it may, the whole party became ill immediately on their returning on board, and in a few hours, fourteen of the Seamen died:—in fine, at the expiration of a few days, only Lieut. Malcolm and one Seaman remained alive out of twenty-six persons, most of them young and healthy men, and the most correct and orderly of the Suffolk's crew.

*Extract of a Letter from Vizagapatam, dated 17th Feb. 1801.*

"The Diana Privateer has been in the Roads here for some days, she came in with two Prizes. The Chance, Capt. Woodcock; and Mayflower, Capt. Morris. Soon afterwards a large ship was seen standing to the Northward, which she gave chase to, and engaged her for fourteen hours, but was beat off after losing the 2d Captain; the ship is supposed to be the Madras."

*Fort St. George, 23d February, 1801.*  
ORDERS.

BY THE RIGHT HONOURABLE LORD CLIVE.

The Right Honourable the Governor having this morning reviewed his Body Guard previous to the march of a Detachment of it for Actual Service, is happy to have found this Valuable Corps in that State of complete efficiency for which it has long been distinguished.

The correctness of the wheelings, and the rapidity of the charge, are entitled to particular applause; and in the precision and velocity of all the evolutions: the high perfection of the attached flying artillery was eminently conspicuous.

The Zeal of a Corps not less than its discipline unquestionably derives its tone from the character of its Officers; the alacrity of this spirited

Corps, on frequent and unexpected calls for sudden service, has merited and received the most distinguished approbation: and the anxiety expressed by every individual to be selected for the present detachment, is equally honourable to the Officers and Men, and worthy of the established reputation of the Body Guard.

By His Lordship's Command,

M. WILKS, *Mil. Sec.*

#### REGIMENT DE MEURON.

On Tuesday, the 24th ult His Majesty's Swiss Regiment de Meuron, was Reviewed by His Excellency Lieutenant General Lake, Commander in Chief in India, on the north Glacis of Fort St. George; and we have the pleasure of adding that His Excellency was pleased to express his most decided approbation of the uniform and military appearance of this loyal and efficient corps, of their steadiness under arms, and of the precision with which the whole of their evolutions were performed.

On Tuesday evening, Major General de Meuron, gave an elegant Ball and Supper at the Pantheon, at which Lord and Lady Clive, Lieutenant General Lake, and the principal Officers and Gentlemen of the Settlement, were present.

#### ARTILLERY.

Lieutenant General Lake, Commander in Chief in India, has desired Major General Sydenham to communicate to Lieutenant Colonel Carlisle, and to the officers and men of the 2d battalion of artillery, his entire approbation of their appearance and performance at the review this morning.

Their steadiness under arms, the precision of their firing, and the rapidity with which they executed the several evolutions, have been particularly distinguished by the Commander in Chief in India, and reflects (he has been pleased to add,) the highest credit on the discipline of the corps, and on the exertions of Lieut. Colonel Carlisle, and the officers under his command.

The Commandant of artillery feels great pleasure in making the above communication, and has no doubt but that the 2d battalion of Artillery will be always emulous to preserve the reputation, which it has acquired on this occasion.

### B O M B A Y.

JANUARY 10, 1801.

On Wednesday evening last, arrived the Ship Sarah, Captain Charles C. Macintosh, from England, last from the Cape, which she left on the 18th October.

The following Gentlemen have arrived passengers by this opportunity, viz. Major Boden, of the Honourable Company's Military Service on this establishment, Mr. Jenkins, Writer; Messrs. G. A. Litchfield, J. Forbes, R. Shaw, G. Grant, E. Frederick, J. Godfrey, J. Drummond, Cadets.

We are exceedingly sorry to learn that La Nymph French privateer, has captured the brig Malacca, Capt. Peterson, on the 29th ultimo, in latitude 16° 05' North, in sight of the Vingarla rocks.

The Malacca was laden with dammar for this market, and is esteemed a valuable prize to the privateer, as Captain Coutence informed Captain Peterfon, that dammar when he left the Isle of France, was selling at one rupee per pound.—The privateer had dispatched the Athens for the Isle of France, and in less than four or five hours after the capture of the Malacca, she was also dispatched, the Captain intimating that he intended to continue his cruize, until the greatest part of his crew should be dispatched in prizes to the Islands.—The La Nymph after taking the Malacca flood to the southward, and off Pigeon island captured a pattamar boat, on board of which they put the Captain, Officers and crew of the Malacca, and permitted them to proceed to Bombay.

*Extract of a letter from Captain Charles James, of the Ship Athens, to his Owner in Bombay, dated Goa, the 30th December, 1800.*

“ This is to inform you of the capture of the ship Athens, by the La Nymph French Privateer, of twelve guns, on the 28th instant, in Latitude 16 10 N and about twelve leagues off shore. The privateer not coming up sail, dispatched a large Pattamar with forty Europeans, with swivels, arquebuses, and musquets, and after firing for sometime at the Athens, I was under the disagreeable necessity of surrendering; the Commander of the French Privateer, Captain Coutence, has detained the Gunner and twenty of the Crew, the remaining part are coming up with me in a Pattamar boat, which the Privateer gave to land the prisoners in.”

On the 16th ult. a beautiful large ship, of about 700 tons burden, was launched from Mr. Davidson's Dock yard, at Chittagong, named the ORIENT. She went off the ways into her destined element with great majesty and grandeur.

affording much gratification to a numerous and respectable company assembled on the occasion. We understand she is already purchased by a mercantile house here for One Lack and Twenty Thousand Sicca Rupees.

~~~~~  
April 7th.—On Tuesday arrived in the river, the Schooner *Manona*, Captain Lourun, from Madras, which she left on the 18th ultimo.

On Thursday afternoon the American ship *Indian Chief*, Captain Service, anchored off Calcutta,—she sailed from Hamburgh in August last, left Great Yarmouth on the 19th November, Portsmouth on the 5th December, and the Island of Madeira on the 17th of the same month.

The *Caledonia*, Captain George Thomas, for this Port; *Cornwallis*, Captain Tennant, for Botany Bay, with several Whalers; sailed at the same time from Portsmouth, with the *Indian Chief*, under convoy of His Majesty's ship the *Jason*, Captain Yorke.

The *Caledonia* did not put into Madeira; having fallen to leeward of the Island, was permitted by the Commodore, it is said, to make the best of her way to India.

The *Jason* and convoy, left Madeira two days previous to the *Indian Chief*. Capt. Service, after having left the Island, about sixteen hours, was brought too by a most beautiful and fast sailing French Corvette, his papers examined, treated politely, and suffered to proceed on his voyage.

The Frenchman reported himself as from the Coast of Guinea, but from the quantity of live Stock, &c. on board, it is conjectured he had lately sailed from Teneriffe.

On the same day arrived the Danish Ship *Tranquebar Topaul*, Capt. Francis Letaul, from Rangoon, whence she sailed on the 3d March, several Armenians were passengers by this conveyance.

Captain Letaul brings no material intelligence from Rangoon, the Coast, however, appears clear of Privateers; neither the *Mary*, Captain Sparrow, or *Thomas*, Captain Young, had sailed—the *Nancy*, Captain Dugan, had arrived at Pegue from Madras, when the *Tranquebar* left it.

Private Letters from Madras state, that the Honourable Company's ships Sir Edward Hughes, Castle Eden, and Prince

William Henry, sailed for Vizagapatam and Europe on the 21st ult. H. M. ship *Centurion* chased the French Privateer *Diana* for 48 hours near Madras Roads, whence she had been hovering for two or three days: the Privateer favoured by the night, had the good fortune to escape.

On Saturday last, a fire broke out in the neighbourhood of the Burying Ground Road; which threatened much destruction from its first appearance:—however, fortunately, after consuming several huts, it ceased. We are happy to find that no material damage was done by this conflagration, or any lives lost.

Additional Passengers by the following Ships:

Walsingham.—Lieutenant Samuel Sears, of H. M. 76th regiment.

Earl Spencer.—Captain T. G. Smollett, of H. M. 78th regiment.

Countess of Sutherland.—Major C. Stuart,—Mr. and Mrs. Malone.

Children.—Edward and Marian Malone.

April 8th.—The American ship *Chance*, arrived at Tranquebar from the Mauritius, was late the *Ambosyna*, taken by *La Gloire*, French Privateer, in the Bay of Bengal,—she sold for four thousand Spanish Dollars.

Two other prizes, names not ascertained, had sailed for India, previous to the departure of the *Chance*.

The ship *Tiger*, built for the service of the late Tippon, was sold for five thousand Dollars; the *Helen*, a new ship from Pegue, for nine thousand, and the *Cronberg*, for thirteen thousand Dollars.

Bengal Goods of every description were selling, from thirty to forty per cent. discount.

The Danish Ship the *Commerce*, is arrived at Madras from Tranquebar, it is said she was chased by a Privateer, and would most probably have been overhauled, had not the *Sir Edward Hughes* hove in sight from the Northward.

Lieutenant Colonel Kirkpatrick had arrived in safety at Madras, in His Majesty's ship *Intrepid*, and immediately proceeded on his journey to Poonah.

April 14th.—On Saturday arrived the ship *Thomas*, Captain Young, from Rangoon, which she left on the 19th ultimo. In the latitude of Madras, she fell in with the Extra ships *Lucy Maria*, *Mary Anne*, and *Bellona*, all well, dispatched from this port on the 21st ultimo. Certain suspicions entertained respecting Captain Young's papers, which an Officer from the *Bellona* was sent to examine, occasioned the *Thomas* to be fired at by that ship and the *Mary Anne*. Fortunately no lives were lost, but several shot struck the hull of the *Thomas*.

On Wednesday last at noon, a fire broke out in a thatched house, belonging to a native, in Geefack lane. The accident was owing to the carelessness of a woman, who was cooking, by suffering some oil to boil over. The flames communicated with astonishing rapidity to the surrounding buildings, and in a short time about one hundred of them were reduced to ashes, and all, but the walls of an upper-roomed house was destroyed ;—A few animals were burnt, and a considerable quantity of spirits and bazar articles, consumed in the conflagration. By a providential change of the wind, the progress of the flames was bounded within narrower limits, than could have been expected at its commencement ; and but for this timely interference of an opposing element, the fire must have reached across the Bow Bazar, and been terminated only, by the want of materials to feed its rage.

April 15th.—On Saturday, arrived the ship *Prince*, Capt. Patrick Scott, last from Madras, whence she took her departure on the 3d instant.

• The following passengers arrived by that conveyance :—Mrs. Rausb ; Miss Rausb ; Miss Charlotte Rausb ; J. Rattray, Esq. of the Bengal Civil Establishment ; Doctor Cheesc ; Mr. Rolland, Cadet ; Captain Townsend, of the Country service ; Messrs. Richard Daws, and William Gibbs ; with *Mary Thomas*, and her Children.

The *Chance*, (the ship we before noticed as having arrived under American Colours, from the Mauritius,) has we learn been detained by Captain Hargood, of His Majesty's ship the *Intrepid*, the papers produced, not having been deemed satisfactory.

The Portuguese ship *Viajante*, Capt. Joaquim Da Silva, arrived in the river on Saturday, from Lisbon, the Cape of Good Hope, and Madras, having sailed from the last port, in company with the *Prince*; the only passenger by this ship, was Captain J. Collie.

The ship *Fort St. George*, Capt. Grant, riding at the Honourable Company's Chain Moorings at Diamond Harbour, parted from them, in a very severe squall from the N. N. E. on the afternoon of the 7th instant, she was brought up with her own anchors, and fortunately sustained no injury or damage whatever.

The Honourable Company's Pilot schooner the *Houghley*, attending the ships late under dispatch, was struck with Lightning, at Saugur, on the 8th instant, her fore-mast shivered and two of the masts knocked down—they recovered however in two or three days afterwards.

Lieutenant Batt, who for some time commanded His Majesty's frigate the *Sybil*, off the Sand Heads last year, availed himself of a favourable opportunity to proceed to his new station, and to take charge of His Majesty's ship *St. Thomè*, to which he has lately been appointed, with the rank of Master and Commander, in the British Navy.

The Mud Bark at Prince of Wales's Island, well known to our nautical friends and correspondents, had been set up to public sale, and sold to individuals at 17½ Spanish Dollars per foot, the proceeds of which, were to be appropriated to the forming of new and convenient roads, in every direction throughout the Island; it is expected that in a very short period, that settlement will be made one of the most delightful possessions of the Honourable Company, in the East Indies.

~~~~~  
*April 20th.*—The Eliza Schooner is arrived from Madras, after a passage of thirty days.

A letter from Ganjam, received in the course of last week, by a gentleman of respectability in town, states, that advice

had been received there of forty dead bodies of Europeans, having floated ashore at, or near Masulipatam. No further particulars of this circumstance have transpired; and we are altogether at a loss to conjecture (if it be true as stated) of what nation they were:—no fragments of wreck, or any thing else having been mentioned tending to a discovery of that point.

*April 21st.*—On the 17th instant, arrived at Kedgeree, the Brig *Juliana Louisa*, Captain Garret, from Prince of Wales's Island, whence she sailed on the 9th of March.

The Countess of Sutherland, Lord Walsingham, and Earl Spencer, left their pilots, on the 12th current,—all well.

*April 22d.*—Yesterday arrived off Calcutta, the snow *Falcon*, Captain George Freeman, from Madras, whence she sailed on the 11th curt.

The following passengers have arrived by this conveyance, Mr. John Francis, late Commander of the Cutter *Nesbit*, taken by *La Gloire*, on the 16th March, in Lat. 19 10 N. and Long. 87 16 E.—Mr. William Roberts, late of the *Dispatch*, advice boat, taken by the same privateer, some time past: and Mr. John Loriman, a passenger formerly on the *Armenia*, taken by the *Chiff*.

Captain Freeman, formerly commanded the *Perseverance* snow, and was captured on the 19th November, by the *Diana*, in Achien Roads, dispatched for the Mauritius, a prisoner in his own vessel, where he arrived early in the month of January,—he took his passage on the 15th February for India, on the Danish ship *Maria*, (formerly the *Helen*, of Bombay,) with all the other British Prisoners of War then at the French Isles, excepting Messrs. Hall and Stacey, late 1st Officer and Surgeon's Mate, of the Honourable Company's ship *Sent*, who were to proceed for Europe by the first favourable opportunity.

The *Transfer*, Governor North (late Fletcher) and the new ship *Helen*, had all arrived in safety at the Mauritius, a few days previous to Captain Freeman's departure from thence.

No regular troops were upon the Island, the duty of the

Garrison was performed by the Militia, the Negroes, in a state of revolt, particularly at the Island of Bourbon.

Surcouff in the *Confiance*, accompanied by a frigate built ship, had sailed for Bourdeaux, early in February; the *Kent* now under Danish colours, was nearly ready for sea, her destination old France.

A sm. brig, had arrived from Batavia, soliciting assistance, in men and stores of every description.—The mission, however of this vessel, proved perfectly useless, as the allies of the Dutch Republic, were not in a situation to afford them the smallest relief.

The spirit of Privateering was very much relaxed in consequence of our several captures, and the disinclination of the Government at that Island, to grant passes, at the present conjuncture. The ship that had been built at Black River, on the model of the *Confiance*, and brought round to Port Nord West, for the purpose of being coppered and fitted out, had in consequence been laid up.

The only privateers then out, were *La Nymph* and *Diana*—the *La Gloire*, we know has lately changed Masters.

On Tuesday forenoon, arrived at Kedgerce, the *Samdanee*, Nacoda, from Madras,—the time of her departure thence we have not heard.

Several Prisoners are stated to have arrived at Madras on the 4th April, that had been on board the *Diana*, on the 2d of the same month, in Sadras roads, and who reported, that when they left the Privateer, she had only twenty Europeans on board.

On Tuesday the 14th instant, was launched from the yard of Messrs. John Gilmore and Co. a beautiful little ship, named the *Margaret*, of about one hundred and eighty Tons measurement, she is constructed for the Eastern Trade, and is to be commanded by Captain Hunter.

Several letters of date the 5th March, have been received in town, by a Doney or Coasting Vessel, via Madras, from the Passengers who embarked on the H. C. ships the *Lady Jane Dundas*, Bengal, and *Lady Burges*; at that period the three ships in company, had got as far on their homeward bound passage as 14th N. Lat.

The Pearls stolen from the Merchant in Fort William, as communicated in our last, have been recovered, and the swindler named Buxoo, apprehended. He had disposed off the Pearls to two respectable Merchants at Chinfurah, and was himself taken at Salkya. The Magistrates have committed him to take his trial at the ensuing Sessions.

#### HYDROPHOBIA.

Three Natives, were lately bitten in the vicinity of the Esplanade, by a pariah Dog, an animal which is not unfrequently seen, in and about the town, at this season of the year, and notwithstanding the application of every remedy, the natives can give to be efficacious in those cases, these unfortunate beings died within a few hours of each other, on Sunday the 23th ult. under all the agonies, of that most dreadful-madness.

#### ISLE OF FRANCE.

##### [EXTRACT OF A LETTER]

"The Chance left the Isle of France, the 31st January —On the preceding day the *Confiance*, Capt. Surcouff, and the *Eglittienne* (an old Frigate) Capt. Brugman, had sailed for Bourdeaux, for which place they had taken in cargoes. They had been considerably delayed by the difficulty of getting men, and for several days before sailing, were under the necessity of having guards on board to prevent desertion, their unwillingness to go to Europe is said to have arisen from their apprehensions of being impressed on board the National Ships.

"From the 15th November to the 31st of January, the following Prizes were brought into Port, *Nord Oust*, —the Kent, Company's ship, Pigot, Governor North, Rebecca, Harriet, Minerva, Tiger, Amboyna, Perseverance and another ship, name unknown, laden with Salt, and the Traveller, an American brig. The Traveller was said to have been condemned, on account of her having papers from the Port of Lisbon. This Plea was had recourse to, on account of the absurdity of the one first advanced, that of her having a Letter of Marque, which the Privateer's people, who took her, affirmed had been thrown overboard, as they were not able to find it. However, as she had only two guns, and sixteen men on board, it appeared too barefaced, even for an Isle of France Court, notwithstanding one of her own sailors would willingly have perjured himself and sworn she had a Letter of Marque. She had an hundred and four thousand reasons, in the form of Dollars, on board of her, and was regularly condemned in one Court, and the ratification of this by another (a matter of course) was all that was waited.

for — To make sure however of having something for his trouble, Monsieur Surcouff had taken Six Thousand Dollars out of her, on board the *Adelle*, previous to dispatching her for the Island.

"An Arab Grab was some months since carried in, but, after an enquiry, was cleared, during this time the owner of her had bought the *Armenia*, a Prize Ship. The expences of clearing his own Ship amounted to so much, that he was under the necessity of selling her again, to defray the amount.

"The Ship *Union*, taken off the Sand Heads, by the *Confiance*, about the end of September last, had not arrived at the Isle of France on the 31st of January, at which time the five following Privateers were in the Indian Seas,—the *Gloire*, *Malartic*, *Adelle*, *Nymph* and *Diana*.

"January 30th, a new Privateer *Biz* came round from Black-river, where she had been built, to Port *N Ouff*, for the purpose of fitting out—another one was building at the Port, and, so far advanced, as to be ready for planking.

"A Civil Commissary, sent out by the French Government at home, arrived at the Island, a few Months since, in a National Corvette: he was not for many days allowed to land, but at last obtained permission to do it, to transact some private business, on condition of his not opening his mouth on public affairs. Any deviation from the rules prescribed him, would, he was given to understand, be productive of dangerous consequences. As soon as his business was finished, he was sent on board again, and ordered to return to France. No other person had been permitted to land, and the Corvette was not even allowed to come in close. But provisions and water were sent to her. When on board to return to France, the Captain complained that his Vessel was leaky, and wanted Caulking, immediately all the Caulkers in the port were sent off, and she was Caulked in one day. He then complained that he could not go Sea, on account of his main-mast, which was defective, and wanted fisting; people were sent on board the next morning, the mast was got out, sent ashore, fished, sent on board again, and got in the same night; after this, seeing that all attempts at landing, would be fruitless, they very prudently returned to Europe.

"Two line of battle ships and some frigates, with sixteen hundred troops, and a new Governor, were expected at the Island from Europe; of whom they were determined to permit none to land, unless they could effect it by force. As these people acknowledge no Government nor superior, they can only be considered as a nest of Pirates and Robbers.

"'Tis highly ridiculous to see the high sounding words—Liberte and Egalité, preface all their public papers and Proclamations, when every day and night, in every part of the town, may be seen Negroes, poor, miserable wretches, stretched out upon a Cart, tied down with Cords and whipped almost to death, at the arbitrary order of a brute in an human form, a stranger to every sensation of pity or compassion, and perhaps, in many instances, as ignorant as the poor wretch he treats so cruelly.

"A dreadful business happened on board the *Tiger*, country ship, after being taken by the *Confiance*. On the passage the *Lascars* rose upon the French, headed by an Italian, who had been put on board with

the rest of the Privateer's people. A dreadful carnage took place, all the French were killed but two, both of whom were wounded. Of the Lascars all were killed, but eight or nine, some of whom were wounded, as was also the Italian, who headed them. He was immediately put in irons, and the Lascars then submitted to the two remaining French.

"The Amboyne was captured by the *Gloire*, who had a few days before been chased by an English Frigate, and with great difficulty escaped, after throwing all her Guns except two, overboard — Had the British Squadron, fortunately been off the Isle of France, they might have retaken every Prize which has been sent in, and very probably the *Confiance* also, who, on her passage, to the Island, certainly did not fail so well but she might have been caught by many of our Men of War; Surcouff himself remarked how much worse than usual she sailed, and said he was sure the Kent had broken some of her legs.

"Captain Surcouff is expected from Europe again in a few months, in a new Privateer, which is to carry thirty-six or thirty-eight guns, and now building at Bourdeaux, by the same Owners to whom the *Confiance* belongs.

"A Hamburg ship sailed from the Island for Europe, early in January — Three other ships and a Brig, under Hamburg Colours, have arrived from Europe, and also one Danish Ship — The Kent was bought by the Danes, and is expected to sail for Copenhagen, in March — Whether she may touch at some English port on her way, remains to be seen, as she takes in a full cargo. Some English Men of War may perhaps take her under protection.

"The Officers of the English prizes taken in to the Isle of France, are in general very well treated. A most inveterate hatred subsists between the owners of the Privateers and Planters, the latter of whom almost unanimously wish the Privateers sunk, burnt, or destroyed."

The Right Honourable the Governor in Council Orders and Directs all persons of the Civil or Military Establishment at the Presidency, to be present at sunset this Evening, on the Parade of Fort St. George, in order to hear a Proclamation of His Excellency the Most Noble the Governor General in Council, announcing the Appointment of the Most Noble Richard Marquis Wellesley, by His Majesty's Letters Patent, to be His Majesty's Captain General and Commander in Chief of all His Majesty's Land Forces, serving in the East Indies.

His Majesty's Scotch Brigade, His Majesty's Regiment De Meuron, and the 1st Madras Battalion, to be under Arms and form a square on the General Parade under Command of the Senior Officer, at sunset.

this Evening, for the purpose of hearing a Proclamation of *His Excellency the Most Noble the Governor General in Council*, announcing the appointment of the MOST NOBLE RICHARD MARQUIS WELLESLEY, by His Majesty's Letters Patent to be His Majesty's *Captain General and Commander in Chief* of all His Majesty's land forces serving in the East Indies.—A ROYAL SALUTE to be fired after the Commission is read, and to be followed by three Volleys from the Troops.—The European Troops to be Visually to-morrow, and the Native Troops to receive dry Batta.

A. GRANT,

L. MAJOR.

Fort St. George, 11th March, 1801.

In pursuance of the above Proclamation, the Civil and Military Servants of his Majesty and the Honourable Company, at the Presidency, assembled on Wednesday Evening at sun-set on the Parade, the troops in Garrison having been previously formed into a square, where they were met by the *Right Honourable the Governor and Council*, the Commander in Chief, and their respective Suites; when the Letters Patent of His Majesty constituting and appointing his Excellency the Most Noble Marquis Wellesley, to be his Majesty's *Captain General, and Commander in Chief* of all his Land Forces serving in the East Indies, were publicly read by Mr. Webber, the Chief Secretary to Government.

As soon as his Excellency's Proclamation had been read—a Royal Salute was fired from the Battery, and three volleys of musketry from the Troops under arms—the Bands of the Scotch Brigade and the Meuron Regiment playing *God save the King*.—General Meuron gave the word of command to the Troops

March 21.—On Monday last the 1st Madras battalion, commanded by Major Hill, had a grand field day, on their parade, which was attended by the Right Honourable Lady Clive, Miss Clives, and several Ladies and Gentlemen of the settlement. The corps went through their different evolutions and firing, in a manner highly creditable to themselves, and their commanding officer.

The company after the review retired to a breakfast which had been prepared by Major Hill, in tents pitched for the occasion, and which was served in a peculiar style of elegance and variety.

The following passengers have arrived at this presidency from Bengal.

G. G. Keble, and Charles Woodcock, Esqrs. A Binny, Esq. and Lady, Mrs White, and Miss. White and McCabe, Assistant Surgeons, on the Madras Establishment.

March 25.—On Wednesday morning, a French Privateer made her appearance in the offing, when orders were immediately dispatched for the Honourable Company's ship Sir Edward Hughes, to put to sea—as soon as she had received the blank Companies of His Majesty's Scotch Brigade, she immediately weighed and stood out in pursuit of the Enemy.

Captain Urmston manœuvred his ship in a most masterly manner, and for a long time great hopes were entertained that he would have come up with the chase, but about nine o'clock in the evening, the Privateer made her escape.

Although unsuccessful in his main attempt, Captain Urmston happily succeeded in saving several valuable bales, the property of the Honorable Company, which had been captured in the morning by the Privateer, on board a Doney and a Pariah vessel.—It was the intention of the Captain of the Privateer to have placed the whole of his booty on board the Pariah—but before he could effect it, he was obliged to quit his prey by the pursuit of the Sir Edward Hughes.

To the Cruise of the Sir Edward Hughes, the Owners of the Commerce, are probably indebted for the safety of that vessel—as she made the Port precisely in the track, where the Privateer was cruising, on Wednesday Evening.

Too much commendation cannot be bestowed on the Officers of the Sir Edward Hughes, and of his Majesty's Scotch Brigade, for the zeal and alacrity shewn by them, for the public service.

The Hughes continued her cruise until Thursday Evening, when she returned into the roads.

CAPTURE OF LA GLOIRE.

It is with the highest satisfaction that we announce the capture of the French Privateer *La Gloire*, by Captain Waller, of His Majesty's Brig *Albatross*.

Captain Waller fell in with *La Gloire*, in the Latitude of 15° N. and 87° E. Longitude, and after a long chase, came up with her about noon, on the 23d ultimo, when a close and severe Action ensued, and which continued for twenty minute, when Captain Burgoine struck the Republican Flag, to the superior prowess and gallantry of his British opponent.

La Gloire had five killed, and twelve wounded—among the latter were Captain Burgoine, and several of his Officers.

The *Albatross* had not lost a single man of her gallant crew, —either killed or wounded.

The active zeal, the united exertion, and the gallantry manifested by Captain Waller, in the capture of two of the Enemy's Cruisers, within the short period of a few weeks, is too conspicuous to need the feeble and transitory blazon in our power to bestow:—the merit of this valuable officer will, doubtless, be justly appreciated by those whose peculiar province it is to reward it, as it deserves:—we have therefore only to congratulate the commercial part of society on

the capture of an enterprising enemy, whose successful inroads on their property they have so long and repeatedly experienced.

La Gloire is, perhaps, one of the fastest sailing Vessels now existing;—Capt. Burgoine states, that he could with ease have escaped from the *Albatross*, but that his crew would not permit him;—he also speaks in high terms of the exertions of Lieut. Frost, the Commander of the *Mornington*, who had recently chased him for three days, during which he manifested great skill and ability in his endeavours to come up with *La Gloire*.

The *Albatross*, with her Prize, anchored in the roads, on Monday, at 9 A. M.

On Monday also arrived an Arab ship lately captured by the *Diana* Privateer, and re-taken by His Majesty's ship *Intrepid*.

The New Madras Insurance Company have requested of Captain Waller to accept a sword of the value of £. 200, as a mark of the high sense they entertain of his manly conduct and activity, of which he has signified his acceptance in the following terms:—

GENTLEMEN,

I have the honor to acknowledge the receipt of your letter of yesterday, and am happy to think that in the performance of my duty, you consider I have been serviceable to the Underwriters and Mercantile part of India; the Sword you are so polite as to request me to accept, I receive with pleasure as a mark of your esteem.

I am, Gentlemen,

Your most obedient humble servant,
WILLIAM WALLER.

Madras, April 8, 1801.

*Extract of a Letter from a Passenger on the Ship Maria, formerly the Helen, from Mauritius, arrived at Tranquebar.*

"I left the Mauritius on the 18th of February; on the 22d of March, we spoke the armed Ship *Clarissa*, (ci-de-

vant French Privateer,) with a large Ship in tow, which proved to be the *Athens*, of Bombay : She had been abandoned by the Frenchmen, 21 in number, after having been in their possession six weeks :—they left her in great distress, in the Long-boat, and she was picked up by the *Clariffe* in  $0^{\circ}$ — $58^{\circ}$  N. and in  $94^{\circ}$  30' E. Longitude, who was proceeding with her to Point de Galle. The Frenchmen previous to their quitting the *Athens*, had sawed down her Gunwales, and left her in charge of a few starving Lascars."

Fort St. George, March 3, 1801.

G. O. BY GOVERNMENT.

The Right Honourable the Governor in Council, having received information which he deems to be authentic, that Captain Alexander Macleod, of the 5th Regiment of native infantry, who proceeded to Europe on sick certificate in October 1794, has returned from the Honourable Company's Service, His Lordship is pleased to order and direct, that the name of Captain Alexander Macleod shall be accordingly discontinued from the list of the army on this establishment, from this date, and that the following promotions shall, in consequence, take place.

Captain Lieutenant George Macgregor, to be Captain of a Company, vice Macleod, struck off, date of Commission, 3d March, 1801.

Lieutenant J. Spencer Blofield, to be Captain Lieut. vice Macgregor, promoted, date of rank, 3d March, 1801.

JANUARY 31, 1801.

Yesterday sailed the Honourable Company's Cruiser the *Queen*, Lieutenant Budden, Commander, for Surat; by which opportunity Nathan Crowe, Esq. Judge and Magistrate of that City, proceeded to enter on the duties of his office.

On Wednesday, William Soper, Esq. and his Lady, embarked for Surat, on the Hon. Company's armed boat the *Penelope*.

LOSS OF THE SHIP ZOROASTER.

Captain Baker, of the ship *Zoroaster*, having received information of the French privateer *La Nymphe*, Captain Coutence, being on the coast, and of his having made several captures, deemed it prudent to run close into Cannanore, to be under the protection of the guns of the garrison. The ship *Susannah*, Capt Drysdale, had adopted the same prudent measure, and had anchored there the day previous to the arrival of the *Zoroaster*, with the intention of continuing there until some intelligence should be obtained respecting the operations and situation of the privateer. Captains Baker and Drysdale, conceiving themselves a match for the Frenchman, agreed to keep company together to Bombay. The *Susannah* having received on board a detachment of his Majesty's 84th regiment, which were to be landed at Goa, the two commanders embarked on the 9th, when the *Zoroaster* immediately got under weigh, with a fresh breeze from the land and run from three and a half fathoms water, into four and a half fathoms, when he hove too with his main and mizen top-sails to the mast, the wind light off shore, to wait the *Susannah's* coming up.

There was a Seacunny in the chains keeping the lead going, but unfortunately he never noticed the change of soundings, from mud to rocks, the depth of water continuing the same, until the ship unluckily stuck on a steep reef of rocks under water. The *Zoroaster*, from the exertions of her own people, and the assistance of the crew of the *Susannah*, was again got off into a muddy bottom,—but unfortunately the hawser which was fastened to the end of a cable and anchor that was dropped from the *Susannah* parted, and the ship again drove on the rocks.—The Gunner and Seacunnies, deserting their duty, fell to plundering the vessel, and some of the crew having got to the Captain's liquor, followed their example. The *Susannah* continued by the *Zoroaster* whilst she could render her any assistance, and six or seven *Patashars* that were in the roads, were laden from her cargo.—The ship afterwards bilged, and on the 11th the water had reached up to her orlop deck, and she became a total wreck.

February 25th.—On Friday last anchored in the harbour the ship *Devaynes*, Captain Dennistoun, from Bengal, last from the Malabar coast. By the *Devaynes* came passengers from Cochin, Mr. M'Carthy, late of his Majesty's Ship *Adamant*, and Mr. Smith, formerly an officer of a

privateer fitted out by Captain Hogan at the Cape of Good Hope, and afterwards captured by the French.

Mr M'Carthy belonged to the Adamant when cruising off the Isle of France, they had captured a small vessel from the Island of Bourbon bound to the Mauritius, which they called the Fly, and on board of which vessel Mr. M'Carthy, with a midshipman, Mr Maddox, from the Lancaster, and seventeen men, were sent to Cruise, this vessel was afterwards on the 10th September captured by the La Gloire privateer, Captain Burgoine, of twenty guns and about two hundred and ninety men, and were carried to the Shyvelles, where they found Captain Meik, formerly of the Armenia, one of his Officers and part of his crew.

On the 20th of October, they, together with Mr. Smith, embarked on board a small Cartel of about fifty tons, bound for Columbo—On the 10th of November, this vessel was unfortunately wrecked about one o'clock in the morning, in Lat 5° N. near the center of the Maldiva island; the French Captain, his officer, and four of his people, five of Mr. M'Carthy's people, and three belonging to the Armenia, unfortunately perished, the remainder effected their safety by betaking themselves to rafts—Although several Maldiva vessels hove in sight in the morning, yet none of them would approach or give the smallest assistance, but when they found the vessel deserted, they immediately boarded and plundered her of every thing they could carry away.—The raft to which Captain Meik, Mr. M'Carthy and two seamen entrusted themselves, being exceedingly poisonous, it imbibed such a quantity of water that they were nearly sunk to the neck, and in that dreadful and perilous situation they remained for near ten hours, when fortunately the tide drove them on a reef of rocks, on which however there was so heavy a swell that they had nearly perished and were considerably bruised: in this distressed and exhausted situation they found themselves on a barren island, and for three days remained without any thing to eat, and not even a drop of water to alluage their thirst.—Death thus staring them in the face, they anew constructed their raft, resolving once more to trust to being driven on some inhabited shore, but unfortunately on launching it, it immediately sunk, and they must inevitably have perished for want, had not a boat hove in sight to whom they made signals of distress, and who took them up and after proceeding from island to island they at last reached King's island, from whence the Rajah furnished them with two boats to carry them to the Malabar Coast. On their passage to the coast, Mr. Maddox, the midshipman, and two English seamen, died from the fatigue they had endured, and the whole of the people were sick previous to their arrival at Cochin, which place they reached on the 8th of January, where they received every attention and assistance from the benevolence of Mr. Oliphant, who liberally entertained the Gentlemen, and sent the sick seamen to the hospital.

March 11th.—On Wednesday last the Honourable Company's Cruiser Queen, Lieutenant Keys, sailed from the harbour for Surat. By the Queen went passengers Captain

Robert William Mills, of his Majesty's 36th Regiment, and Captain George Harrower, of the country service.

On Monday evening anchored in the harbour, the long expected ship Asia, Captain George M'Innis, from England.

This ship sailed from England on the 1st of September 1800, and on her passage touched at the Cape of Good Hope and Columbo; she arrived at the former place on the 2d of December, and sailed again on the 20th of the same month, and on the 12th of last month, she touched at the latter place.

The following is a list of the passengers that have arrived by this opportunity.

Mrs. M'Innis—Miss M'Innis—Miss Burn—Gilbert Hall, Esq.—Captain Lindsay—Messrs. Robertson and Donald, Assistant Surgeons—and Mr. Madgon.

Considering the casualties that have occurred on many of the country ships from this port, we have to notice it as a very singular circumstance that the Asia has returned to Bombay with the same crew which she took from hence, and has not during the voyage lost a single man by sickness.

Letters have been received in town, stating that Scindea, the Marattah Chief, had returned to Poona.

Letters have been received from Amboyna, dated the 9th of December last, mentioning the arrival of the transports from Madras at that place, with the relief of troops, after a passage of three months and nine days, notwithstanding the length of the passage, we have much satisfaction in stating that the whole of the troops and followers had been exceedingly healthy, and that they were landed without a single casualty in any one of the transports.

So well satisfied are the troops at those Islands, that a number of the coast sepoy have volunteered continuing another year.

The following statement will serve to shew the very extravagant price of provisions at Amboyna. A buffalo, 40 dollars; a goose, 10 dollars; a duck, 1 dollar; a fowl, half a dollar; and other necessaries of life in proportion, excepting fruit, which is reasonable, excellent in quality, and in great abundance.

March 25th.—In pursuance of previous orders issued for the purpose, the whole of the troops in garrison assembled on the

Green at five o'clock on Friday evening last, about half an hour after which, the Honourable the Governor, with the Members of Council, accompanied by the Secretary on horseback, appeared on the ground, when the Proclamation appointing the Most Noble RICHARD MARQUIS WELLESLEY, K. P. Captain General and Commander in Chief of His Majesty's Forces in the East Indies, was read and followed by three volleys of musquetry and a royal salute from the saluting battery. The parade on this occasion was commanded by Major General Robert Nicholson, commandant of the Garrison, and the word given by Colonel John Bellasis, commandant of Artillery. The whole of the Staff attending.

On Saturday last anchored in the harbour his Majesty's ship Suffolk, Captain Pulteney Malcolm, having on board the Hon'ble Arthur Wellesley and his Staff, who was received under the customary compliment from the saluting battery.

We understand the Honourable Colonel Wellesley is to be received by all guards with the compliment due to a Brigadier General, during his stay at the presidency—viz. presented arms and one ruffle.

By a late departure, Major General Bowles, Joshua Uthoff, Esq. Thomas Cruso, Esq. and Lieut. R. B. Crozier, of the Engineers, proceeded passengers for Europe.

It being of the greatest importance to the security of the British possessions in India, that a regular and uniform system of discipline and subordination should be established and maintained amongst the troops of His Majesty and of the Honourable Company, and his

His Excellency the Most Noble the Governor General in Council having received copies of two Warrants of His Majesty, contained in the following circular letters from the War Office, dated 27th of June, 1797, and 25th January, 1798, by which sums of money have been made in the pay of the officers in His Majesty's service, — His Lordship in Council judges it proper to direct that the new rates of pay established by His Majesty's said Warrants shall be adopted, and have effect at this Presidency from the 25th of January, 1798, in the payments to be made to the officers of His Majesty's Cavalry and Infantry regiments serving under this Presidency.

(CIRCULAR)

SIR,

War Office 27th of Jan'y, 1797.

The King having taken into consideration the difficulties to which the subsistence of the line have been subjected by not receiving their arrears for a length of time, and the sum have become due, and being desirous of improving their situation as far as may be consistent with the circumstances of the country, His Majesty is graciously pleased to direct that the whole pay of the officers of the establishment shall in future be issued at the same time, and in the same manner, as subsistence is now issued to each Lieutenant, Captain, Ensign, Adjutant, and Quartermaster, of Dragoon Guards, Dragoons, Fencible Cavalry, marching Regiments of Foot, Embodied Militia, Fencible Infantry, and Invalids: and as a farther instance of His Majesty's attention, it is His Royal pleasure, that the said pay be issued free from the deduction of ratos for made therefrom on account of Postage, Hospital and Agency.

His Majesty having also adverted to the low rate of pay, assigned to the subalterns of Infantry, and which, notwithstanding the advantages above stated, would still be inadequate to the unavoidable expenses of

their respective situations, is graciously pleased to order, that from the 25th of this month an allowance of One Shilling per Diem shall be made to each Lieutenant, Ensign, Adjutant, and Quarter-master, of his marching Regiments of Infantry, Embodied Militia, Fencible Infantry, and Invalids not holding another Commission.

It is at the same time to be clearly understood, that the additional allowance is not to give the officers any title whatever to an increase of full pay in case of reduction.

You will be pleased to take the earliest means of making known these marks of His Majesty's gracious consideration, to the officers of the Regiment under your command.

I have the honour to be,

Sir,

Your most obedient humble Servant,

(CIRCULAR)

SIR,

War Office, 25th of Jan. 1798

I have received His Majesty's commands to acquaint you that in those Corps wherein the new system regarding Paymasters has been established, the Field Officers and Captains will not be held generally responsible as such, for the future regimental accounts of their respective

The establishment of the said system has enabled His Majesty, with safety to the public, to show a farther instance of His Royal consideration for the Field Officers and Captains above-mentioned, by ordering that their whole pay shall in future be issued monthly, instead of being divided into subsistence and arrears, and be subject to the usual deduction, in account of Pounceage, Hospital, and Agency.

You will be pleased to take the earliest opportunity of making known the marks of His Majesty's gracious attention to the Field Officers and Captains of the Regiment under your command, and of acquainting them with the respective rates of their pay as it hereafter will be issued by His Majesty's orders, according to the annexed Statement, in which you will observe that the Surgeon is also comprehended. These daily rates have been calculated upon the total amount per Annum of the same, which the officers have hitherto received under the denomination of subsistence and nett arrears, excluding minute fractions, which would have greatly tended to complicate the general accounts of the Regiment, as well as the particular accounts of the officers themselves. I am to add, that in the issue of pay to be made by the Pay Office, on the 24th of next month, the difference between the old and new rates for the two preceding months, (viz from the 25th of December, 1797, to the 23^d February 1798,) will be included.

I have the honour to be,

Sir,

Your most obedient humble Servant,

War Office,
Jan. 25, 1798.

It appearing from papers which have been submitted to the Governor General in Council, that the payment of the arrears of the Field Officers and Captains terminated in England on the 24th Sept 1797; and of the Subaltern Officers, Quarter-masters, &c. on the 24th of June, 1797, conformably to His Majesty's Warrants, contained in the foregoing circular letters, His Lordship in Council considers the officers of His Majesty's regiments serving in India, entitled to receive from the Honourable Company's Treasury such arrears as have become due to them, subsequent to the above periods respectively.

The Governor General in Council, accordingly, directs, that abstracts of the amount due on the 24th June, 1801, inclusive, on account of the arrears to all officers of His Majesty's regiments serving under this presidency, who are now in India, and who have not been in England subsequent to the periods to which the arrears were paid up there, be forwarded to the Military Auditor General, for Audit, before payment.—Those officers who have embarked for Europe will, of course receive their arrears there, if they apply for the payment of them. It will be necessary that officers returning or arriving, from Europe, and applying for the payment of any part of the arrears here, should produce certificates from the proper officer at the India-House that their arrears have not been paid by the Company in England.

In consequence of the new rates of pay to His Majesty's officers, the following table of pay and Company's allowances have been prepared, and are to be substituted from the 25th of June next, for those tables now in use.

FOR MAY, 1801.

General Orders by His Excellency the Most Noble the Governor General in Council, Fort William, April 23, 1801.

The Governor General in Council has passed the following orders:—
That from and after the 30th of April, 1801, the present establishment of two companies of artificers and workmen under the Chief Engineer shall be abolished, and that the following permanent establishment (being the same as that which was adopted by the order of the Governor General in Council of the 25th of January, 1793,) shall be substituted for the two companies, and placed under charge and management of the Executive Officer of Fort William, in the same manner as the establishment (which was formerly attached to and drawn for by the Commandant of artillery) now under the Commissary in charge of the expence magazine.

The workmen are to be mustered monthly by the Officer commanding the troops in garrison, by whom and by the Chief Engineer the review roll shall be counter-signed, and the charge of the establishment shall be drawn for in abstract, and disbursed by the Executive Officer.

The Executive Officer is to have the immediate superintendence and direction of the workmen, and to be responsible that the work performed by them is properly executed.

The Chief Engineer will have a general controul over the Executive Officer, and the establishment of workmen in the execution of all public works.

It appears that the establishment of Writers and Sircars, &c. for keeping the accounts' muttering and people formerly under the Chief Engineer, amounting to 250 St. Rs. per month, was not transferred to the Executive Officer by the regulations of the 25th of January, 1793, by which the ordinary repairs of the Garrison and the charge of the people by whom these duties were performed were committed to him.—By these regulations it was directed, "That no Member of the Military Board shall in future have any thing to do with the accounts."

In pursuance of the principle established by these regulations, which His Excellency the Governor General in Council fully approves, the present establishment of Writers for keeping the accounts of daily and monthly Expenditure, &c. amounting to St. Rupees 250 per month, which was established and placed under the Chief Engineer by the Minutes of Council of the 5th of December, 1788, shall when revised, be transferred from and after the 30th of April, 1801, to the Executive Officer.

On Tuesday the 21st ultimo, His Majesty's sloop of War, *Albatross*, arrived off the Sand Heads: she left Madras on the 16th, and brought John Webbe, Esq. and another gentleman, whose name we have not learnt, as passengers from thence. After having put them on board a pilot schooner, in which they reached Calcutta on Thursday, the 23d, the *Albatross* immediately sailed on a cruise.

The *Harriet*, Captain Sinclair, was lately struck with lightning, at Culpre, by which accident, we understand, she lost her fore-top mast, and had a man killed.

May 1st.—On Wednesday the ship Duke of Clarence, Capt. W. B. Ridsen, arrived from the Moluccas, last from Poonang, whence she sailed the 30th March.

Captain Riffen left the Dart, Capt. Rowe, at Bornéo,—all well.

The Venus, Captain R. Lander, from this port, had arrived at Penang on the 23d March.

The Honourable Company's cruizer Viper, Lieutenant Jackes, from Bombay, had arrived at Penang on the 28th March, with a packet for China. She left Bombay on the 21st February; saw several vessels on her passage, but did not speak any,—she also saw five large ships standing for the Straits of Sunda.

Several prows had arrived at Penang from Soosoo and Acheen, who reported every thing quiet in that quarter, the French not having paid them a visit this season.

Two Portuguese ships, we understand, had lost their passage to Macao.

On Tuesday arrived the Mary, Captain Brownlie, and Burnaby, Captain Aiken, from Rangoon, whence they sailed on the 14th instant; by the former Mr. Robert Dyer, and Mr. Sparrow, are passengers; by the latter Capt. W. Garden.

We are happy to learn, that previously to the departure of the Burnaby, Captain Alms, late of the Amboyna, with his officers and ship's company, having been released by the Rajah, or Governor of Cheduba, had arrived in safety at Rangoon. He had freighted a small vessel, the Ceres, to convey himself and his people from that port to Prince of Wales's Island.

The detention of Captain Alms, by the Rajah of Cheduba, appears most extraordinary; for soon after the departure of the Lalla, Captain Young, an order arrived from Ava, for Captain Alms, his officers and crew, to be immediately sent up there.—All remonstrances on their part were fruitless and unavailing, no alternative presented itself but compliance, or a resolute attempt to endeavour to cut off the boats on which they were to proceed on their journey: the many difficulties and dangers attendant on the latter expedient were canvassed over, and it was determined to submit peaceably, and after a tedious, disagreeable, and dangerous journey of near 500 miles, they arrived at the capital of the Burmah dominions.

It was now first discovered why the English prisoners had been thus forced to undertake so unpleasant a journey; the infamous Rajah of Chedubah had circulated a report, that the French had given Captain Alms and his crew, as slaves to His Majesty of Ava.

After a great deal of trouble and a few presents to the King, Captain Alms and his crew obtained permission to proceed from Ava to Rangoon, after a detention of 20 days; fortunately for these sufferers, the Shahbunder of Rangoon was at Ava at the time of their arrival there, and

it was thro' his intercession alone that they were enabled to depart; they were 15 days on their passage to Rangoon, where they arrived in a most deplorable state, thro' uneasiness of mind and the bad quality of their provisions, being allowed only one quarter of a seer of rice per day, and that of the very worst quality.

The Amboyne appears to have fired at La Gloire for one hour and thirty minutes, none of the shot, however, reached her; the privateer came close under the Amboyne's stern, with her sweeps, and was on the point of boarding with 150 picked men, when she struck: the first gun the privateer ever fired, the Syrang immediately disappeared and 12 of his gang lay flat down upon the deck, all the endeavours to raise them from their prostrate position were in vain; 3 of the Seacornies on the Amboyne were discovered to be Frenchmen, and who it is reported had wilfully put the shot into the guns before the cartridges, and it was also afterwards known, that it was their intention to have joined the privateer's men, and to have massacred Captain Alms, with his officers;—two of these wretches, on the Amboyne's striking, immediately entered on board the enemy's ship, the third died at Ava.

Thus situated, without wind and consequently no command of the vessel, further resistance was ineffectual, particularly when Capt. Alms, three officers, four seacornies, and six seapoys alone remained on deck to repel 150 desperadoes armed at all points for boarding.

Letters of a late date have been received from Bencoolen, brought from thence by the ship Clarisse, arrived at Point de Galle, these state, that the Union, Captain V. Burgh, had been freighted for Europe.

A Danish ship had arrived on the West Coast, and brought a large supply of Europe articles.

The snow Clyde, Captain Burnside, was arrived at Bencoolen from this port.

On Tuesday also arrived off town the American brig William and Henry, Capt. Beckford, from the Cape of Good Hope, which she left on the 26th January.

On the 13th of last month, Captain Beckford spoke the H. C. ships Melville Castle, Captain Lamb, Skelton Castle, Captain Isaacs, and Travers, Captain Franklin, in lat. 4° 50' and long. 84° E. all well, bound to Bombay, having left their pilots on the 20th of March.

May 5th.—Yesterday morning accounts were received in Town, of the arrival at Diamond Harbour, of the Ship *Mornington*, Captain Kelfo. She sailed from Portsmouth on the 15th of Dec. in company with the *Eliza Anne*, for Bombay, and the *Exeter*, for this port, under convoy of His Majesty's Ship *Argo*.—The convoy left them off the Western

Islands, and at the same place they parted with the Exeter and Eliza Anne. The Exeter was afterwards seen off Trinidad.

The following passengers have arrived by this conveyance; —Mr. and Mrs. Young, and Family,—Messrs. Ferguson and Hare.

We are concerned to hear that the crew of the Mornington, consisting chiefly of lascars, have suffered severely from the Scurvy; upwards of thirty having fallen sacrifices to the ravages of that disease. Experience evinces that this description of people, who are in the habit of using a great proportion of vegetable aliment, and whose temperament is less capable of resisting the influence of cold, are sooner than Europeans affected with this cruel distemper, from exposure to its causes in an equal degree. It should therefore be the endeavour of those who lay in provisions for those people, to furnish as nearly as possible the articles, which form their customary aliment. Among these we may reckon garlic, onions and capsicum. That a sufficient allowance of Rice, without these seasonings, is unable to secure against the disorder, even on shore, is proved by a fact known to those officers who served in the Carnatic during the years 1783 and 1784. The Bengal sepoy, who had a full allowance of rice from Government, but were unable to procure those kinds of condiment to which they had been accustomed, had many of their number affected with the genuine sea-scurvy in a high degree.

In the mean time, it may not be unimportant to our commercial and nautical readers to be informed that a remedy which may be procured at small expence, is of little bulk and not liable to spoil by keeping, viz. the NITRIC ACID, has in some late trials been found very effectual, both in preventing or checking the progress of the malady on its first approach; and in alleviating its symptoms in a more advanced stage. It was given internally, and also applied by sponges to the surface of the body.—We understand some of the Surgeons of his Majesty's Squadron, now in India, have borne a very favourable testimony to its utility.

On Sunday advice was received, of the arrival in the river, of a Brig from Madras, called the Tamer, whence she sailed the 26th ultimo. By her came Passengers, the late Surgeon of

THE CALCUTTA MONTHLY JOURNAL,

the Kent, and George Parry, Esq. of the Madras Civil Establishment.

By late accounts from Prince of Wales's Island, we are given to understand, among other improvements there, that, of Ship-building has arrived to great perfection:—A large Ship, burthen about 18,000 bags of rice, was expected to be launched shortly after the departure of Captain Risden.—She is reckoned by competent judges, to be a very strong and well finished vessel; built under the immediate inspection of Captain John Elliott, late of the Fairlie.

Accounts are received in town of the arrival of the Henrietta, Captain Sommerville, at Amboyna, from this port.

On Saturday at 4 P. M. was launched from the Yard of Messrs, Hudson, Bacon and Co. a beautiful new Ship, of about 650 tons burthen.—She was named the HOPE, and is to be commanded by Captain Dunbar, destined for the Europe Trade.

May 8th.—Our last accounts from Rangoon, state that a complete change had been ordered by the King of Ava, in the government of Rangoon, every man late in office, but the Minister and Shabunder, had been dismissed from their stations, owing it is added to the number and grievous impositions practised by these men upon strangers, for their own private emolument.

May 19th.—The storm on Thursday evening last, was attended with some fatal accidents from Lightning. A Bricklayer was struck on the road which leads into Fort William by the Calcutta gate, and killed on the spot. Two Sepoys at a little distance were stunned and fell down, but did not suffer material injury. The ground where the explosion took place is indented to the depth of some inches in three places. Another flash struck a small house at Chowringhee, and one or more of the inhabitants are said to have suffered.

Early on the morning of the 8th instant, Colonel Dickson, with a detachment of the troops from Barrackpore, crossed the river, and took possession of the Danish settlement of Serampore, without opposition:—immediately after which the Colonel detached a party

of sepoy to Itherah, under the command of Captain Morris, accompanied by the Captain of the Danish Company's ship Norge, or Norway, and who delivered up the ship to Captain Morris, in conformity to his word of honour given to the Colonel when taken prisoner.

A small brig named the Mythen, under Danish colours, arrived on Friday forenoon, from Chittagong. The case of this brig is particularly unfortunate, having been detained at that port by the chief, from the 10th Dec. 1800, to the 13th March last, doubtless having at first been entertained of her being neutral property.

On account of the above detention, however, she received 2500 Rupees from Government;—but her intended voyage being frustrated, and the commander being under the necessity of selling the brig to pay the arrears due to her officers and crew, he was obliged to bring the vessel round to Calcutta, not being able to effect her sale at Chittagong; for which purpose she sailed from the above port on the 21st March, in ballast; but meeting with very bad weather, on account of the change of the monsoon, she struck on a sand bank off one of the mouths of the Sunderbunds, on the 10th of April, when she lost her rudder, an anchor and cable.

The Commander was therefore obliged to run the vessel into one of the creeks of the Sunderbunds;—(where he observed three vessels that were lost; two appeared to be old, and the third a large new ship);—and after much anxiety, labour and distress, during twenty-eight days, the brig arrived here on the 8th instant; on which day orders had been issued to lay an embargo on all Danish vessels; in consequence of which a military guard was immediately sent on board to take possession of the Mythen.

Letters from the Coast mention the detention and capture of twenty-five sail of different Ships, under Danish colours, by some of our Men of War, and it is said that Colonel Cullen, of His Majesty's Scotch Brigade, was master of the town and fortifications of Tranquebar.

Accounts were stated to have been received from Madras, on Tuesday, mentioning the capture of the Diana privateer, by the boats of His Majesty's ship the Intrepid, off Sadras.

The Nancy Grab, Captain J. Duggan, is arrived from Rangoon, whence she sailed on the 20th April. Captain Duggan saw no vessel on his passage to this port, and merely brings an account of the Burmah Government having resolved to equip a formidable army to act against the Siamese.

May 27th.—Accounts yesterday received from Kedjeree, mention the arrival of the *Sir Edward Hamilton*, Captain A. Robertson, from Portsmouth, which she left on the 8th January, and of the *Rafe*, Captain Kymet.

THE CALCUTTA MONTHLY JOURNAL,

Passenger per *Sir Edward Hamilton*, S. L. De Monte, Esq.
—Per *Rose*, Major Robert Steere Allen, of this Establishment,
and Mr. J. Champoin, Free Mariner.

On Sunday forenoon, the ships *Perseverance*, Captain Derwick, and *Earl St. Vincent*, Capt. Richard Williams, anchored off the town, having left Portsmouth on the 9th January, with twelve other Rice-ships for this place, under convoy of the *Hussar* frigate, of 38 guns, Captain Lord Garlies.

The *Ganges*, Captain Brown, and *Suffolk*, (1st) Captain Luke, likewise arrived on Monday morning, from Portsmouth, which they left on the 12th Jan. with many other ships for Bengal, they fortunately joined the *Hussar's* convoy at Sea; but did not long we apprehend remain with them.

On Thursday evening the *Caledonia*, Capt. George Thomas, anchored off Calcutta, last from Madras, whence she sailed on the morning of the 13th inst.

PASSENGERS:—Mrs. Richardson, Miss Euphemia Thorne, Capt. D. Richardson, Mr. John Raban, Mr. James Beaumont, Dr. Burgh, Master J. Burgh, Mr. T. Calder.

His Majesty's brig the *Albatross*, Captain Waller, anchored in Madras Roads on the 2d May, having completed a passage from Madras to the Sand Heads and back again in the short space of twelve days.—This Brig, with His Majesty's ship the *Braave*, sailed on the 4th May, with a detachment of European troops on board, their destination Tranquebar, which we learn surrendered on the 13th May to the British forces, together with a number of ships then at anchor before that place.

The above intelligence has been communicated by the arrival of the *Ajax*, Captain Moffat, from Madras, whence she sailed on the 18th inst.

The *Ajax* has till lately been employed as a transport, and on the 30th ultimo, left riding in Anjengo Roads, the Hon. Company's ships *Melville Castle*, *Skelton Castle*, and *Travers*, bound to Bombay.

On the 16th May, his Majesty's brig the *Albatross*, returned to Madras Roads from Tranquebar, having in charge the *Princess Royal* and two other vessels, under Danish colours.

The *Exeter*, arrived at Madras from Europe on the 16th May,—touch'd at no Port.

An embargo had been laid on all Danish ships in Madras Roads on the 1st of May, and His Majesty's ship the *Braue*, had in consequence taken charge of the following vessels, viz.

Ship *Juliana Duenecca*,
 — *Tranquebar*,
 Snow *Catharina*, and
 Brig *Veniden*.

Messrs. Chafe, Chinnery and M'Douall, as prize agents, had requested by public advertisement that the Danish Owners of the above vessels or their Agents, would direct some person to take an account of their cargoes, in conjunction with them, in order to obviate disputes in the event of their being restored; and that any person having claims thereon, would make the same known without delay.

A few days ago a Child about 3 years old, belonging to an Artillery Serjeant, on duty at the Magazine at Duckenfore, fell into a Tank, and notwithstanding it was only about two minutes under water, was drowned.

On the 14th instant, the Hon. Company's Ship *Ganges*, Captain Gray, anchored in Bombay barbour, having sailed from Macoa on the 10th of January.—She had sustained from the gales which she encountered in the China Seas, so much damage, as to be judged, by a committee appointed to survey her, unfit to proceed to England. Her cargo was transferred to the Carron, and the *Ganges* returned to Bombay, to receive the necessary repairs in Dock. On her passage she touched at Penang, Columbo, Calicut and Cananore.

Letters from Kistnagerry mention, the destruction of the Magazine at that Fort, on the 25th ultimo, by lightning, and we are concerned to add, that Capt. Henry Smith, Mr. Willoughby, Conductor of Ordnance, some Sepoys and Lascars, were buried in the ruins.

On the 7th instant, the Anniversary of the capture of Seringapatam, was observed with every demonstration of joy at Madras.—A Royal salute was fired at one o'clock, and in the evening the Ladies and Gentlemen of the settlement partook of an elegant and splendid Ball and Supper, given by the Right Honourable the Governor, in commemoration of this great and glorious conquest.

Captain Malcolm and Suite arrived at Bagdad, on the 31st March.

SITUATION OF A SHOAL,

Called the Scarborough, surveyed the end of the month of April, 1800, by the Commander of the Frigate St. Lereña, Don Francisco Reginaldo; appointed to that service from Manila, by the Commander in Chief of the Spanish Squadron in Asia.

LATITUDE.

North end of the Shoal,	-	-	-	15	18	40	N.
South end,	-	-	-	15	4	"	

LONGITUDE.

East side from the Meridian of Manila,	-	3	6	4	W.
West side ditto,	-	3	16	15	

" The smallest distance from the nearest Land of the Island of Luconia, which is Point Caponis, being 43 Leagues and 2 Miles.

DESCRIPTION OF THE SHOAL.

" It covers an extent of Sea equal to $8\frac{1}{2}$ of a Mile from North to South, and of $9\frac{1}{2}$ from East to West, from the Northern extreme, to about the center of it; but from that part of the South end it gradually decreases in breadth, and runs to a point. The whole of the Shoal is surrounded by horrid dangers. (Breakers) without any warning from Soundings, or other mark by which its proximity may be known: - a few Rocks at extremes are above water, and discernable, but so little above the level of the water, that even in clear weather the Shoal can only be seen at the distance of seven Miles keeping a clear look out.

" As the survey was made by intelligent Officers, who were in possession of good instruments, and who also had a watch in which great faith was placed, it is reasonable to conclude that the extremes of the Shoals are determined within one Minute of the Latitude, and two of the Longitude."

Extract of a Letter from Captain Bennet Harper, Commander of the Ship Madras, dated Rangoon, the 7th of March, 1801.

" I have the pleasure to inform you of our safe arrival here, after a passage of twenty-one days from Madras.

" On the 16th of February, we fell in with a French Brig Privateer, off Vizagapatam; she kept up a fire at the Madras, from sunset until ten o'clock the next day, when she gave over the chase.

" I have no time to give the particulars, as the vessel that I send this by, is passing down the River."

The above account is corroborated by the Captain of the Mayflower, and others who were prisoners on board the Diana Privateer at the time the above action took place. They add that the Diana, during the chase, fired sixteen broadsides, besides small arms. They had formed the party for boarding, when a double headed shot came on board the Privateer and killed the second Captain. After which they gave over their intention, supposing that she had Troops on board, and they had expended all their ammunition for small arms.

Extract of a Letter, dated Saldanha Bay, 11th January, 1801.

"Having left Cape road on the 5th instant, in Captain Melville's vessel, where I and the son of the above mentioned were passengers, I observed near Dassen Island colours flying, which by the assistance of a spying glass I distinguished to be a signal of distress, whereupon the Captain resolved to alter his course, and to make the Island, in order to give assistance to the shipwrecked. On coming close in to it we heard the cries for assistance; and on landing, we found six of the crew belonging to the vessel of Messrs. Tieleman and Roos, who, on their passage to Melkbosch, had been dashed to pieces on the said Island.

"These unfortunate men had supported themselves, during 26 days, by rabbits and penguin eggs, and were in a most distressed situation, as well for the want of provision, as for fear of losing their lives."

CIVIL APPOINTMENT.

Mr. James Bell, Assistant to the Salt Agent for the Division of the 24 Pergunnahs.

The Government Advertisements will be inserted in the next Number.

The Right Honourable the Governor in Council has received, with much regret, a report of the death of Subidar Shaik Ibrahim, of his Lordship's Body Guard, in a gallant and successful charge, led by Lieutenant James Grant, against the Rebels of Tinnevely, on the 30th of last month.

A rare combination of military talents has rendered the character of Shaik Ibrahim familiar to the Officers of the army.—To cool decision, and steady valor he added that sober judgment, and those honourable sentiments, which raised him far above the level of his rank in life; an exertion of uncommon energy and personal exertion terminated his career, and the last effort of his voice breathed honour, attachment, and fidelity.

The Governor in Council being desirous of marking to the army, his Lordship's sense of the virtues and attainments which have rendered the death of this Native Officer a severe loss to the service, has been pleased to confer on his family, a pension equal to the pay of a Subidar of the body Guard, being 30 Pagodas per month: and his Lordship has farther directed that a certificate to this effect, translated into Persian and Hindoostanee, may be presented to the family as a record of the gift, and a tribute to the memory of the brave Subidar Shaik Ibrahim.

The Governor in Council takes this opportunity of expressing His Lordship's high sense and approbation of the Conduct of COLONEL STEVENSON in the Command of the forces in Mysore during the absence of the Honorable Colonel Wellesley, and the eminent success which has attended the operations entrusted to that Officer in Malabar, having entitled him to a distinguished mark of His Lordship's approbation, the Governor in Council has resolved to appoint Colonel Stevenson to the special Command of the Provinces of Malabar and Canara, under the orders of the Officer Commanding in Mysore.

Lieutenant Batt, is appointed *pro-tempore* to command the Hobart, until Captain Evans can join that ship.

Extract of a letter dated Hamadan, 22d February, 1801.

"I had the pleasure of addressing you soon after our arrival at Teheran, giving you rather an imperfect description of our gracious reception by his Persian Majesty, which was certainly equal to our most sanguine expectation.

"We soon began to think of retracing India, and on the 20th of January accordingly we left the Capital, and began our march for Bagdad, although in the middle of winter, notwithstanding the

various reports we had heard of the difficulty of travelling at that season, the badness of the roads and various other obstacles; to obviate this as much as possible we were pretty well prepared in expectation of meeting with some difficulties on our march, but we certainly had formed no adequate idea of what they really would be, or what we experienced them. We found the roads as bad or rather worse than described, the snow every where near three feet deep, and whilst our horses were labouring thro' this, we had a burning sun over our heads almost as hot as we ever experienced in India; in consequence of which, the reflection was so violent as to cause extreme pain to the eyes, and Captain Malcolm with most of the other Gentlemen of the party were perfectly blind for three days, during which they suffered the most excruciating pain. This complaint was however, not confined to our party alone, the Persians being affected in the same manner, but not in so violent a degree, being in a great measure protected from the violent effects of the sun by a kind of hood they wear, and which they call a *Balchloak*.

"As it was impossible to pitch tents during this unpleasant journey, houses were always prepared for us at the different villages through which we passed, and we had always the pleasing satisfaction after our long and fatiguing rides, of coming in, to a fine *bleeking* *single* and a *clean hearth stone*, and an excellent breakfast in the true Persian style.

"We arrived at this place on the 11th instant, and as it is a large and populous town where we are provided with excellent accommodations, Capt Malcolm determined to halt here until the weather began to open a little, and I am very happy to say that the snow is now a good deal thawed, and we have now before us the prospect of a pleasanter march than that which we have already accomplished. — Our baggage is already set off, and we shall follow I believe to-morrow, and hope soon after you receive this, that we shall again have the pleasure of meeting our friends at Bombay."

~ *Extract of a letter dated Judda, 28th of February.*

"I have particular satisfaction in informing you, that the division under Admiral Blanket, are all arrived here in safety, the people are healthy and in high spirits.

"In working into Judda, the weather proving rather hazy, his Majesty's ship *La Forte*, Captain Lucius Hardyman, unfortunately struck on a sunken rock about twelve or fourteen feet under water, going at that time between five and six knots through the water, she was soon got off, but had received so much damage from the shock, and made so much water that they found it expedient to run her on shore on the nearest shoal, to prevent her foundering. I have, however the pleasure to inform you, that the commander, Officers and crew, have all been saved; as the communication with Bombay will now be frequent, you shall regularly hear of our future operations."

*Fort William, Public Department, May 13, 1801.*

HIS EXCELLENCY THE MOST NOBLE THE GOVERNOR GENERAL IN COUNCIL, in consequence of further Instructions received from the Secret Committee of the Honourable Court of Directors, under date the 4th of December, 1800, is pleased to declare, that so much of the Advertisements bearing dates the 12th of February, and 10th of March last, relative to the Exportation of Rice from India to England, on Ships taken up in India as respects the Guarantee, the Risk, and the time of Arrival in England, is hereby superseded.

The following are the Terms which will now be granted:

The Sum of Thirty-five Shillings per Hundred Weight is guaranteed to the Shippers of Rice, they bearing all charges of Insurance, and taking all risks whatever upon themselves.

The period limited for Ships to leave India, namely, the 1st of September, 1801, allowed to Ships licensed by the Honourable Court of Directors to proceed to India for the purpose of carrying Rice thence to England, is also allowed to Ships taken up in India for that purpose.

The Governor General in Council, with a view of affording the utmost encouragement to the exportation from India of the largest quantity of Rice, which may be practicable within the period prescribed, has been pleased further to determine, that the Shippers of Rice on Ships taken up in India, shall have the same indulgence extended to them, as is allowed to the Commanders and Agents of Ships licensed in England, namely, that, on their application, advances will be made to them for the purchase of Rice, or supplies of Rice will be afforded to them, at their option, on the following terms:

That the extent of any advances required, shall not exceed the prime cost and charges of the Rice.

That the advances shall be made at the option of the parties, in Treasury Bills or in Promissory Notes, bearing an Interest of Twelve per Cent per Annum, payable in two years, leaving it optional with Government to discharge the Promissory Notes, at any intermediate period.

That the Owners shall assign over to the Company the Bills of Lading, Invoice of the Cargo, and Policy or Policies of Insurance, and shall grant Bills upon their Agents in England for the amount of Advances made, or of supplies of Rice afforded in India, at the exchange of Two Shillings and Six Pence per Sicca Rupee, payable three months after sight.

That no Port Clearance shall be granted to any Ship, the Owners of which shall have received Advances from the Company for the purpose of purchasing Rice, or supplies of that Article for Exportation to England, until the Bills of Lading, Invoice and Policy or Policies of Insurance shall have been deposited with the Board of Trade; or, in the event of the Rice not being insured, until adequate security for the amount of the advances made or of supplies of Rice afforded shall have been tendered to and accepted by that Board.

The effects of this notice shall not be retrospective with regard to any Ships which have commenced their lading previous to the day of the date of this Advertisement, unless the Shippers should prefer the terms of the present Advertisement.

The Clauses in the Advertisements of the 12th of February, and 10th of March last, respecting the quantity of Rice to be carried, and the quality of the Rice and other particulars, continue in force.

The Governor General in Council has been pleased further to determine with respect to Ships licensed in England, that the Commanders or Agents shall be supplied on their application with advances to the extent of the prime cost of the Rice, or with supplies of Rice at their option.

### CALCUTTA, JUNE, 1801.

*June 2d.*—On Wednesday accounts reached town of the safe arrival in the river, of the *Atian*, Captain Barker, from England, 5th December, and the *Cape*, on the 19th March; also of the ship *Thames*, Captain Ellbeck, from Falmouth, on the 10th February, and the ship *Sir John Borlace Warren*, Captain W. J. Davis, from Falmouth, on the 21st January.

( This last ship sailed under convoy of the Fly sloop of war, with twenty other sail of ships for this country, and parted from them on the 1st February, off Cape Finisterre.

On the 10th March, the Warren spoke the Betsey, Captain Hooper, bound to Bengal, and on the 2d April she fell in with the Hind, Captain Catline, also bound here;—on the 24th April, spoke the Bridgewater, Captain Lukin, bound to Madras, and kept company with her till the 19th May, when she parted off Ceylon.

The Arran arrived at the Cape, 2d March; and on the 4th of the same month, a ship under Hambro' colours was sent in, by La Fortune privateer, commanded by Captain Hallecrow.

A Danish ship, named the Bellona, from Copenhagen, arrived at the Cape, on the 26th February.

The Eliza, Captain Ingledew, is arrived from Prince of Wales's Island, whence she sailed on the 21st April; left riding at that Port, the Mornington, Captain Frost, and Dart, Captain Rowe.—The Carmo, Portuguese ship, from hence for Macoa, had arrived, and sailed on the 6th April; the other Portuguese ships were going in as the Eliza left it.

On Saturday last, was launched from the yard of Messrs. Hudson, Bacon, and Co. at Howrah, a very handsome vessel, of about 750 tons burthen, for the Europe trade; and was named—“THE UNION.”

---

*June 3d.*—Yesterday, arrived off Calcutta, the Triumph, Captain James Lennon, from Madras, whence she sailed on the 26th ultimo. Mrs. Ross,—Mrs. Lennon,—and Mr. Lister, were passengers by this conveyance.

---

*June 9th.*—On Saturday, arrived off Calcutta, the Louisa, Captain Weatherall, from the West Coast, having left Bencool on the 2d April, Natal on the 29th, and Tappanooly, the 4th May; but we do not learn that she has brought any news from either of those places.

The Union, Captain Burgh, had sailed from the West Coast, with a cargo of Pepper, &c. for England; the first instance, of a private vessel, having been permitted to proceed there, from Bencool.

By this conveyance, we understand that Mr. Griffiths and his Lady, took their passage to Europe.

The Louisa experienced very disagreeable weather in the Roads, by which she lost some Anchors and Cables; and the Diana, Portuguese ship, bound to Manilla, has been forced back, but without damage.

The Forth, Captain James Taylor, who left Prince of Wales's Island some time in February last, is arrived, we are happy to learn, at Nagore.

---

*June 10th.*—Captain M. Sparrom, of the Industry grab, arrived in town on Monday forenoon, having left Madras on the 22d May, and experienced in Balasore roads for several days, very severe gales of wind. The following gentlemen have come passengers by this conveyance, Lieutenant Rogers, Mr. Donald Fraser, and Padre Savoie.

The Experiment, a rice-ship, Captain John Nelson Whyte, arrived also on Monday, from England on the 9th January, and Madras on the 27th May; Mr. W. Nixson, a Cadet for this establishment, was a passenger on this ship.

The Experiment was for several days in Balasore roads, exposed to the same gales as the Industry, but no Pilot being in sight, Captain Whyte dispatched a boat with an Officer and his Purser to Kedgerce, with the letters and packets of his ship,—the boat by some accident was upset, between Ingelee and Kedgerce, and we are concerned to add that the Purser has not since been heard of, tho' the remainder of the boat's crew have arrived in safety at Kedgerce.

---

By letters from Amboyna, of date the 6th April, and received by His Majesty's brig Mongoose, lately arrived at Madras, we learn that the following vessels were then at that port, viz:

The Farquhar, Captain Meldrum,  
 Bangalore, Captain Lynch,  
 Star, Ci-devant Polly, Captain Otto,  
 Henrietta, Captain Somerville,  
 Albion, and Phoenix.

The letters further state, that there was a greater quantity of Spices collected this season at the Moluccas, than had been known for many years past.

## SESSIONS.

*June 15th.*—On Wednesday last, the Supreme Court commenced their first term of Oyer and Terminer for the year. The Honorable Mr. Justice Royds addressed the Grand Jury, impannelled on this occasion, in a pertinent and impressive manner. His charge was a lucid detail of the criminal code, containing every requisite information on the cases to be brought before the Grand Jury, which was composed of the following gentlemen :

|                                 |                               |

| Mumtord Campbell,               | Jonathan Court, <i>Esqrs.</i> |

On Friday the Grand Jury were discharged, and the following sentences have been passed on the culprits :—

Frederick Stephen Rollason, for the murder of Shaik Ruffick, a Bhifty. This trial took place on Thursday.—The indictment stated, that he killed a Bhifty, in the Gaol of Calcutta, on the 2d day of December last, by striking the unfortunate man with a part of one of his fetters, which he had in the course of the day contrived to wrench from his leg. After the witnesses on the part of Government were examined, Rollason proceeded to make his defence, which he had committed to writing, and was five hours and an half in going through. The unhappy prisoner, amid an incongruous mass of irrelevant matter, was unable to produce a single fact or circumstance in justification or extenuation of his crime.—Indeed, his only object, in making even a nominal defence, appeared to avail himself of an opportunity of disgorging an ungrounded resentment which has long been rankling in his bosom, against every law character in the country and every other person, however remotely connected with the administration of Justice.—The Jury, after receiving a charge from His Lordship the Chief Justice, retired, and about half past ten, returned into Court and delivered their verdict,—*Guilty.*—*Death.*

William Johnstone, for the murder of Benjamin Way,—  
*Death.*

Roganaut Day, for Burglary.—*Death.*

Beebun, for Burglary, transported for life.

Shaik Buxo, for a misdemeanor, to be imprisoned two years  
in the House of Correction.

John Thompson, for an assault, fine one rupee and discharged.

Rollson and Johnstone are to be executed this afternoon; •  
and Roganaut Day, on Friday, the 26th instant.

*June 16th.*—Accounts are received of the arrival in the  
river of the Ceres and Scarborough, Rice ships, from England.  
We are concerned to hear that the Lydia Elizabeth, Captain  
Butler, (formerly the Malartic) bound to the Eastward, went  
aground on a sand bank off Kedgerree, and had not got off  
when the last accounts came away.

On Friday last arrived in the river the ship Exeter, Captain  
J. Macintosh, from England, but last from Madras, which  
she left the 3d instant.

The American ship Good Hope, Captain John Collins, came  
to her moorings off town on Monday se'nnight, from Salem,  
whence she sailed about five months since.

The ship William Pitt, Captain Richard Owen, arrived at  
Diamond Harbour, on Sunday se'nnight, sailed from London  
11th January, and from Madras the end of May, spoke the  
China fleet, of which the Walthamstow, Captain Money, was  
one, homeward bound, all well, off the Cape of Good Hope.

The ship Fanny, Captain Thomson, and the other Whaler,  
lately arrived at Madras from the Cape for grain, we understand  
are to proceed to Karical to take in their cargoes.

The ship Peggy, Captain Robertson, taken some time since  
by the La Gloire French privateer in the Bay, is arrived at  
Mauritius, as also the Duke of Clarence.

*June 19th.*—Accounts were received on Sunday from  
Kedgerree, of the safe arrival in the river of the American ship  
the Marion, Captain W. D. Seton, from New York, in  
January last, and the Cape of Good Hope on the 17th April.

An embargo had been laid on all Danish ships; in consequence  
sixteen sail of ships navigating under those colours had been  
detained; their cargoes landed at Cape Town, and the ships  
ordered round to False Bay.

One of H. M. ships stationed off the Mauritius, had sent into the Cape a ship under French colours, and two Danes; and a whaler well manned and armed, had fortunately picked up three Spanish ships, with valuable cargoes on board; one of these had been disposed off at the Cape, the other two were to proceed for Europe, there to be condemned and sold.

The American ship the Hazard, Captain Gardiner, that sailed hence on the 29th January, arrived at the Cape in the month of March.

The ship Sir Edward Hamilton, Captain Robertson, in latitude  $46^{\circ}$ ,  $44'$  South, and  $40^{\circ}$  East longitude, was struck by lightning, which carried away the fore-top-gallant mast, shivered the fore-top mast and fore-cap, and went through the deck abreast of the fore-mast. It then spread below, setting fire to the sailor's hammocks, wrenching all the iron from their chests, and taking a direction ast, into the cabin, went off among the arms which were in that part of the ship, with a dreadful explosion. Captain R. and the crew, who fortunately were on deck furling every sail, (it blowing a hurricane at the moment) thought the ship blown up. But the smoke and sulphurous smell having subsided, they found she was still above the waves, and by timely and spirited exertions they were successful in extinguishing the fire.

The lightning burnt all the sails in the fore-top, killed the hogs, melted the cooking utensils in the galley, and knocked down all the men who were in the fore part of the ship, but none were killed, though a number of them were blind for some days, and have not yet perfectly recovered the use of their sight. The gale, during which this alarming accident happened, lasted for some days, and was uncommonly severe.

---

*June 20th.*—Rollason and Johnstone were executed pursuant to their sentence on Monday last. The unfortunate men behaved with decency and firmness.—Rollason addressed the spectators, and sung the Indian Death Song, applying it to the circumstances of his own case.

---

*June 23d.*—On Saturday morning, the Minerva, Captain Richardson, received the Pilot on board, and the same evening anchored at Diamond Harbour. She sailed from Port, mouth on the 12th February, in company with the William.

Dent; for this port, and the Bellona, for Madras. She parted company with the William Dent, on Friday, off False Point, in a gale of wind. Off the Cape they fell in with an American, last from Teneriffe, laden with wine. While she was at Teneriffe, a West Indiaman which had sailed from Liverpool, on the 27th of February, and was captured by a French Privateer, was brought into that port.

During the storm on Saturday evening last, the house opposite the Chaundry Choke, inhabited by Mr. Brietzcke, was struck by lightning on the east end. After entering by the roof, and totally destroying the glass frames and venetians of the room, it damaged several parts of the walls in endeavouring to make its escape, which at last, it effected through a part of the broken window, and destroyed the roof of a tiled house adjoining. Four small children, with their attendants, and some servants, were within a few feet of the explosion, but luckily not hurt. Mr. B. who was twelve or fourteen paces from where the lightning entered, was thrown a distance of 10 or 12 feet, and was a short time insensible, and somewhat bruised. From the appearance of the outside of the house, the lightning must have first struck an earthen urn which stood on the angle of the roof, and forced its way through the wall in several places.

---

June 30th.—On Tuesday last, arrived at Kedgerree, the Hon. Company's ship Mornington, from a Cruise.

On the same day arrived the ship Dart, Capt. G. Rowe, from Achern, which place she left on the 15th instant. She brought in with her a Danish ship, called the Catherine, from Batavia.—Since her arrival in the river the Mornington has taken charge of the prize.

The American ship Elizabeth, Capt. J. Brown, is also arrived.— She sailed from Salem on the 22d December, and touched on her passage out at the Cape, which she left on the 28th April.—By this conveyance came Captain Durand, bringing, we understand, Government dispatches from Admiral Sir R. Curtis. At the time of her sailing from the Cape, flour and wheat continued to be very scarce, though, considering this circumstance, the price was moderate. However, that which cost from 10 to 14 dollars in America, was selling at 15 dollars per barrel. The Elizabeth experienced very rough weather in the Bay and off the Sand Heads, where she was beating about a number of days, in quest of a Pilot. The Elizabeth is chiefly laden with spars and various fruits from the Cape.

On Wednesday last, accounts were received of the arrival of the Hind, Capt. W. Catline, and Suffolk, Capt. John Robinson, two rice ships;—the former left Falmouth the 24th January, the latter England the 29th ditto.

Passengers per Suffolk:—Miss J. Stewart, Mr. W. Stewart, and Mr. C. Palmer.

On the same day advices were received in town of the arrival of the ship Neptune, Capt. B. W. Stevenson, from Madras, whence she sailed the 12th instant. She was dismasted in a gale of wind, and in a very leaky condition was towed into Balasore roads by the ship Hind.

Passengers by the Neptune:—Major Malcolm, Hon. Mr. Bruce, and Messrs. R. Stracey, Rowles, W. Hollingbery, I. Inglis, and R. Jenkins.

On Thursday last, a chokey boat brought up accounts of the arrival of the ship Bellona, Capt. Edward Lambe; she left Portsmouth the 13th February, touched at Madras, and left it the 19th instant.

Accounts were also received of the arrival of the H. C. snow Harriet, Capt. W. Collins, from Chittagong, whence she departed the 17th ult.—Mr. W. Roxburgh, came passenger by this opportunity.

Letters from Penang dated the 28th ultimo, and received by the Mornington, mention that a boat belonging to the ship Madras came into that port with information, that the ship had upset in a squall, and that the greatest part of the crew were supposed to be lost—In consequence of this information, a vessel was immediately sent in quest of her, to endeavour, if possible, to pick up some of the unfortunate people.

The Dart on her passage from Penang to the Coast of Pedier, fell in with the wreck of the Madras, and picked up one of the crew.

The ship Berrington has, we understand, been sold at Madras, for 10,000 Star Pagodas; it is said that Capt. Binny was the purchaser.

On Sunday se'nnight, arrived the William Dent, Captain G. Muffon, from Portsmouth, whence she sailed on the 13th January.

---

The following is a list of passengers arrived at Madras, from Europe, on the Active, Capt. Smith.

Mrs. and Miss Polhill, Miss Stewart, Miss Jolliff, Lieutenant Stewart, Mr. and Mrs. Hurst, and Messrs. C. Palmer and Stewart, Cadets for Bengal.

---

On Thursday a horse ran furiously with a Buggy down

the Chitpore road, at a time when it was unusually thronged by the natives. An unfortunate man had his leg broke by one of the wheels passing over it, and several people were injured by the animal before his career was stopped by his plunging with the Carriage into a deep ditch.

Extract of a Letter from the Commander of the Matilda, dated Cochin, 31st May, 1801.

“ You will be agreeably surprised to learn our singular good fortune of having re-captured from the French my old Ship the Rebecca, under the name of the Deux Arius, on the 30th April, in the Mosambique Channel, laden with Slaves, (which at the Cape will yield us a Lac of Dollars) commanded and manned by Frenchmen, 29 Europeans and 12 Blacks, made a desperate resistance and defence, and did not surrender till all were killed or wounded, save five. Our Lascars behaved remarkably well, and the Sepoys equal to Europeans. We had several killed and a number wounded, amongst whom is Captain Sheen.”

At Tranquebar, on the 4th instant, Lieut. Col. Cullen, commanding at that station, gave a splendid entertainment to His Excellency Major General Anker, and the principal officers, Civil and Military, of the late Danish Government; when the King's health was given, a royal salute was fired from the Citadel, and another when His Danish Majesty's was drank.

The evening concluded with a Ball and Supper to the Ladies, who, with great glee, and harmony, kept up the sprightly dance till the morning gun fired.

APPOINTMENT.

Captain Wedgeborough, of the Hon. Company's Marine, Master Attendant at Tranquebar.

MILITARY.

Fort St. George, 5th May, 1801.

G. O. BY GOVERNMENT.

The Right Honourable the Governor in Council, having been pleased to resolve that Kistnagherry and Datampoury, shall no longer be considered Military Posts, directs that the Stores now remaining at those Stations, and the Troops composing the Garrisons, shall be removed agreeably to the Instructions which have been transmitted to the Military Board and to the Officer Commanding the Army in Chief.

Fort St. George, 16th May, 1801.

G. O. BY GOVERNMENT.

The approach of the Monsoon in Malabar, having rendered it necessary to order the distribution into quarters, of the Troops who have been employed on field service in that province under the Command of Colonel Stevenson, the Right Honourable the Governor in Council takes this opportunity of repeating the expression of His Lordship's warmest approbation of the conduct of the Detachment, under the Orders of that able and distinguished Officer.

The Detachment was equipped for the purpose of subduing the Rebellious Rajah of Pichy, who had long opposed formidable and destructive resistance against the Arms of the Company, and for the Assertion of the British power throughout the Province of Malabar; and the success of this Service which has been pursued with unre-

mitting ardor and exertion, has answered His Lordship's most sanguine expectations; by the judicious and spirited arrangements of Colonel Stevenson, and by the zeal, perseverance, and gallantry of the Officers and Men composing the Detachment, the force of the Rebels has been broken and dispersed, the influence of the Rajah annihilated, and the authority of the Company effectually established in that part of its dominions.

The Governor in Council, has derived great Satisfaction from the honourable testimony communicated by Colonel Stevenson of the individual exertions of the Officers of his Detachment, in the course of this glorious Service, and the conduct of Colonel Sartorius, as second in command, entitles that Officer to his Lordship's particular thanks.—The Officer Commanding the Army in Chief, will accordingly express to Col. Stevenson, and to the Officers and Men of the Detachment, the high sense which the Governor in Council entertains of their distinguished and meritorious services.

It is with particular satisfaction that Major General Brathwaite performs the pleasing duty assigned to him in the foregoing Government General Order, of communicating to Colonel Stevenson, and Sartorius, and to the meritorious troops who have lately served under the command of those excellent Officers, the Sentiments of high approbation which the Right Honourable the President in Council has been pleased to express of their Services; and to which, the General has much pleasure in adding his most cordial, and perfect concurrence.

G. O. By Government, Fort St. George, May 21, 1801.

The Right Honourable the Governor in Council is pleased to appoint Lieut. Col. Cullen, of His Majesty's Scotch Brigade, to command in the Fort of Tranquebar.

Lieut. Buchan, of His Majesty's Scotch Brigade, to be Fort Adjutant in Tranquebar.

G. O. By Government, Fort St. George, 22d May, 1801.

PAR. 1—The Right Honourable the Governor in Council, having received the report of Lieutenant Colonel Innes, stating the apprehension of the rebellious Polygar of Veerapatchy, and the suppression of the troubles in the Province of Dindigul, His Lordship takes the earliest opportunity of expressing his public thanks to Lieutenant Colonel Innes, and to the Officers, and Men, who have been employed on Field Service under his command in that province.

2.—The operations of Lieutenant Colonel Innes's Detachment have been equally distinguished by the judicious arrangements with which they were planned, and by the great energy and ability which signalized their execution; and the Governor in Council has viewed with the highest satisfaction the undaunted and persevering ardour, with which the difficulties opposed by the united force of the Rebels, the severity of a fatiguing service, and of an unfavourable climate, have been surmounted.—The force of the Rebels has been subdued, their strong holds attacked and taken, and the Civil Government restored in the rebellious pollams, with a degree of rapidity, judgement and success, which merits His Lordship's warmest applause.

3—The Governor in Council has derived great satisfaction in the execution of this Service, from the zeal and union of public spirit which has animated the Civil and Military authorities in their mutual exertion for the public good. And the meritorious exertions of the Officers of the detachment which His Lordship has had repeated occasion to commend, deserve the particular acknowledgements of the Governor in Council.

The Governor General in Council adverting to the great expence which has been incurred, by granting Extra Batta to the Native troops, stationed at Chandouffey, Shahabad, Sandelah, Purbaghur, and Byram Ghaut, subsequent to the arrival of the troops at those stations, and to the date of the Orders for erecting temporary buildings, deems it to be proper, with a view to prevent unnecessary expenditure of the public money, to order, and direct, that conformably to the regulations passed in the Secret and Military Department of the 30th June, 1786, "No more than half batta be allowed to Native troops with-
" in or without the Provinces, except on foreign service, or when

" venue or Commercial Chiefs, and that this resolution shall com-
" prehend every Garrison, Cantonment, fixed Camp or stationary
" situation, of every Corps whatsoever."

It will be the duty of the Officer commanding Native troops already occupying ground on which it is intended that the troops shall remain for a period of time, not less than two months, immediately on his being duly informed of such intention to direct in Public Orders the Officers in command of companies to cease drawing Extra batta for the men of their respective companies.

It will also be the duty of the Commanding Officer of any detachment or troops ordered to march and to occupy any new post or situation at which it shall be intended the troops are to remain for a period of time, not less than two months, immediately on the arrival of the troops at the ground to which they are destined, to give the necessary directions in Public Order to the proper Officers to cease drawing the Extra Batta for the Native troops.

Commanding Officers are on all such occasions ordered to give immediate information to the Military Auditor General, by letter, of the dates at which the Extra Batta is to cease.

Fort William, Judicial Department, the 18th June, 1801.

His Excellency the Most Noble the Governor General in Council, understanding that the Dealers in Horses and other Cattle who have resorted to the Fair annually held at the Duddry Chutter, or confluence of the river Ganges and Sirjoo, have experienced great inconveniences from the confined Site of the Fair, the want of resident Bankers, and Traders with whom the Dealers might with facility negotiate their pecuniary concerns, and also from the badness of the Roads as well as from the dangers to which they have been subject in passing to and from the Duddry Fair; and being desirous not only to obviate those inconveniences, but also to afford every proper and reasonable encouragement to the Horse Dealers; with a view to the attainment of a more general diffusion of an improved race of Horses over the Company's Provinces; His Excellency in Council has therefore thought proper to order and direct, that on the first Full Moon in the ensuing Month of Cartick, and in future annually at the same period, a Horse Market shall be held at the Melab of the Hur Hur Chutter, or confluence of the Great Gunduck and Ganges.

Notice is accordingly hereby given, that all Dealers in Horses and other Cattle, as well foreign Dealers, as those residing in the Company's Provinces, may with confidence repair with their Cattle to the Market, to be held at the Hur Hur Chutter, or confluence of the great Gunduck and Ganges, and may rely on receiving every encouragement and protection. The numerous purchasers who will resort to the market from the towns of Dinapore and Haidgapore, and the City of Patna, will insure a ready Sale for the Horses and Cattle; and the vicinity of the City of Patna to the Market will afford the Horse Dealers immediate means of negotiating their money transactions through the medium of the Resident Bankers at that City. As a further encouragement to the Horse Dealers, they are also informed, that it is the intention of Government to purchase on account of the Honorable Company, as many of the Horses which shall be exposed for Sale at the Hur Hur Chutter, as shall be found of a quality suited to the service of the Cavalry.

His Excellency the Most Noble the Governor General in Council, with a view to give effect to the foregoing orders, directs the Magistrates, Collectors, and other public Officers of Government, to afford every degree of encouragement and protection to the Horse Dealers in their progress to and from the Fair at Hur Hur Chutter.

" for which he is entitled to receive from the Secretary to the Government, a Promissory Note payable at the expiration of two years, with Interest to be paid annually, at and after the rate of Twelve per Cent. per Annum."

ORDERS OF HIS EXCELLENCY THE MOST NOBLE THE GOVERNOR
GENERAL IN COUNCIL.

Fort William, July 16, 1801.

Whereas is hath hitherto been the practice, for Ships importing at Calcutta, to retain their Gun-powder on board while lying in the Port; and whereas, the explosion of a large quantity of Gun-powder on board of Ships lying off the Town, might be attended with the most destructive consequences to the Town, to the Inhabitants thereof, and to the Shipping in the port; and whereas, instances have occurred of shot being fired into the Town of Calcutta, and into the Country adjacent, by Ships saluting Fort William, or firing Guns on other occasions: His Excellency the Most Noble the Governor General in Council, with a view of obviating the serious consequences which might ensue from a continuance of these irregular and dangerous practices, has been pleased to establish the following Rules:—

1. The Commanders of all Vessels bound to the Port of Calcutta, and proceeding up to the Town of Calcutta, or to any other part of the River above Atchepore, are required on or before their arrival off Atchepore, to land at the magazine which has been erected at that place, all the Gun-powder which they may have on board, (whether contained in barrels, or made up into ammunition) exceeding the quantity of One Hundred Pounds, which quantity every Vessel is permitted to retain on board for the purpose of firing Salutes or Signals in cases of distress, Officers appointed by Government, will take charge of the Gun-powder immediately on its being conveyed to the shore at Atchepore, and will deposit it in the Magazine. Commanders of Vessels are required to mark the names of their respective Vessels on the barrels and packages of Gun-powder, previously to their being landed. A Receipt for the Gun-powder will be granted by the Officer in charge of the Magazine.

2. In order that Vessels may be detained as short a time as possible for the delivery of their Gun-powder, Commanders of Vessels are required on coming in sight of Atchepore, to hoist a Flag at the fore-top-mast-head, whereupon the Officer in charge of the Magazine will immediately order persons to be in readiness at the river side to receive the Gun-powder.

3. Gun-powder shall not be landed or received into the Magazine between sun-set and sun-rise.

4. The Commanders of Vessels outward bound, which may require Gun-powder for their outward voyage, shall not take Gun-powder on board in any part of the river above Atchepore, with the exception of a quantity not exceeding One Hundred Pounds for the purposes before-mentioned. Should any Gun-powder have been landed from any Vessel when inward bound, and deposited in the Magazine, the Gun-powder will, upon the application of the Commander of the Vessel to the Officer in charge of the Magazine, (such application being accompanied by the Receipt granted on the deposit of the Gun-powder in the Magazine) be conveyed to the river side, and delivered to such person as may be sent to take charge of it.

5. In future, Vessels entering the Port of Calcutta, shall not at any time while lying in any part of the River between Atchepore and Calcutta, have on board without the express Sanction of Government, any quantity of Gun-powder exceeding One Hundred Pounds for the purposes before-mentioned; the Collector of the Government Customs is hereby empowered and directed, should he have reason to believe, that a quantity of Gun-powder exceeding One Hundred Pounds, has been received on board of any Vessel, to cause the Vessel to be searched, and should any greater quantity be found on board, to seize the same.—The Collector is also empowered and directed to seize any unauthorized quantity of Gun-powder which may be attempted to be shipped on any Vessel in opposition to the rules herein prescribed, all such Gun-powder so seized shall be liable to confiscation: the Collector shall immediately send all the Gun-powder so seized to the Magazine in Fort William, and shall report the circumstances of the case to the Board of Trade, the Collector shall not grant a Port Clearance for any such Vessel from which Gun-powder shall have been so seized without the express authority of the Governor General in Council.

6. One half of the estimated value of all Gun-powder which may be confiscated under this Regulation, shall be granted in equal proportions to the Collector of the Customs and his Deputy; the remaining moiety shall be granted in equal proportions to the informer and to the Officer assisting in making the seizure.

7. The Commanders of Vessels lying at Diamond Harbour, or in any other part of the River below Atchepore, will be permitted to deposit their Gun-powder in the Magazine at Atchepore.

8. Pursuant to the Orders contained in the 5th Article of these Regulations, the Commanders of all Vessels now lying in the Port of Calcutta, having on board a quantity of Gun-powder exceeding One Hundred Pounds, are required by the Thirty-first day of July, 1801, to send the quantity of Gun-powder exceeding One Hundred Pounds, which they may have on board of their respective Ships, or at any place on shore, to the Magazine at Atchepore. If the Commander of any Vessel shall not conform to this requisition, he shall be liable to the Penalties stated in the 5th Article.

9. The Commanders of all Vessels lying off the Town of Calcutta, or in any part of the River between the Town and Kedgerce, are prohibited from firing guns (excepting for the purpose of Saluting Fort William, or for Signals in case of the Vessels being in distress) for any purpose whatever, without having previously obtained the permission of His Majesty's Justices of the Peace for the Town of Calcutta. When guns shall

be fired from any Ship for the purpose of Saluting Fort William, or for Signals, in case of the Ship being in distress, and also in cases in which guns may be fired with the permission of the Justices of the Peace, the Commanders of the Ship is enjoined to be particularly careful, that the guns be not shotted.

FORT WILLIAM,—JULY 11, 1861.

Dispatches have been received by His Excellency the Most Noble the Governor General from the British Army serving on the shores of the Red Sea, dated from Judda on the 23d May, and from Mocha on the 2d June, by which it appears that the greater part of the divisions of the Army which proceeded from the Island of Ceylon and Bombäy, under the command of Major General Baird, had arrived at the Ports of their respective destination in the Red Sea; that a division of the Army under Colonels Beresford and Murray proceeded from Judda to the northward of the Gulph on the 6th of May, and that Major General Baird with another division of the Army, accompanied by Sir Home Popham with the Naval Force and part of the Troops from the Cape of Good Hope, had proceeded from Judda in the same direction on the 25th of May. The Troops were in good health, and supplies of water and provisions had been furnished to the utmost extent of the resources of the Country by the several Arab Chiefs, with great readiness and cordiality; letters and presents from His Excellency the Governor General to the several Chiefs having been previously received by them with every demonstration of the most favourable disposition to assist the British Army. The remainder of the force, destined to accompany Sir Home Popham from the Cape of Good Hope, had arrived at Mocha, and had proceeded up the Gulph to join General Baird.

Rear Admiral Blankett with the force under his command, and a proportion of Troops, was at Suez on the 8th of May.

By this opportunity was received the following official Bulletin respecting the state of affairs in Egypt. This paper had been transmitted from Rear Admiral Blankett to Major General Baird.

BULLETIN.

The British Army effected their landing at Aboukir on the 8th March, after some opposition, in which the enemy lost between three and four hundred men, and eight pieces of cannon.

The Castle of Aboukir surrendered on the 10th, with one hundred and seventy-five men.

On the 13th, General Abercromby attacked the Enemy's lines, and forced them to retire to the fortified posts at Alexandria; the English Army taking possession of the strong ground from whence they had driven the Enemy, and were preparing a second attack; when on the 21st, General Menou, with almost the whole of the French Army in Egypt, attacked our Troops, and was most completely repulsed with the loss of upwards of three thousand men, and four pieces of cannon. General Menou had with him twelve thousand men, having concentrated all his force to that point, and had left at Cairo only six hundred Infantry, and two hundred Cavalry of the worst description, and not more in the whole of Upper Egypt. In this action, General Abercromby was wounded in the thigh, and unfortunately died on the 28th; the command of the Army devolving to Major General Hutchinson.

Part of the Army remain at the blockade of Alexandria, part have attacked and taken Rosetta, and have advanced as far as Rahmanic on that Branch of the Nile.

It is said that in the three actions the French have lost between four and five thousand men, which has so crippled their Army as to oblige them to call in all their out-posts.

The Turkish Army is partly with the Grand Vizier at Salheya, and part have advanced to Balbeys, on their way to Cairo.

Morad Bey died of the Plague in Upper Egypt, and it is said that Otmyr Bey and Mahomet Elfe Bey, who succeeded him, are going to make their Peace with the Grand Vizier.

The French Generals killed on the 21st are Rampon, Martinet, and La Tour Mauberg, with a number of Colonels, and Officers of rank.

By Command of the Admiral,

(Signed)

JOHN GRIMES, *Pro. Sec.*

The Arab Chiefs have been written to by the Admiral, and some have been on board the *Leopard*, who have promised supplies of Camels and Dromedaries for the use of the Troops when demanded; they appear friendly and well inclined to the cause.

A TRUE COPY,

By Command of His Excellency the Most Noble the Governor General in Council,

G. H. BARLOW,

Chief Secretary to the Government.

July 7th.—On Monday, arrived the *Betsey*, Rice ship, which sailed from England in January, and was one of those which were chased by the French fleet. So that we have the satisfaction to find that not one of the fleet fell into the enemy's hands. The *Betsey* touched at the Cape, and sailed from thence on the 5th of May.

On Monday also, arrived the Brig *Sophia*, and the ship *Eliza Anne*, both from Bombay. The former sailed the 6th, and the latter the 12th of June.

We have much pleasure in announcing the safe arrival at St. Helena, on the 24th February last, of the following ships from this port.

Highland Chief,	Captain Greenway,
Minerva,	—— Salkeld,
Friendship,	—— Reid.

The *Varuna*, which left this in company with the above ships, parted with them on the 28th January, to proceed to the Cape, and rejoined them at St. Helena, on the 10th March; whence they sailed on the 16th of that month, under convoy of His Majesty's ship *Buffaloe*, in prosecution of their voyage to England.

Passengers by the Bengal ships all well.

The Lady of Colm Robertson, Esq. was safely delivered of a Daughter, two days after her arrival at St. Helena.

Governor and Mrs. Brooke, with their family, and Miss Patton, proceeded to England on the *Highland Chief*, Go-

vernor B. had been for sometime before very unwell, and on his departure was succeeded in the Government of the Island, by Lieutenant Colonel Robson.

The Princess Mary and Bengal Anna, arrived at St. Helena on the 28th January, having touched at the Cape: and early in February, sailed for England, in company with the Queen, Captain Timins; St. Jozz, Cessels, Walmer Castle, Thames, and the rest of the China ships, under convoy of H. M. ship Arethusa, Capt. Woolley.

On Saturday accounts were received in town of the arrival of the Automasin, Rice ship, Captain Curtis, (formerly Santa Brigada, Spanish galleon.) She sailed from Plymouth in December last, but meeting with very bad weather, she lost all her masts, which obliged her to put into Falmouth, to refit; whence she sailed on the 22d February, again put back into Torbay, and finally departed thence on the 8th March; arrived at Madras on the 21st, sailed for this port on the 23d.—No Passengers.

On Sunday morning arrived the Admiral Rainier, Capt. Smith, from Soosoo: she brings no intelligence from the Eastward.

The Dart, in the course of her late voyage to the Eastward, captured a Dutch vessel, which was dispatched under charge of an Officer, and nine men, to proceed to Malacca; but no accounts have yet been received of the prize's arrival.

On Saturday, the 27th ultimo, was launched from the yard of Messrs. Archer and Smith, a beautiful Ship, of about 400 tons burthen. She was named the *Gillwell*, and is to be commanded by Captain Sheen.

July 17th.—On Tuesday last arrived the ship Active, Captain Stewart, from Prince of Wales's Island, whence she sailed on the 12th ultimo.

We have received the following intelligence, by this conveyance.

Extract of a letter from Penang, dated 9th June.

"Since my last, I have to inform you of the loss of the ship Madras, Captain Harper, from Rangoon, with a cargo of timber, having sprung a leak: after a fruitless attempt to save the ship, she upset on her beam ends, about 4 or 5 leagues to the N. W. of Pulo

Perach, on the 16th May. C. pr. Harper, with the officers, and about thirty of the crew, arrived here in the long boat, in a distressed situation, having been four days at sea.

"The sea ran so high, that the other boat was swamped along side the ship, and I was under the disagreeable necessity of leaving about thirty of the crew on board. Captain Harper, immediately on his arrival here, went out with the Venus, Captain Lander, in search of the wreck, in expectation of saving the persons left on board; but after cruising about for several days, returned here without seeing any trace of them: it is hoped that some Malay prow or other vessel, has picked them up; they had provision on board sufficient to last them a considerable time.

"The Dolphin brig, Captain Dallas, arrived from China, we learn that a Portuguese vessel had arrived at Macao, from Manila, who saw the Talbot, dismasted, within three miles of the Picos, but could give her no assistance, as she with difficulty weathered them herself, having likewise lost her masts: the Captain of the Portuguese says, there can be no hopes of her safety, as she must without doubt have gone to pieces instantly."

Annals Extract, June 12.

"The Intrepid and Comet, Company's cruisers, arrived here from Bombay.—we understand they are going in search of the crew of the Talbot, and to examine some shoals in the China seas.—No accounts of any privateers on this coast nor at Achien."

Arrivals at Prince of Wales's Island.

April 28, H M ship Centurion, from Amboyna and China, sailed the same day.—Passenger, Lady Leith—Generous Friends, D. Porter, Madras.—Passengers, Mr. and Mrs. Hall.

May 4, N. S. deo's Remeidos, De Souza, Point de Galle.—12, Venus, Lander, from Sooloo.—15, Tweed, Fenwick, from Jahnapatam.—Ceres, Alms, from Rangoon.—16, Aftie, J. Stewart, Madras.—23, Pomona, J. Hull, Tringano.—Recovery, Campbell, Rangoon.—26, H. C. ship Mornington, Frost, from Malacca, sailed on a cruise.

June 2, Margaret, A. Hunter, Calcutta.—6, Lucania, De Sylva, Goa.—Dolphin, W. Dallas, China.—8, Clyde, G. McCall, Calcutta.

July 21st.—Yesterday arrived the Shrewsbury, Capt. Campbell, from Masulipatam, which she left on the 15th instant. We have not learned that any news have been received by this conveyance.

On Wednesday noon, the Nutwell, Rice ship, Captain Christall, from London, which she left on the 9th February, came to her moorings in the river. She touched at the Cape of Good Hope, from whence she sailed on the 18th May, arrived at Madras on the 4th, and departed from thence on the

24th July. This ship brought official dispatches from the Cape for the government of Fort St. George and for this Presidency. Captain Carle, late commander of the *Befrington*, came passenger on the *Nutwell*, from Madras.

On Thursday morning, the American ship *Harmony*, Captain James Wickham, anchored off the town. She has on board a valuable cargo of wine. The Chokee boat, returning from this ship off Kedgerree, filled, and though it was not recovered until the next day, the books and letters were all found safe, and we are still farther happy to add, that no lives were lost by this accident. The *Harmony* left Madras on the 9th instant, and by this conveyance came passengers from that place, Captain Airth, of the country service; Mr. Hamilton, Cadet, and Mr. James Butler.

On Tuesday last, a little before four o'clock, was launched from the yard of Mr. Teague, a very handsome and well constructed vessel, of about 400 tons burthen:—she was named the *Queen Charlotte*, and is to be commanded by Captain Alexander.

The launch was pretty numerously attended, considering the weather;—and the ship was universally allowed, by connoisseurs, to be one of the best modelled vessels ever built in Calcutta.

This artist has now convinced the nautical gentlemen and the public, that the method of launching a vessel head foremost, is certainly founded on good principles, and is the safest, as the ship did not appear to immerge herself very little more than the draught of water she drew;—nor did she appear to drop, on quitting her slide.

On Friday last, an Admiralty Session was held by the Supreme Court, when Joaõ Elarió, a native of Manilla, was tried, as a principal in the second degree, for aiding and assisting in the murder of Captain Joseph George, on board the ship *Marianne*, in January last.

Elarió is the only survivor of the four Seaconnies who perpetrated the dreadful deed.—The Jury, after having heard the witnesses and receiving a charge from his Lordship the Chief Justice, retired, and in a few minutes returned their Verdict, *Guilty*.

Mr. Lewin, as Counsel for the prisoner, made a motion in arrest of Judgment, grounded on a supposed inaccuracy in the indictment. He was answered by Mr. Burroughs and Mr. Strettel. The Court, however, over-ruled the motion, and His Lordship the Chief Justice proceeded in a most solemn and impressive manner to pronounce sentence of death on the criminal.

The prisoner was executed yesterday at the Old Fort ghaut, agreeably to his sentence; and the body afterwards conveyed down the river, to be hung in chains at a place called Buddetallah, on the banks of the Hoogly.

July 28th—On Saturday arrived off Calcutta, the American ship *Voltaire*, Captain Bowen. She sailed from Hamburg on the 16th of March, and from Cuxhaven on the 25th, but during that interval, the badness of the weather prevented any communication with Hamburg.

On the 22d instant, arrived the Ship *Admiral Rainier*, Robert Elliot, Commander, from Bombay. She touched at Madras, and left that port on the 19th. The following passengers are arrived by this conveyance:—

J. H. Lovett, and John Romer, Esqrs. of the Bombay Civil Service.

Mr. Marmaduke Stalkart,—Mrs. Stalkart,—Miss Stalkart,—Masters Marmaduke, William, Thomas, John, and George Stalkart,—Francisco de Souza,—A Soldier of the 78th Regt. and one of the Bengal Artillery, and two Turks.

On Tuesday morning advices reached town of the arrival of the ship *Sylph*, Captain R. H. Lytton, from Amboyna, left from Penang, whence she sailed the 3d cur-

rent. This ship came into the roads in great distress, having seven feet water in her hold, with the loss of one of her top-masts:—she was with great difficulty got to Kedge-ree, and there run on shore, as the only probable means of saving her.—Mr. Thomas Brownrigg came passenger by the Sylph.

By letters from Penang, we understand that the Danish ship *Fredensburg*, Captain Herbst, for Manilla, was detained at Malacca: her cargo is reported to be worth about four lacs of Rupees.

By this conveyance we have been favoured with the following list of arrivals at that place:

June 15, Nancy, Captain Macarthy, from Bengal—20, Adive, W. Hodges, from Madras; passenger, Captain Court.—26, Sylph, Lytton, from Amboyna, passenger, Lieutenant Skelton, of the navy.—28, Diana; Faustina, from Calcutta;—Tweed, Fenwick, from Achcen.

We are sorry to find that the Dutch Snow, captured by the Ship Dart, Captain Rowe, was unfortunately lost on the Island of Billiton. Mr. Creighton, the prize-master, and 11 of the people, had arrived in a prow at Malacca,—the rest were daily expected.

The following is a list of the Passengers who have lately proceeded to Europe, from Madras.

Mrs. Williams and family, Miss Emma Harris, Alexander Macleod, Esq. Lieut. Mathews, of his Majesty's 33d Regiment, and Mr. Reynold.

Yesterday were launched about 2 o'Clock one vessel from the Marine Yard of Messrs. Hudson, Bacon, and Co. named the *Lord Tiegmouth*; and one from that of Messrs. Gilmore and Wilson, called the *Shah Aalum*;—and about 3 o'Clock one from the Yard of Messrs. Gillet and Blackmore, on the other side of the River, named the *Medway*.

July 29th.—On the 25th instant, accounts were received in town, of the arrival in the river of the ship *Lalla*, Captain Young, from Bombay and Madras.

We are concerned to state that proceeding up the river on Monday morning, she had anchored a little below Budge a Budge, and about 6 o'Clock, was observed to be on fire; smoke proceeding from the fore-hatchway; on opening it, the flames immediately burst forth, as they did also, from the after-hatchway; the Pilot on this immediately ordered the Cable to be cut, and ran the ship on shore. Shortly after an explosion took place, and she went to pieces.

We are happy to state that no lives were lost, on this melancholy occasion, thro' the activity and presence of mind of the Pilot in charge, in having so quickly ordered the ship to be ran on shore, by which means the whole of the crew had an opportunity of quitting her.

Twelve remarkable fine Arab Horses on board, were burnt with her.

It is with great pleasure that we can announce by accounts said to be received from the Cape of Good Hope, that the Port of the Isle of France is most completely blocked up, by part of our Squadron under the command of the Hon. Captain Blphinstone, who has got possession of an Island near the entrance of the Harbour, which he has fortified, and by which Vesse's are prevented going in, or out.

This intelligence must be particularly gratifying to the Mercantile part of India; as we now hope those Pests to our Country Trade, the Mauritius Privateers, will be prevented from annoying us during the approaching, or any future Season.

Extract of a Letter, from Captain Reid, of the Ship Friendship.

"On the 6th January, in Lat. 8° 50 Long. South and 90° 30 East, about twelve o'Clock at night being calm, we were suddenly surpris'd with a horrid rumbling noise which shook the ship all over. We were convinced that it was the shock of an Earthquake, as Captain Farrer of the Varuna, who spoke us five days after, felt the shock at the same time about 3 miles distance from us."

Trincomallie, 23d June.

"A Danish Ship was brought in here a few days since by His Majesty's Ship Dædalus, Captain Wæner:—the is from Europe, has a valuable Cargo on board, and 10,000 Dollars in Specie."

Extract of a letter from Ganjam, dated 14th July, 1801.

"Two days ago a very large Ship was seen from hence driving up the Bay, with great violence.—She was totally dismasted, and very full of hands. Great confusion appeared to prevail on board.

"It blows furiously here just now indeed. The surf is I think this day higher than I have at any time seen it."

Extract of a letter from Camp, near Ganjam, dated the 17th July, 1801.

"We returned to Ganjam on the 14th inst. after a campaign of upwards of two months, during which, we have had

three engagements, that is to say, we have taken and destroyed three of the enemy's strong holds, and thereby in a great measure subdued the rebels, who are a very dangerous, although cowardly enemy; they have annoyed us much through thickets of jungles, and from behind rocks upon the hills, in this manner they lie prepared for our approach, let fly volleys from jinjall and matchlock-pieces, then flee to secure themselves till they again prepare, and find an advantageous opportunity to act as before; this is the manner that the *Oorials* adopt to fight us. We have been successful in all our undertakings against them, and have brought the surrounding country, for the most part, under subjection. It is well for the inhabitants of Ganjam that we reached there at the time we did, or they must have inevitably suffered both in their persons and property.

"The Goomsur country is one entire scene of delight from its romantic appearance, as well as from its fertile soil. It is interspersed with hills, which are for the most part barren, but the vallies completely cultivated.

"We have been some hundreds of miles in that country, and have marched all throughout on as level ground as on the plains of Hindoostan. The bamboos in this country grow to an immense size, those in Bengal appear like underwood in comparison to them."

Accounts received at Dehly, by the way of Amrutsir, state, that a general engagement had taken place, between Zemân Shah and the son of his brother Mahmood Shah. The day, or place of this action are not mentioned, but it appears to have been somewhere beyond Cabul. In the heat of the battle, some of Zemân Shah's Generals plundered his camp, and joined the enemy: a total route was the immediate consequence of this desertion. Zemân Shah fled to Cabul, and being closely pursued by the victor, continued his flight, accompanied only by twenty-five horsemen, to Jelalabad. The victorious Prince entered Cabul, and was received with the acclamations of the inhabitants, of all ranks; who complained grievously of the oppression they had suffered under the reign of Zemân Shah. Having assured them of redress and protection, and bestowed the Khelat of the Vizarat on

the son of Muhummud Khan; he despatched Khanaazad Khan and Jehangeer Shah, with four duffahs of horse, in pursuit of the fugitives. They came up with Zemân Shah on the 25th of Mohurram (6th June) and took him prisoner, with his Vizeer, Wufadar Khan, their families and baggage. The Victor has placed his own troops in all the garrisons of Cabul and Peshawar, and Vakeels from the chiefs of Cashmere and Rotalgarh have waited on him with offers of submission.

A foreigner of distinction, well known in India, Mr. COSSIGNI, has communicated to the Asiatick Society a vermifuge remedy, which he says has been used with the greatest success, for several years in the Islands of *France* and *Bourbon*; where worms had formerly destroyed great multitudes of children, both white and black. We take this method of disseminating the information, that medical practitioners may have it in their power to bring its virtues to the test of experience.

This is the milky juice obtained by incision from the unripe fruit of the *Papaya* (*Carica Papaya*). By way of tempering the corrosive quality which it is supposed to possess, the juice is diluted with three times its quantity of boiling water, or milk. The dose is one tea-spoonful of the juice, to a child of eight months; to those of five, six or seven years, one table spoonful; and to those of twelve years, and upwards, two table-spoonfuls. The doses are diluted, as above described, and given in the morning fasting.

Yet others assert, that the remedy may be given unmixed, in all cases and at all ages; without inconveniency. The only evil to be apprehended from an over-dose is a slight inflammation *circa anum*, which is dispersed in a day or two by lenient fomentations.

Three hours after this remedy, they give a dose of *Oleum Ricini*, proportioned to the age, the sex, and the strength of the patient; to expel the dead worms. Some delay the purge till next morning; only giving a *lavement* of water, on the evening of the day on which the specific was administered. One dose of the medicine is stated as sufficient for the expulsion of all the worms, however numerous, and of whatever kind; not excepting the *Tænia-Cucurbitina*.

The worms are discharged in fragments, which has led to an opinion that the medicine acts on them by a corrosive quality: but live worms immersed in this juice, remain entire.

Mr. *Cossigni* relates a few experiments, which he made, with different solvents, on this juice, when coagulated; but as he considers them yet imperfect, it would be needless, and perhaps improper, to detail them at present.

Thus far Mr. *Cossigni*: from the account which former writers have delivered of this juice, practitioners will not be inclined to doubt its activity; but will find it necessary to conduct their trials with considerable caution. *Miller* says, "the whole plant abounds with a milky acrid juice, which is esteemed good for the ring-worms;" and *Long* asserts, that the fruit, when eaten raw, contains an acrid juice, very injurious to the intestines.

The Governor General has appointed Ensign George Brif-tow, to be one of His Lordship's Aides-de-Camp, in the room of Captain M. Shawe, resigned.

At one o'clock a Salute will be fired of as many Guns as His Majesty is years of Age.

The Troops to be Victualled on this occasion.

Pursuant to the above proclamation and order, the Gentlemen of the Civil and Military Service met the Right Honourable the Governor on Thursday morning at Gun-fire, at the Ramparts on the Sea Line; when the Union Flag was hoisted, under a fire of Musquetry and a Royal Salute from the Battery.

The same day being His Majesty's Anniversary, it was observed with the usual Rejoicings—At one o'clock His Majesty's and the Honourable Company's Ships in the Road fired a Royal Salute—And Sixty three Guns, a number correspondent with His Majesty's Years, were fired from the Walls of the Garrison.

In the Evening the Right Honourable the Governor, gave a splendid Ball and Supper to the Ladies and Gentlemen of the Settlement, which was very numerously attended.

June 24th.—The French ship *DEUX AMIS*, formerly the *Rebecca*, and Prize to the ship *MATILDA*, Capt. Sheen, arrived yesterday in the Roads.

The Officers and Crew of an American ship, wrecked on the Coast of Africa, near Zangubar, have arrived in India on the *Matilda*.

July 1st.—In our last we announced the arrival of the ship *Matilda*, with her prize, the French ship *Les Deux Amis*.—We have since learned that she was taken at anchor by the boats from the *Matilda*, after a desperate resistance.—And we are happy to state that Capt. Sheen, who led the boarders, and was severely wounded, is nearly recovered.

This ship was formerly the *Rebecca*, captured by the *Gen-*

SIR,

We have the pleasure to inform you that at a General Meeting of the *New Madras Insurance Company*, held this day, they took into consideration the re-capture of the *Rebecca*, now *Les Deux Amis*, by the ship under your command.

And notwithstanding the Recaptors in this case would be strictly entitled to the stated Salvage, merely, as regulated by Act of Parliament, yet we are desirous to state to you, that the Company, impressed with a sense of the manly, spirited, and able conduct displayed by You and the Ship's Company, have resolved to abandon the Ship altogether.

We request you will be careful to explain to the Officers and Crew under your Command, the sentiments of this Company, and to assure them of their belief that on all occasions where they manifest such exertion against the Enemy, their conduct will meet with deserved encouragement.

We are, SIR,

Your most Obedient Servant,

*June 6th.*—Thursday last being the anniversary of His Majesty's birth day, and appointed by the Hon'ble the Governor in Council, to signalize the display of the Imperial Union Flag at the Presidency, the troops were paraded at an early hour pursuant to the Presidency Order by the Honourable the Governor, dated the 28<sup>th</sup> ultimo. In addition to His Majesty's 74<sup>th</sup> Regiment, His Majesty's 86<sup>th</sup> Regiment, detachment of His Majesty's 88<sup>th</sup> Regiment, 2d Battalion 7<sup>th</sup> Native Regiment, and the native Portuguese Militia, which formed in the order previously prescribed, the Bombay Fencible Corps under the command of Colonel Carnac marched into the Garrison and formed between 2d Battalion of the 7<sup>th</sup> Native Regiment, and the Portuguese Militia.

About six o'clock the Hon'ble the Governor, accompanied by Sir William Syer, Major General Nicholson, the Secretary, the General's Staff, all the Officers off duty, and the Gentlemen in the Civil Service, came on the parade; when His Majesty's order in Council of the 5<sup>th</sup> November last, settling the Royal Style and Titles and the Ensigns Armorial, &c. was read by the Secretary on horseback, and uncovered. The former Union Flag, which had been hoisted on the flag-staff in the Castle at Sun-rise, was then hauled down, and the new emblem of the puissance of the British Empire substituted in its place, under a Royal Salute from Hornby's battery, during which the troops remained with presented arms—the drums beating and the music playing *God Save the King*. The troops shouldered on the salute being finished, and fired three volleys; the drums beating the Grenadier's march in the intervals, and the solemnity thus terminated. The word of command was given on the above occasion by Colonel Bellasis.

The 74<sup>th</sup> Regiment, in returning to their Barracks, marched past the Governor in close order and slow time. The "war worn" Standards and steady appearance of this corps called up a lively recollection of the distinguished part which they have acted on the theatre of Asia; and the gallantry and discipline with which they have, during a series of nearly fourteen years, contributed to uphold the honour of the British arms, to extend the influence of the British name

and power, and to secure to the British interests in this country, a stability not to be shaken by the machinations of envy and malignity which rankle in the breasts of our inveterate enemies, nor endangered by the utmost effort of their strength.

After the ceremony, all the Officers, and a large party of Ladies and Gentlemen, breakfasted at the Government House. At noon the Garrison fired the usual Salute, and the Shipping at one o'clock.

In the evening His Majesty's and the Honorable Company's Officers, and the Gentlemen of the Settlement, were entertained with a sumptuous dinner by the Honorable the Governor, and the following Toasts were drank, the band playing the respective tunes assigned to them.

The day closed with a Ball and Supper, where the cares of the Statesman, and the toils of the Soldier, were disregarded and forgotten, in the contemplation of beauty arrayed, by nature and art, in charms which formed a most happy counterpart to the sublime ideas previously excited by the fancy, in musing upon an *Æra* distinguished equally by its novelty and grandeur.

His Majesty, on Thursday last, entered his 64<sup>th</sup> year; and no true Briton can suppress his admiration at those princely qualities which more and more endear our Gracious Sovereign to his subjects, the longer his inestimable life is protracted—nor conceal his wish, that **GEORGE THE THIRD** may long continue to wield the sceptre of the Kingdom so happily united under his auspices, and stem the torrent of that destructive sophistical ratiocination, both in religion and politics, which has lately deluged great part of Europe, and still threatens the faith of which he is the **DEFENDER**, and the church of which he is, on earth, **THE SUPREME HEAD!**

The following Description of a Shoal, discovered by Captain Josias Rowley, Commanding His Majesty's Ship *Imperieuse*, is published for general information.

Imperieuse's Shoal, discovered 30th Dec. 1800.

At day break saw a Shoal extending about three miles from the S. W. to N. E. on the S. W. end Shoal Water, with high Breakers; the N. E. part a low Sand, in some places covered with Water, and several small Rocks appearing above Water. As far to the Northward as could be seen with a Glass from the Main-top, the Water appeared discoloured, and in many parts high Breakers, no ground, with ninety Fathoms line—the Latitude of the Shoal, as determined by Observation at Noon, 17 35 S. Long. by D. R. 118° 27 E. by Lunar Observation. On the 6th and 7th January found the Ship about ten miles to the Westward of the reckoning.

AUGUST 11, 1801.

1.—His Majesty's Ship Romney, Commander Sir R. Popham, is arrived in the River, left Aden the 21st, and Cossair the 2d of July.

2.—Dispatches received by this Ship inform that Lieutenant Colonel Murray, who had arrived at Cossair on the 13th of May, with a Detachment of the forces from Bombay, was at Ghinré on the Nile, (on —,) and had been well received by the inhabitants, from whom he had been successful in procuring considerable supplies for the Army, of Carriage, Cattle and Provisions.

3.—The Army under Major General Baird reached Cossair on the 8th of June. Previous to the departure of the Romney from Cossair, accounts had been received, that an advanced party of Major General Baird's Army, under the command of Colonel Beresford, had reached Legetta, a place within 36 miles of Ghinné.

4.—Major General Baird, with the main body of his Army, marched from Cossair on the 30th of June.

5.—The army had surmounted a variety of difficulties, with the utmost degree of perseverance and spirit, and every prospect appeared of Major General Baird being enabled to effect a junction with the British and Turkish forces, under the command of Major General Hutchinson, and of the Grand Vizier.

6.—The latest dispatches from Major General Hutchinson, are under date the 3d of June. From those dispatches, it appears, that Major General Hutchinson expected to reach the head of the Delta, on the 7th of the same month, and proposed immediately to commence his operations against Cairo.

7.—It further appears, that the Army under the command of Major General Hutchinson, in the course of its operations, subsequent to the death of Sir Ralph Abercrombie, had taken prisoners to the number of 1600 of the choicest troops of the French.

8.—Major General Coote was left with 5000 men in an entrenched Camp before Alexandria, which had not fallen when the latest accounts left that place.

9.—The British and Turkish forces were in possession of the whole of Egypt, with the exception of Alexandria and Cairo, which were garrisoned by French troops.—Several of the Beys with their respective forces had joined the British army.

10.—The Plague had entirely ceased.

11.—Rear Admiral Blanket died at sea on his passage from Coosair to Judda.

It appears from the Returns, that no casualty has taken place among the Officers in General Baird's army.

August 11th.—We are much concerned to state that yesterday morning the Duke of Clarence, Capt. Townsend, bound to Ceylon, in dropping down with the ebb, struck on the edge of the Sumatra Sand off the Esplanade. She filled with water so fast that the people had just time to get out, when she went down in deep water, and was totally lost.

From the extreme rapidity of the ebb, the Louisa, Captain Weatherall, parted her cables, and ran with her broad-side against the bow of the Dart, which ship she carried along with her. The Louisa being deeply laden, we understand has received much injury; making a considerable quantity of water, and having her decks raised in some parts.—Had the Dart's cable not parted, it is supposed the Louisa must have gone down along side, and had she not run foul of the Dart, she must have run upon the sand.—The Dart has received no other damage than the loss of her jib-boom.

She had only a coir cable of fourteen inch on the ground, manufactured at the Rope Walk of Messrs. Clark and Co. at Gussereh. After parting from this cable, the Dart brought up abreast of the sluice of Fort William, in the most rapid part of the tides way, and rode two days with a nine-inch stream cable, made at the same Rope Walk, of Ceylon coir, which had been an Eastern voyage, and had been used, as cables of that kind are generally known to be in that navigation more than those of any other dimension.

The violent storm on Thursday night and Friday, did considerable damage to many country Boats, and some old Houses; but we do not learn that the shipping in any part of the river suffered by it.

August 12th.—Yesterday morning accounts reached town of the safe arrival in the river of the *Active*, Captain W. B. Greenway, from Prince of Wales's Island, whence she sailed on the 21st ultimo.

By this conveyance Captain Otto, late Commander of the *Polly* (sold at Prince of Wales's Island,) and Mr. [unclear], second Officer of the *Dart*, and late in charge of her [unclear], have arrived passengers. Capt. Otto, left Amboyna on the 20th May, but at that period no accounts had been received of the expedition we some time since noticed, as having sailed from that Island under the direction of Capt. Hayes, of the *Bombay Marine*.

The *Success Galley*, Capt. Binny, was at Amboyna, when Capt. Otto sailed.

We are concerned to state that the vessel captured by the *Dart*, was lost on Billiton.

The new ship *Mary*, Captain Brownlie, from hence, had arrived at Prince of Wales's Island before the sailing of the *Active*, also the *Lydia Elizabeth*, Captain Butler, with the loss of her fore-mast, and bowsprit, having experienced a heavy gale of wind off False Point; notwithstanding this disaster, she made Pulo Bouton the ninth day from the Pilot, nothing it is said can equal her sailing. These losses Capt. Butler had quickly replaced at Prince of Wales's Island, and before the sailing of the *Active* had proceeded for Malacca.

These Straits were infested with a number of piratical prowls—they had attacked the brig *Sumatra*, but were beaten off with considerable loss.

By letters received yesterday per the *Active*, from Malacca, dated the 6th July, we have a confirmation of the Danish ship *Fredensburgh*, Capt. Herbst, bound from this Port to Manilla, having been taken possession of and detained there by Capt. Daniel Ross, of the cutter *Caroline*, in conformity to the instructions of that Government.

The *Experiment*, Captain John Palmer, one of the ships lately employed on the expedition, arrived off Calcutta on Saturday evening last, having sailed from Bombay on the 13th ultimo, in company with the *London*, Captain Clark, (since wrecked on the S. W. Prong coming out of Bombay

Harbour,) and three other ships the Hercules, Jchangeer, and Betsy Snow, whose destination it was rumoured was the Red Sea.

On the Experiment, the following Gentlemen took their passage to this port, Mr. Agar, of the Bombay Civil Service, and Capt. Napier, a Commander in the Country Trade.

The Mary, Captain Honeyman, arrived on the same day from Rangoon, having left that port on the 10th July.

The Adamant, a fine new ship of near one thousand tons burthen, was launched at Rangoon on the 28th May.—She was built under the immediate superintendence of Captain E. Kemp, of this port, and is deemed by very competent and able judges to be in every respect a most complete well finished merchantman.

On the following day, another large ship was launched belonging to an Arab of the name of Mahomet Abraham; and the Caroline, commanded by Capt. Lambert, on the 14th June,—a small vessel belonging to Mr. White, was nearly finished and expected to be launched on the following springs.

A ship, commanded by Captain Shepherdson, in attempting the first time to make good her passage to Prince of Wales's Island, met with exceeding bad weather, and was under the necessity of returning to port,—he however sailed on the 9th July.

The Sir George Young, Captain Campbell, was expected to sail shortly for this port.—Timber, of every description, was very scarce at Rangoon, though a large supply was hourly looked for; yet notwithstanding this scarcity, four new keels had been laid down, some of them for ships of large dimensions.

The Louisa Maria, Captain Roberts, from this port, arrived at Rangoon, early in the month of July.—Captain Roberts experienced extreme bad weather on his passage, and was obliged to cut away his main-mast in a heavy gale of wind,—in fact the weather proved so boisterous even at the commencement of his voyage, that he was unable to put his Pilot out. Mr. Heather, a master in the service, has returned on the Mary, as also Captain Robertson, late Commander of the ship Peggy, and Mr. Storks, of the firm of Storks and Wiltshire, of this place.

308. THE CALCUTTA MONTHLY JOURNAL,

The Union Colours were on Sunday the 5th July, first displayed in Rangoon river, on board the *Adamant* and *Caroline*.

August 14th — On Tuesday the *Nancy Grab*, her Pilot, bound for Rangoon, put back with the loss of her masts. — We are sorry to learn the death of Capt. Duggan, late commander, on the 8th current.

The *Burnaby*, Capt. Aikin, bound to England with a cargo of grain, having met with extreme bad weather, has been obliged to return to port. — She parted with the *Arran*, Capt. Lindsay, bound also for England, who had not suffered in the gale.

From every account we have received, the weather appears to have been equally boisterous and bad in every quarter of India.

The Hon. Company's ship the *Rockingham*, during her trip struck upon a shoal, and was so very leaky, that the Hon. Company's Frigate *Bombay* left her at Judda to be hove down.

The Hon. Company's transport the *Concurrence*, that sailed hence in April last, effected her passage up the Red Sea, and landed her valuable and important cargo in high order and condition.

Extract of a letter from Pulo Penang, dated 21st July, 1801.

“ By the last accounts from Malacca, we are informed the brig Sumatra, belonging to the Master Attendant there, on her return from Rhio, fell in with a fleet of pirate prowes to the number of forty, belonging to Raja Mooda, formerly of Rhio, which engaged him for a day and a night, and was on the point of boarding her, when a breeze sprung up which enabled the Sumatra to get off; she arrived at Malacca very much damaged in sails and rigging, and several shot between wind and water — Colonel Taylor has ordered the Intrepid and Comet cruisers to look after them on their way through the Straits.

"We are likewise informed by the arrival of the Charming Polly, from Amboyna, that another expedition was going against Ternate, under the command of Col. Burr, consisting of the following vessels, viz.

Swift,	—	—	—	Captain Hayes,
Polly,	—	—	—	Captain Scott,
Augulore,	—	—	—	Captain Luvich,
Spinier,	—	—	—	Captain Lawrence,
Resource,	—	—	—	Captain Hague,
Albion,	—	—	—	Captain Wallace.

"The wreck of the Madras, Capt. Harper, has been found near the Bunting Islands, by Capt. Lander, of the Venus:—she will be very valuable, as she has in above eight hundred shins, besides a great number of duggies and sheathing boards.

"P. S.—Capt. Butler experienced very bad weather, after leaving the pilot as far as the Andamans, having lost his bowsprit and fore-mast, which were replaced here, and will fail this day to the eastward."

Arrivals at Penang.

July 5, 1801, Lydia Elizabeth, Capt. Butler, Calcutta; Passenger, Capt. Lorane.—6th, Active, Greenway, Madras; Passengers, Mrs. and Miss Polhill, and Miss Jollif.—6th, Harriet, Stewart, Pedier.—8th, Venus, Lander, Acheen.—12th, Charming Polly, Otto, Amboyna.—15th, Cutter Dragon, Sultis, Malacca.—15th, Alexander, Phillips, Rangoon.—17th, Mary, Brownlie, Calcutta; Passengers, Capt. Brown, Mr. Howell, and Mr. Stone.

There is now nearly finished in the yard of Messrs. James Scott and Co. Penang, a new vessel, on the plan of the King's cutter brigs in Europe, pierced for 16 guns; she is supposed to be the completest vessel of her kind ever seen in India, and is constructed entirely of wood, the produce of that Island, and does great credit to the builder. We are informed it is his first trial, and has every reason to expect from this specimen, that his abilities in the ship building line will be of the utmost utility to that settlement.

FORT WILLIAM, AUGUST 15, 1801.

His Excellency the Most Noble the Governor General having appointed Saturday the 15th instant for his embarkation from Fort William, for the purpose of visiting the Upper Provinces, His Excellency attended by the Officers of his Suite,

and by a Detachment of the Body Guard, proceeded from the Government House to Chandpaul Ghaut, through the street formed by the troops in garrison, the several corps attending His Excellency, with the usual honours.

His Excellency was accompanied to the place of embarkation by the Honorable Sir John Anstruther, the Chief Justice of the Supreme Court of Judicature at Fort William; Mr. Graham, Member of the Supreme Council; Major General Popham, the Commanding Officer of the Garrison; and by many of the principal Officers and Gentlemen of the Settlement. His Excellency embarked on the *Soonamooky* Yatch, between five and six o'clock in the morning, under a salute of nineteen guns, from the ramparts of Fort William, and proceeded up the river; the Ships in the Port saluting as he passed.

The Honorable Company's Cruizer *Mornington*, Captain Frost, and *Swallow Packet*, Captain Luard, lying at Sulkea, were manned and dressed, and evinced much taste and judgment on the occasion. They saluted His Excellency with nineteen guns each, and a similar number of guns were fired from the Dock Yard of Messrs. Hudson, Bacon and Co.

The *Mornington*, independent of the different colours she displayed, from the neatness of her crew, to the number of 150 Europeans, being all dressed in white, had a most pleasing effect.

August 18th.—On Tuesday last, the 11th instant, anchored at Diamond Harbour, H. M. ship *Romney*, of 50 guns, commanded by Sir Home Popham, Knight of Malta, after an extraordinary quick passage of eighteen days, from the entrance of the Red Sea.

Sir Home, on Thursday evening last, landed at Chandpaul Ghaut, under a salute of thirteen guns, from Fort William.

On the *Romney*, came passenger, Captain Hardyman, late of H. M. ship *La Forte*, which was unfortunately wrecked near Judda,

Our readers need not be reminded that this officer, following the great example of his gallant commander, Cook, in H. M. ship La Sybille, completed the defeat and capture of La Forte, under circumstances highly honorable to himself and the gallant officers and crew of La Sybille.

Captain Lee, late of the Louisa Maria, and Mr. Mason, of the Gabriël, are also arrived passengers on the Romney, from the Red Sea.

On Friday last, the American ships Mornington, Captain White, and Peggy, Captain Philips, arrived in the river from the Mauritius, whence they sailed the 12th ult.

The people at the Islands, we understand, were in perfect tranquillity, at the departure of these two Vessels, having been relieved from a state of the utmost consternation, from a fear that the formidable armament that sailed for the Red Sea, was destined for that place.

They left four Danish ships bound for Europe, and six belonging to the different Ports in India, at the Mauritius. —Among the vessels for Europe was Captain Keog's, from Bengal.

By the arrival of these vessels, we learn, that trade was extremely dull there; and that the greatest part of the owners of privateers, were ruined by their ill success. —Several Americans had arrived there, and the supply of flour was so abundant, that it was selling at 7 and 8 dollars, per barrel—the prime cost of which, was 14 and 15.

On Saturday, accounts were received in town of the arrival of the Hon. Company's Packet Mornington, Captain Sampson, from the Red Sea, whence she sailed two days previous to the Romney, and consequently can bring no news from that quarter.

On Saturday also arrived in the river the ship Margaret, Captain Hunter, from the West Coast of Sumatra, —but brings no news.

The Members of the Bengal Phoenix Insurance Society, on the 20th ult. presented an elegant Sword, valued at 1600 Sicca Rupees, to Captain Meik, as a tribute of their applause.

On the hilt of the weapon, which they have so judiciously committed to his charge, they have caused the following inscription to be engraven.

“ Presented by the Bengal Insurance Society, to Captain Thomas Meik, as an honorary testimony of his gallant conduct, in defending (until farther resistance became vain) the ship, the *Armenia*, against a French privateer, the *Clarisse*, of very superior force.”

To two of the Lascars, wounded in the engagement with the *Clarisse*, the Society have given pensions for life. The Sword was made by Mr. A. Rogers, and is finished in a style of workmanship, which does honor to that ingenious artist.

August 19th.—On Monday evening, accounts were received from the Honorable Company's ship the *Earl Howe*, Captain Robert Burrowes, stating her safe arrival at Kedgerce;—she sailed from Portsmouth on the 23d of April. The following is a list of Passengers:

Mrs. Thornhill,—Misses Sands, Paul, Roberts, White, Armstrong, and S. White,—Messrs. John Vaughan, and Samuel Salter, Writers,—Messrs. Thomas Gough, Edmund Cheefe, John Winstone, E. Vevers, E. Dunsterville, B. Burgefs, Thomas Taylor, Charles Walker, W. W. Walker, R. H. Sneyd, Wm. Davis, J. B. Ridge, Geo. Woolley, Thomas Paul, John Keyley, John Leys, Geo. Barker, Thomas Alexander, *died*; Robert Nicholson, John Osborne, W. Reynolds, and S. Boustead, Cadets,—Messrs. George Thomas, and John Campbell, Assistant Surgeons,—Lieutenant Young, of the 78th Regiment,—15 Soldiers of the 27th Light Dragoons, and 42 ditto of the 10th Regiment. Three native Women Servants.

Twenty-seven Lascars returned to India.

The *Earl Howe*, sailed in company with the *Preston*, Captain Murray; *Lord Thurlow*, Captain Dale; *Henry Dundas*, Captain Carruthers; and *Princess Charlotte*, Captain Richardson; under convoy of His Majesty's ship the *Arethusa*—she parted with the two former ships off the Island of Madeira, and with the two latter at the bottom of the Bay, being bound to Madras.

August 19th.—On Saturday last was launched at Titigur, strong and well constructed Merchantman, of 700 Tons burthen, named the *Daniel*, built by Messrs. Hamilton and Abernethy, and deemed by very able judges, to be in every respect well calculated for her intended employ.

Accounts from the South of Hindustan mention, that a desperate engagement had taken place on the banks of the Nerbudda, between the Troops of the Mahratta Chiefs Holkar and Scindeah, in which the latter had been totally defeated and had three European Officers killed in the action. Major Gardener, a brave and enterprising man, who commanded the Troops of Holkar, is stated to have distinguished himself very eminently, and to have contributed greatly to the success of the day by his own personal valour.

August 21st.—A royal salute from the ramparts of Fort William, and three volleys of small arms by the troops in garrison, was fired yesterday morning, by order of his Excellency the Most Noble the Governor General, in celebration of the glorious successes obtained by His Majesty's fleet, under the command of Admiral Sir Hyde Parker, and Vice Admiral Lord Nelson, against the Danish Fleet off Copenhagen on the 2d April.

August 21st.—On Wednesday a chokey boat brought up accounts of the arrival of the *Eliza*, (a rice ship) Captain Francis Holman, last from the Cape of Good Hope, whence she sailed on the 1st July.—Major General Frazer, Major A. Campbell, and Cornet Frazer, came passengers by this opportunity.

By the *Eliza* we learn that the *Rattle Snake*, sloop of war, and the former in company, captured a large Swedish Indiaman, from China, and carried her into the Cape;—her cargo is said to be estimated at 1,20,000*£*. *sterl.*

The *Britannia*, country ship, from Bombay, had also taken and carried into the Cape a Danish Indiaman, from Bengal, probably the *Bekkeskow*, Capt. P. Krag, which sailed from hence in the beginning of March last.

While the *Eliza* was lying at Rio Janeiro, a Spanish brig was brought in, which had been captured by an English pri-

vateer, but the Portuguese not permitting either the vessel or the cargo to be sold there, she was taken charge of by the Eliza, the commander of which ship took part of her cargo out of the prize, to lighten her, and put some of his people on board to conduct her to the Cape; but she had not arrived at that port, when the Eliza took her departure from thence.

AUGUST 1, 1801.

Lord Clive desires the attendance of the Gentlemen of the Civil, Naval and Military Services at Chepauk, on Friday next, the 31st instant, at noon, for the purpose of being present at the Installation of the Nabob *Azem ul Dowlah*, on the Musnud of Carnatic.

In pursuance of the above order, the whole of the Civil, Naval, Military, and the Gentlemen of the Presidency, assembled at Chepauk House yesterday at Noon. A little after One o'clock, his Highness, accompanied by the Right Honorable the Governor, their Excellencies Vice Admiral Rainier and General Stuart, with the Members of Council, arrived at the Palace: where they were received by Sir Thomas Strange, Mr. Gwillim and Mr. Sullivan.

The Troops, Cavalry and Infantry, formed a Street from the entrance of the Gardens, to the Veranda of the Palace, through which the Procession passed.

His Highness, after the customary forms, was Installed on

205 THE CALCUTTA MONTHLY JOURNAL,

the Musnud, by the Right Honorable the Governor, assisted by the Admiral and the Commander in Chief, when a Royal Salute was fired from the Battery of the Palace, from the Fort, and the Shipping in the Roads—and a feu de joy by the Troops under Arms.

His Highness afterwards received the compliments of the Gentlemen present, and the Nuzurs of his Cawns.

On Tuesday last, His Excellency Lieutenant General Stuart, was sworn a Member of the Council Board at Madras, and a salute of seventeen guns was fired on the occasion.

LOSS OF THE MALABAR.

August 5th.—On Monday afternoon about 5 o'clock the Ship Malabar, Captain Kent, then at anchor in the Roads, unfortunately took fire abaft, we understand, from a cask of Spirits having slipped out of the slings, and taking fire from the light below :—in a few minutes this all-powerful element had involved the Ship in inevitable destruction ; and notwithstanding every assistance afforded by the Beach Department, and from the Shipping in the Roads, at six o'clock her Powder Magazine forward took fire, and she blew up, but not with so violent an explosion as might have been expected :—immediately afterwards she went down in about six fathom water, the head of her mizen-top-mast alone remaining perceptible.

We are happy to add that no lives were lost on this most melancholy occasion, the people who threw themselves overboard, being all picked up by the surrounding boats.

The Malabar had twelve thousand bags of Rice, and many articles of still greater value on board, and was to have proceeded on her return to England in the course of a few days.

TO THE EDITOR OF THE MADRAS GAZETTE.

SIR,

A PLANT from Brazil, esteemed a Counter-poison, having attracted much notice at the Isle of France, the enclosed letter from Mr. Cere, Superintendent of the National Garden, is at your service for publication, and as soon as I can get a faithful translation of the papers that accompanied it made out, you may likewise expect them, although the Plant has perished on the passage.

uly 1st, 1801,

I am, Sir, Your most obedient humble Servant,
JAMES ANDERSON.

FOR AUGUST, 1801.

2096

TO DOCTOR ANDERSON.

SIR,

I wrote you not long ago by Mr. Batton, a young Navigator of our Island, who wished much to have the honour of your acquaintance or to cultivate it with the Avapana. Mr. Fortin, my countryman, with the same view asked me for another; I gave it, persuaded of the care he will take of it, that he will be sufficiently happy, provided it comes to you in a good state. I also send with it, the History of the introduction of this valuable plant in our Island. Its surprising effects do not admit of a doubt, I will add to what is already known and related in history, that they have just discovered that it has also the property of curing the Dropsy, in its first stage in taking about 1 pint a day, of an infusion.

One of our botanists (Mr. Aubert de Petit Thouard,) has made some learned discoveries relative to the Avapana, which has been sent to France. And I doubt not but this salutary Plant will very shortly be generally used.

I shall have much pleasure, in learning on Mr. Fortin's return, that by your care, the Avapana has multiplied in Asia as much as in our Island.

I have the honour to be,

SIR,

Your very humble and obedient servant,
CH'RE'.

By letters received from the Cape of Good Hope, it appears the General received opinion at that colony, that the French Squadron said to have been seen off the coast of Brazil, had not hitherto passed to the eastward of the Cape. The above advices add that orders had arrived at that place from his Majesty directing General Dundas immediately to take the government of that colony from Sir George Yonge, and to administer the same until the arrival of Lord Glenbervie; which was done on the same afternoon by a short proclamation, removing the guards, &c.

QUARTER SESSIONS.

July 15th.—Yesterday forenoon, the Quarterly Sessions of *Oyer and Terminet* and *Goal Delivery*, assembled before Sir William Syer, Knight; and his Associates Robert Henshaw, Esq. Mayor; Alexander Adamson, and Robert Kitson, Esqs. Aldermen.

P. S. MAISTER, Esq. *Foreman.*

George Patterson,	Nicholas Hankey Smith,
James Fisher,	James Law,
Thos. Nixon Wensley,	Peter Pare Travers,
William Broughton,	Christopher R. Wren,
Augustus Wm. Handley,	John Elphinston,
James Sutherland,	Henry Shank,
Charles John Bond,	E. Terry,
Walter Borlase,	Philip Bewicke,
I. G. Richardson,	William Crauford,
Nathaniel Tucker,	AND
James Hodgson,	James Kinlock, Esqs.
John Bell,	

Sir William Syer addressed the Grand Jury at considerable length, in a very impressive and appropriate speech, elucidating and explaining the Law on the various bills that were to be brought before them in the course of the present Sessions.

On Monday last, the ship London, Captain Clark, weighed and wrought out of the harbour, and between five and six o'clock in the evening the Pilot left her, being then clear of the reef, sometime during the night, (by what means we have not been able to learn) she unfortunately got on shore

on the S. West Prong, and it apprehended she will be totally lost.

Just previous to the Paper going to Press, we received intelligence from the ship London, stating, that notwithstanding every exertion they had not been able to get the ship off at high water. The Commander and Crew we understand have quitted the ship, the Chief Officer and one or two people only remain on board to take care that she is not plundered.

SHIP LONDON.

July 22d.—On Saturday last, the wreck of the ship London, that was unfortunately lost between the Prongs, was put up to public auction, and sold for seven thousand one hundred rupees.

From the fortunate continuation of moderate weather, most of the stores, &c. from the ship London, on shore on the reef, have been saved, and expectations are entertained that the hull of the ship may yet be got off.

A few days ago as a carpenter's mate belonging to his Majesty's ship Suffolk, was employed on a survey of the masts of the ship Orpheus, he fell down in an apoplectic fit, and instantly expired.

From our correspondents at Poona, Surat, and the Malabar Coast, we are happy to learn that the present monsoon has been unusually mild, and that favourable expectations are entertained of the ensuing crops.

July 25th.—On Thursday afternoon anchored in the harbour the Hon'ble Company's ships Fort William, Lord Hawkesbury, Airly Castle, and Worcester. These ships sailed from Portsmouth on the 1st April, in company with the Madras and Bengal Indiamen, with whom they parted on the 31st May. These latter are no doubt safe at their place of destination also. The Superb and another line of Battle Ship, and the Cambrian frigate, sailed in charge of this fleet; the Cambrian we understand proceeded to St. Helena to add to the strength of the homeward bound convoy.

The following are the lists of passengers by these ships, as they have been handed to us.

Thomas Dickenson, Godwin Ponsborne Seward, Robert Bainwell, Charles Whitehill, Stephen Whitehill, George Bowen, John Collier Salomon, James John Bickford Heard, William Henry Stanley, David G. July 29th. — On Monday last, agreeably to the intimation given in the public Papers, about half past 11 o'clock in the forenoon, the new ship belonging to Alexander Adamson, Esq. was launched from the Marine yard; under the auspicious designation of the *David Scott*. Though the day proved rather unfavourable on account of the rain, yet the launch was very numerously attended, and the Honorable Company's ship *Ganges* being in dock repairing, offered a very convenient and commodious point of view for so majestic a spectacle; Captain Gray had provided a very elegant collation on the occasion, for numerous circle of his friends; when

and of the beauty and elegance of the Settlement graced the party, which concluded with a dance.

On the flowing weather during the springs, and owing to the heavy surf that was running, the wreck of the ship London went entirely to pieces: we are happy however to learn that all her masts, rigging, and stores, have been saved.

Extracts of a letter dated Caffier, Upper Egypt, June 15, 1801.

"You will no doubt be anxious to hear how we fare in this part of the world, I have much pleasure in saying every thing is in tolerable plenty, we have as good, if not better fish than even Bombay affords, pretty good mutton, kid and fowls, and plenty of Pigeon flour is also served out, and two gallons of water per day for an officer; but we have now wells that has good water for Upper Egypt not more than half a mile from camp."

Extracts from General Orders.

BY THE COMMANDING OFFICER OF THE FORCES.

The 1st battalion 8th regiment native infantry having been inspected by the officer commanding in the province of Canara, the commanding officer of the forces has much pleasure in publishing his report to the army, that he was well satisfied with its discipline and appearance, which reflected credit on Major Fridge and the officers of that corps.

The colours of the 1st battalion 8th regiment to be sent to Mangalore to the officer commanding in Canara, to be publicly presented to the corps on the opening of the season.

FORT WILLIAM, August 28. 1801.

The following Despatch received by His Excellency The Most Noble The Governor General, by express from Bombay, is published by Order of the Honorable the Vice President.

His Majesty's Ship LEOPARD, Mocha Road, July 21, 1801:

MY LORD,

By the death of Rear Admiral Blankett, which happened on the 14th instant, the command of his Squadron devolved upon me, but as Sir Home Popham had been sent from Europe with instructions to take the command and carry on the service in this sea, I have resigned to him.

The Alert (one of the Honorable Company's cruizers left by the late Rear Admiral for the purpose) is this moment arrived with a dispatch from Major Holloway, (a copy of which I have the honor to enclose) and as I think this event of such importance to the general interest of the country, I have also transmitted similar copies to the governments of Madras and Bombay. I beg leave to offer your Lordship my sincere congratulations upon this important event, and the speedy prospect of the termination of the war in Egypt.

I have the honor to remain,

MY LORD,

Your Lordship's most obedient and very humble Servant,

(Signed) THOMAS SURRIDGE.

To His Excellency The MARQUIS WELLESLEY,
Governor General in Council at Fort William.

ADMIRAL BLANKETT, commanding His Majesty's Naval Forces in the Red Sea.

Imperial Ottoman Camp of the Grand Vizier before Cairo, 30th June, 1801.

SIR,

It is with much satisfaction I embrace the opportunity of communicating to you the pleasing intelligence, that the garrison of Cairo have subscribed to a Treaty with the combined British and Ottoman Armies, for the surrender of that city and for the evacuation of Egypt. Hostages have been given on both sides. I have it not in my power to acquaint you with the terms of Capitulation, as they have not yet been made known to me; however, I beg to offer you my congratulations on an event so important to the interest of our country.

The reduction of Alexandria alone now remains to complete the conquest of Egypt, and I think it highly probable the attainment of this desirable object is not very remote; as the garrison of that place, which cannot exceed four thousand men, will hardly think it prudent to contend with a force so superior as that which will be opposed to it on the return of our army.

Colonel Lloyd and his detachment are encamped with this army.

I have the honor to be,

SIR,

A Copy,
(Signed) T. S.

Your most obedient servt.
(Signed) CHAS. HOLLOWAY.

A True Copy,

Major, &c.

Orders of His Excellency the Most Noble the Governor General in Council.

FORT WILLIAM, AUGUST 13, 1801.

Whereas, a practice has obtained in this Port of moving Ships without a Pilot, to the great danger and probable damage of other Vessels lying in the River, of which an instance has recently occurred; His Excellency the Most Noble the Governor General in Council, with a view to obviate the dangerous consequences of this irregular practice, hereby prohibits the Commanders of all Vessels (Dhories and River Sloops excepted) from moving Ships in the Port of Calcutta which have not Pilots on board; under a penalty (independently of such consequences as the Owners or Commanders of Vessels may be subject to by Law) of Two Hundred Sicca Rupees for every breach of this prohibition.

The Governor General in Council also directs, that no Port Clearance be granted for any Ship, the Commander of which, or Officer in command for the time being, shall have been guilty of a breach of this prohibition, until the penalty hereby prescribed shall have been paid.

Published by Order of the Board of Trade,

J. N. SEALY, *Att. Sec.*

September 1st.—On Friday, intelligence was received of the safe arrival in the River, of the H. C. frigate *Nonfuch*, Captain John Canning, from China, whence he sailed on the 18th May last.

Captain Canning arrived at Wampoa on the 18th April, from this port, and found riding there H. M. ship *Belliqueux*, of 64 guns, Captain Bulteel, having under his charge the H. C. ships *Britannia*, Captain Barrow; *Coutts*, Captain Torins; *Dorsetshire*, Captain Ramsden; *Exeter*, Captain Merrison; *Neptune*, Captain Ruddy; *Bombay Castle*, Captain Hamilton; and *Hugh Inglis*, Captain Fairfax.

On the 14th of May these ships took their departure for St. Helena direct:—the *Nonfuch* fell in with them in the China Sea, in lat. $12^{\circ} 20'$ and long. $113^{\circ} 30'$ E.—the monsoon having set in against them, they all bore up for the straits of Mindow.

On the 5th June, the *Nonfuch* fell in with and captured the Spanish frigate *Nuestra Señora de Solitude*, Julian Evangelista, master, off the Island of Mindanao, having a Governor, with a quantity of arms, on board, for the Spanish settlement of Zamboangan; but found her on survey to be destitute of every requisite for a voyage to this port, that Captain Canning was induced to permit her to proceed to her destination, taking the parole of the intended Governor of Zamboangan and his three sons, not to take arms against Great Britain or her allies, during the present war, or to be regularly exchanged.

A few dollars, with some arms and ammunition, were taken out of the *Solitude*.

On the 27th June, the *Nonfuch* anchored in Manado road, to wood and water; the Europe convoy proceeding for the straits of Allas. She left Manado on the 1st July, for Malacca, and on the 14th, in lat. $5^{\circ} 55'$ N. and lon. 30° E. saw eight sail standing to the S. E. on a wind for the straits of Allas, which he took to be the *Belliqueux* and her convoy.

The *Nonfuch* passed Malacca, on the 30th July, and sent her boat on shore for intelligence:—on the 6th August, took H. M. ship the *Dædalus*, Captain Waller, in $5^{\circ} 38'$ N. and Longitude $97^{\circ} 50'$ E. with a transport under convoy.

The American brig *Pacific*, Captain Banoty Eads, anchored at Wampoa on the 15th May; last from Otahite, with a cargo of thirty thousand seal skins.—This vessel had been detained by the Spanish government at Lima, for near four months.

The Captain of the *Pacific*, stated, that the *St. Domingo*, a Spanish cruiser, of 22 guns, had captured off the Gallapago Islands, the *Britannia*, and *Castor* and *Pollux*, whalers, but did not mention the date.

On the 1st April, the *Nonfuch*, on her passage to China, fell in with a boat, having 63 Chinese on board, nearly star-

ved to death;—these unfortunate beings had belonged to a large China junk, that had been wrecked on the 1st of the preceding month, on four rocks, off the Island of Hai-nan.

They were received on board the *Nonfuch*, by Captain Canning, and treated with that humanity and tenderness, Britons ever shew to fellow creatures in distress, and subsequently landed at a small village on the Coast of Cambodia.

The *Lydia*, Captain Butler, and *Bangalore*, Captain Lynch, were the only ships at Malacca. The *Asia*, from Bombay to China, arrived there before the *Nonfuch* sailed.

On the 22^d of August, Captain Canning spoke the *Gillwell*, from hence to Madras; and on the 24th of the same month, fell in with the *Kingston*, between the *Jaggernaut* and *Black Pagodas*.

September 4th.—The H. C. brig *Weller*, Lieutenant, Davidson, anchored off town yesterday,—in coming up, she saluted the fort, which was returned.

Two Arab ships, the *Hydrosly*, and *Fatty Rhomany*, have arrived from Madras, whence they sailed the 21st ultimo.

Yesterday the *Ganges* run on board the *Hind*, near Garden Reach:—both ships have sustained some damage by this accident.

September 7th.—On Friday a Committee on behalf of four of the Insurance Societies in Calcutta, viz.,—the Calcutta Insurance Office, the Calcutta Insurance Company, the Bengal Insurance Company, and the Amicable Insurance Company, waited on Captain Hardyman, and presented him, with an elegant Sword; which had been voted to him in testimony of his distinguished gallantry and good conduct, in the capture of the French National Ship, *La Forte*, accompanied with the following address:—

CAPTAIN L. F. HARDYMAN,

SIR,

As a Committee of four of the Insurance Offices of Calcutta, we request your acceptance of the accompanying Sword, as a mark of esteem and approbation, of the gallantry and good conduct displayed by you, in the *Action*, wherein His Majesty's ship *La Sybille*, captured the French National Frigate, *La Forte*.

Allow us to embrace this opportunity of expressing a sincere hope, that our Country may long have the advantage of your zeal and talents, for the protection of her Commerce, and for the advancement of her Naval Glory.

We remain, with much Esteem,

SIR,

Your most obedient humble Servants,

ALEXANDER COLVIN,

JAMES M'TAGGART,

JOHN BLYTHE.

Calcutta, 4th September, 1801.

To which, Captain Hardyman returned the following answer :

Calcutta, 4th September, 1801.

GENTLEMEN,

At the same time, that I acknowledge the marked attention of the Insurance Officers in Calcutta, by presenting me with a Sword, in testimony of the advantage resulting to the Commerce of India, by the capture, of the French National Frigate, *La Forte*, on the night of the 28th February, 1799, I cannot but sincerely lament the melancholy occasion, which has brought me forward to the notice of such respectable Companies.

The success on that unequal conflict, was entirely owing to the judicious arrangements of the late gallant Captain Edward Cooke, which were carried into the promptest execution by a steady, well disciplined ship's Company, and I claim, but that share of merit to which every individual Officer is entitled.

I have the honor to be,

GENTLEMEN,

With much respect and consideration,

Your very obedient and humble Servant,

FORT WILLIAM, SEPTEMBER 9, 1801.

On the 5th instant, Dispatches were received by His Excellency the Most Noble the Governor General, from Major General Baird, dated the 16th of July 1801, at Kenne, on the banks of the River Nile.—Major General Baird arrived at Kenne on the 6th July, and had been joined by the greater part of his Army, having lost only three men in crossing the Desert. It was expected that in the course of a few days, the remainder of the troops would join the Army, and that Major General Baird would be ready to move with his whole force, in such direction as circumstances might require.

Major General Baird had received a letter from Major General Hutchinson, dated the 5th of July 1801, at Gizch, announcing that the part of the French Army which had retired to Cairo, had surrendered, and were to march out on the 10th of that month, to be conveyed to France.

General Menou was blockaded in Alexandria, the garrison of which place is stated to be discontented. General Hutchinson expected to move from Gizch with his whole Army on the 12th or 13th of July, for the purpose of commencing the Siege of Alexandria, the only place in Egypt remaining in the possession of the French.

Advices have also been received by the Honorable the Vice President in Council, of the surrender (on the 21st of June last) of the Island of Ternate with its dependencies, to the Naval and Military Forces of the Honorable East India Company, under the Command of Colonel Burr, and Captain Hayes, of the Bombay Marine, after a firm and resolute resistance on the part of the Dutch Governor of fifty-two days.

Fort William, the 10th September, 1801.

On Tuesday the 18th of August, His Excellency the Governor General having held a Council at Barrackpore, in

which he nominated Peter Speke, Esq. to be Vice President in Council, and Deputy Governor of Fort William, proceeded in the Yacht, attended by his Suite, on his progress to the upper Provinces; and on the same day reached Chinsurah, where His Excellency landed, and was entertained at dinner on that and the succeeding evening by Mr. Birch, the Commissioner at that settlement.

On Wednesday the 20th, His Excellency proceeded on his voyage, accompanied by Sir Home Popham, who had joined him at Barrackpore.

On the 24th, Sir Home Popham returned to Calcutta.

On Wednesday the 26th ultimo, the Governor General reached Dowdpore, where the Nabob of Bengal, who had come from Moorsshedabad to meet His Excellency, had stationed his boats.

The unfavourable state of the weather prevented the Governor General from receiving the visit of the Nabob of Bengal, until the 30th ultimo, after that ceremony had been concluded, the Governor General sailed for Berhampore, which station His Excellency reached on Monday the 31st. The troops of the cantonment were drawn up along the bank of the river, and saluted His Excellency as he sailed past.

On Tuesday the 1st, His Excellency landed at Berhampore, and was entertained at dinner by Mr. Pattle, Senior Judge of the Court of Circuit and Appeal at Moorsshedabad; and on Wednesday the 2d instant, His Excellency, attended by the Officers of his Suite, and by a party of his Body Guard, inspected the troops of the Cantonment under the command of Lieutenant Colonel Wood.

After the inspection, His Excellency breakfasted with Lieutenant Colonel Wood, and at ten o'clock held a Levee and gave Audience until twelve, at which house he held a Durbar for the native inhabitants of the district.

In the evening of the same day, His Excellency dined with Mr. Locke, second Judge of the Court of Appeal and Circuit, and on the morning of Thursday the 3d instant, the Governor General took his departure from Berhampore; the troops of the cantonment being drawn up on the bank of the river, saluted His Excellency at his departure. On the

same evening the Yacht anchored nearly opposite to the Palace of the Nabob of Bengal, to whom and to the Begums His Excellency paid a visit of ceremony on the morning of the 4th, being attended by all the Civil and Military Officers of his suite, by a party of the Body Guard, and by a Captain's guard of European Infantry sent from the regiment stationed at Berhampore.

His Excellency is attended by the respective Judges, Magistrates, and Collectors, of the several districts through which he passes, and receives the visits of all the native inhabitants of distinction during his progress.

September 11th.—A letter received in town from on board the brig *Thamur*, Captain Stewart, which sailed hence on the 22d July, bound for Madras, states, that she has been obliged to put into Chittagong, with the loss of her main-mast.

On Monday evening accounts were received in town of the ship *Bangalore*, Captain Lynch, having been driven by stress of weather to the eastward and into the Roymungul River.

This vessel sailed from Prince of Wales's Island, on the 8th ultimo, and encountered a very heavy gale of wind, which continued with unremitting violence from the 26th to the 30th ultimo, in which she lost three anchors and two top-masts.

The ship *Eliza*, (formerly *L'Uni* privateer), Captain Williamson, from hence to Madras, was at Acheen on the 8th August: she had made three attempts to prosecute her voyage to her original destination, but was under the necessity of returning to port.

We feel pleasure, however, in announcing her safety, as she has long been deemed a missing ship, and a number of passengers embarked on board of her.

Two other vessels were lying at Acheen with the *Eliza*, but whose names we have been unable to ascertain.

The *Clyde*, Capt. Scott, from hence, was seen standing in to Prince of Wales's Harbour, when the *Bangalore* left it.

September 16th.—This morning accounts were received of the arrival of the brig Shannon, Captain R. Babcock, from Bissorah, whence she sailed on the 27th July last, touched at Madras, and left it on the 7th instant. Major William Campbell, has arrived a passenger on this vessel.

Extract of a letter, dated Camp, on the banks of the Nile at Ginna, 12th July, 1801.

"The Royal, Bengal, and Bombay Artillery, with two companies of sepoys, marched from the camp at Collier on the 26th ult. under command of Captain Fleming, of the Bengal Artillery, with five pieces of cannon, and a lack of ball cartridges; they arrived at Moilan, being a distance of about forty-four miles, in three days march; at this place they halted for three days for a supply of Camels.—On the ad instant, they marched 23 miles, and on the 3d, thirty miles, which brought them to Legettah, though the men were much fatigued, fortunately the whole were brought to the ground all well, consisting of about one thousand men of different descriptions—the General was highly satisfied with the appearance of the men—on the 4th the detachment halted, and on the 6th they reached Ginna. The country they marched through is uncommonly barren, and the weather extremely sultry, the thermometer in the tent from 100 to 110: notwithstanding, both the officers and men were very healthy. The country round Ginna is very pleasant, provisions are plentiful and exceedingly reasonable—the Egyptians and Arabs are extremely civil and seem happy that our people are amongst them. The corps there are the 10th regiment, 88th, all the Artillery, and two companies of sepoys. Intelligence had been received there from Grand Cairo that the French had signed articles of capitulation, and that our troops are in possession of one of the gateways. These dispatches were dated the 9th of July, and the French were to march out next morning. A salute was fired at Ginna on the occasion, and another on hoisting the green or Imperial flag on the house of the Grand Signior at that place. Ginna is a large town full of inhabitants—the famous temple of Isis is in view from the encampment.—General Baird had sent Captain Budgeon to Cairo by the Nile, and whose return was hourly expected.—Alexandria still held out when these dispatches came away, but expected to fall daily."

Extract of a letter, dated Cape of Good Hope, the 16th of June, 1801.

"I avail myself of the sailing of the Britannia for Bombay, to inform you, that we arrived here in the True Briton, Captain Clark, on the 15th of June, having many of our Troops and ship's company sickly; we put in here for refreshments, having parted company with the outward bound fleet.—I am happy to say the passengers are all well, and as we expect to sail in about eight days, it is probable we may be at Madras, by the time this will reach you."

Extract of a Letter from Berhampore, September 1, 1801.

"The Governor General and his suite have arrived here. The fleet under sail had a most beautiful appearance, imagine to yourself fifty five pinnaces and above 300 attendant boats all together in motion, pursuing the same tract. His Excellency the Nabob of Moorthedabad came in great pomp to meet the Most Noble the Governor General."

September 22d.—The brig *Supply*, Captain D. Sutherland, is arrived in the river from Madras; whence she sailed the 8th August.

Accounts are received in town of the arrival of the ship *Phillip*, formerly the *Armenia*, under Arab colours, from Muscat.—She brings accounts that twelve more sail of Arab ships may be daily looked for from that port.

The *Kadery*, Captain John Friar, is also arrived from Penang, which place she quitted the 10th ultimo.—Mr. Gasper Johannes came passenger by this vessel.

September 26th.—On Wednesday noon accounts were brought to town, of the safe arrival in the river of the following ships, under convoy of H. M. ship *Sensible*, Captain Lange, having left Mocha the 21st ultimo:—*Cuvera*, Capt. Lowe,—*Ganges*, Captain Scott,—*Friendship*, Captain Moore,—*Eliza*, Captain Waters,—and *Sarah*, of Bombay, Captain McIntosh.

PASSENGERS.

Per Cuvera.—Captain Fleming, of the Bengal artillery, and Mr. Finch.

Sarah.—Captain Gibson, late commander of the ship *Eliza*, unfortunately lost in the Red Sea.—Capt. G. and Mr. Henry Evans, went on board the grab *Deria Dowlut*, of Bombay, which proving very leaky, she was taken in tow, and afterwards foundered at sea;—Capt. G. his officers and crew, were taken on board of the *Sarah*.

Friendship.—Mr. John Southey, late chief officer of the *Fidellissimo*, wrecked on the coast of Aden.

Eliza.—Mr. Thomas Gibson, late 2d officer of the above ship.

The *Hope*, Captain Thomas Ross, from Mocha, is also arrived.

The ship *Mary*, under Arab colours, is arrived from Muscat, which she left the 22d ultimo.

We are extremely sorry to learn the melancholy loss of the Brig *Julia*, from Bombay, with 200 bearers on board, which, together with her crew, all perished.—Also the total loss of the *Susannah*;—her crew was saved.

The *Cecilia*, Capt. Thomas Thomas, from hence arrived at Mocha on the 11th ult. after a very tedious passage, having left her pilot on the 14th March last.

The Admiral Rainier, Capt. Ley, lately arrived at Madras, has brought letters we understand from the Cape of Good Hope, that give an account of the *Lucy Maria*, Captain Waller Dawes, having put in for water, and was there on the 21st July last, the only ship for England from this port.

The Hon'ble Company's ships *Castle Eden*, Sir Edward Hughes, and *Prince William Henry*, from Madras, and the *Hope* and *Surat Castle*, from Bombay, were likewise at the Cape, when the Rainier sailed.

Most of the foregoing ships had experienced excessive bad weather for near six weeks in the Latitude of the Cape, one of the Indiamen had spoke the *Aurora*, Captain M. Gilmore, from hence for Europe, who had suffered much from the violence of the winds and waves.

The ship *David Scott*, Capt. Colin Gibb, arrived on Saturday from Bombay, the 25th August, and *Tranquebar*, on the 9th instant, saw nothing on the passage to this port.

Mr. Blunt, of the Civil Service on this Establishment, was a passenger on this vessel.

The *Britannia*, Captain Stout, is arrived in the river from Bombay and *Tranquebar*.

Passengers.—Dr. Wm. Hill, from Madeira, and Mr. David Dundas, free trader, from *Tranquebar*.

The ship *Fort St. George*, Capt. Airth, from hence with a cargo of grain for Madras, has been obliged to put back to Diamond Harbour, having sprung a leak when about quitting the Pilot.

On Saturday a letter was received from Ganjam, of the 10th instant, stating that a suspicious looking ship had hauled into Vizagapatam roads, and sent two of her boats on board the *Choolas* then at anchor there. A cattamaran had been dispatched from the shore, and detained by the stranger, who had stood to the Eastward, but tacking, it was conjectured she had shoaled her water.

The last accounts mention her, as again standing towards the roads of Vizagapatam, where some small crafts were laying.

The ship is represented as a small vessel, with her fore-top gallant yard, apparently higher than her main one, she hoisted a small flag, which, however, was not distinguishable on shore.

At a very full meeting of the Calcutta Insurance Office, (to which Messrs. Fairlie, Gilmore, and Co. are Secretary,) on Monday last, it was resolved that they should present the mother of Mr. Faulkner, (late second officer of the *Armenia*, Captain Meik, and killed in the engagement with the French Privateer *La Clarisse*) with a donation of £. 150. To the Steward of the same ship, who distinguished himself in the action, and was wounded, £. 100; and 500 Sicca Rupees, as a foundation for a fund to pay an annuity to two Seamen who also suffered in the action.

On the 13th instant, His Excellency the Commander in Chief inspected the troops stationed at Cawnpore. After going along the line he passed in review with 16 pieces of cannon in two divisions; the 27th Light Dragoons in front, and the 3d Native Cavalry in the rear.—The whole made a very grand appearance, and afforded, we understand, the Commander in Chief great satisfaction.

July 18th. The Quarterly Sessions commenced here on the 14th instant before Sir William Syer, Recorder, and his Associate Judges.

The Recorder having addressed the Grand Jury in a very eloquent and impressive speech, elucidating the Law, as applied to the various Bills that were to be brought before them, and particularly upon the subject of Duelling, the Grand Jury retired, and the Court adjourned until the following day at ten o'clock, when the Grand Jury returned a True Bill against Lieutenant G. B. Bellairs, and Captain C. W. Byne, for the murder of Mr. A. A. Forbes Mitchell, and no Bill against Lieut. Michie, whose name stood in the same Indictment.

Mr. Dowdeswell, as Advocate for the Crown, then moved that Mr. Michie might be put to the Bar and tried upon the Inquiry of the *Coroner*, with this view, as he declared, of bringing Mr. Michie forward as an Evidence upon the trial of Lieutenant Bellasis and Captain Byne, which being opposed by Mr. Morley, as Counsel for those Gentlemen, and the Court having heard the arguments adduced for and against the Motion, they were pleased to reject it—upon which Lieutenant Bellasis and Captain Byne were put to the Bar, and after eight peremptory Challenges on the part of the Prisoners, and three on the part of the Crown, the following Gentlemen were sworn in of the *Petit Jury*, viz.

Captain Andrew Patton,	H. C. S. Ocean, Foreman,
———— John Barfoot,	———— Nottingham.
———— Wakefield,	———— Hen. Addington.
———— J. Rees,	———— Houghton.
———— Isaacke,	———— Skelton Castle.
———— Saunders,	———— Travers.

Mr. W. Rees,	Chief Officer of the Houghton.
———— Peter Rammage,	———— of the Nottingham.
———— Bowers,	Second Officer of the Travers.
———— Vaughan,	Third Officer of the Ocean.

Leonard Jaques, Inhabitant.

Captain Joseph Slater, of the Admiral Nelson.

Mr. Dowdeswell, having addressed the Jury on the part of the Prosecution, Evidence on both sides was heard, and the Prisoners, both of whom addressed the Court, having finished their defence, at 9 o'clock at night the Recorder summed up the whole of the Proceedings with his usual perspicuity and accuracy, and delivered his Charge to the Jury in a manner which reflected the highest credit on his abilities and impartiality. The Jury retired at midnight, and at half past one o'clock on the morning of the 19th returned their verdict GUILTY, but recommended the Prisoners to Mercy. The Prisoners were immediately committed to close confinement, and are to be brought up on the 20th instant, to receive the Judgment of the Court.

July 20th.—The Court having this day met at 11 o'clock, pursuant to adjournment, Lieutenant George Bridges Bellasis and Captain Charles William Byne were put to the Bar, and being asked, in the usual form, what they had to say why sentences of Death should not be passed upon them, they severally addressed the Court in a few words, throwing themselves upon its Mercy.—The Recorder then addressed the Prisoners in a long and very affecting Speech, wherein he recapitulated the leading circumstances of this

THE CALCUTTA MONTHLY JOURNAL,

melancholy case, and took occasion to admonish the audience, to take warning from the unfortunate example before them of the danger of flying in the face of the Laws, and; actuated by *false* notions of honor, seeking the Lives of their fellow Creatures or risking their own, by that most barbarous practice *Duelling*—a practice in direct opposition to the Laws of God and Man, and consequently highly *disbonorable*.

The Recorder then informed the Prisoners that in consideration of the Jury having recommended them to Mercy, the Court had determined to avail themselves of the late gracious Act of His Majesty, which enables the Courts in India, to award sentence of Transportation instead of Execution against offenders in certain cases, as they shall see fit; and further, that from some favorable circumstances which had appeared on the Trial, affecting the case of Captain Byne, as well as a representation which had just been put into his hand from the Officers of the 86th Regiment, stating that upon a former occasion of this nature Captain Byne had interfered and happily prevented a Duel in the Regiment, the Court would be induced to recommend him to *his Majesty* for *pardon*—but that the case of Lieutenant Bellasis appeared in a very different point of view, and he must not expect the smallest remission of his punishment.—The Recorder concluded by saying, “It therefore only remains for me to pronounce the Sentence of the Law as the Court have determined to apply it—which is, that you *George Bridges Bellasis* shall be transported to the Eastern Coast of *New South Wales* for the term of *Fourteen Years*—and that you, *Charles William Byne*, shall be transported to the same place, for the term of *Seven Years*.”

The Court, having sworn in Simon Halliday, George Paterson, James Law, Charles Forbes, and Patrick Hadow, Esqrs. as His Majesty's Justices of the Peace, for the Town and Island of Bombay, was then adjourned; the Sessions being closed.

August 24th.—On Friday last, signals were made for a ship to the westward, unfortunately a tide to leeward of the port, but from the variable winds that then prevailed and the wind being off the land on Saturday morning, hopes were entertained that she would have been enabled to have

got sufficiently to the Westward as to allow of her fetching into the harbour, but from the heavy swell, and the wind coming round to the westward, we observed her standing in, and in the afternoon she anchored within about a mile of the reef, in five and a half fathoms water; a pilot had been dispatched from Mahim, who fortunately got on board, and the utmost exertions were used to render her every assistance; a boat well manned from His Majesty's ship Suffolk, Captain P. Malcolm, accompanied by a Bunder boat, pushed through between the Island of Colabah and Bombay, and by the channel through Back bay, with much difficulty and hazard reached the ship; they, however, could render her no assistance, as they had come to the resolution of riding till the morning in expectation of meeting with a land wind to run them off to the Westward.—A little before ten o'clock on Sunday morning the ship was observed losing her head sails, and at ten, her main and mizen-masts were seen to go overboard, and soon afterwards a heavy sea broke into her, when it appeared she must have struck; the fore-mast soon after followed the other two, and we are sorry to say the ship is entirely lost.—She proves to be the *Isabella*, Capt. Brown, belonging to Calcutta, freighted from the West Coast of Sumatra, with a very valuable cargo on board, which we fear will be lost.—After getting on shore, the Suffolk's boat attended to render any assistance, but the sea was running too high to venture going near her.

Notwithstanding the perilous situation in which the *Isabella* lay, and the imminent danger she ran of being instantly dashed to pieces, yet the supercargo, Captain, officers, and part of the crew, continued to stick by the ship, during Sunday night, nor did the whole quit her until Monday afternoon, and we are happy to state that not a single man has perished on this unfortunate occasion.

On Monday last anchored in the harbour the Hon. Company's schooner *Alert*, Lieutenant Thomas Dade Beaty, from Suez.—The *Alert* left Suez on the 4th July, touched at Coffer, from whence she sailed on the 6th, and from Mocha on the 23d.—By the *Alert* came passenger, Captain Joyliffe, formerly commander of the *Fortune Grab*, whose loss in the *Red Sea* we noticed some time ago.

September 15th.—On Monday evening, the officers of his Majesty's 74th Highland regiment, gave an elegant Ball and Supper, to the Ladies and Gentlemen of the Settlement; we do not recollect an entertainment of this nature, in Bombay, having been more numerous or brilliantly attended.

By a recent departure our society has again experienced a diminution, as the following passengers have lately proceeded to Europe:

Mr. and Mrs. Parr, of the Bengal civil establishment—Lieutenant Colonel Forbes, of H. M. 75th regiment, his Lady and Family—Mrs. Crow—Mrs. Eastwick—P. S. Masters, Esq. of the civil service, and Joseph James, Esq. of the medical establishment of this presidency,—Captain Alexander Stuart, of H. M. 75th regiment—Captain Cox, of H. M. 80th regiment—James Loughnan, Esq. commissary of musters to his Majesty's troops on this establishment—Lieutenants Seward, Hornby, Peché, and Marriot, of the military,—Mr. Jardine, and Mr. Burroffe, surgeons in the Navy—and Ensign Page, of H. M. 12th regiment.

MARINE PROMOTIONS.

Senior Lieutenant Thomas Dobinson, to be Captain, *vice* Fortescue, deceased, date of commission ad May, 1801.

Second Lieutenants Richard Bird and William Nesbitt, to be first Lieutenants, date of commission ditto ditto.

CIVIL APPOINTMENTS.

Mr. J. H. Cherry, Custom Master at Bombay, *vice* Maister, proceeded to England.

Mr. George Brown, Commercial Resident at Surat, *vice* Cherry, called to the Presidency.

The following address was presented by the Inhabitants of St. Helena to the Governor, on his departure from thence, for Europe:—

To the Honourable Colonel Robert Brooke, Governor of the Island of St. Helena.

We, the Company's servants, planters, and inhabitants of the Island of St. Helena, deeply impressed with a sense of your unceasing exertions for the prosperity and honour of the Island, and the welfare of those you have governed for these fourteen years past with ability and humanity, request, that W. W. Docton, Esq. will present this testimony of our sincere regret at the declining state of your health for these two years past, which unfortunately sen-

ders a temporary absence necessary. The blessings we have experienced under your Government have effectually marked you as an object of our esteem and affection. We consider it but a just tribute to your merits, in acknowledging, this Island has, owing to your wise and active measures, been brought forward to a degree of respectability and notice, unprecedented in the annals of the Settlement; and it is unanimously our most fervent hope and wish, that a speedy recovery of your health will be the joyful means of restoring you once more to the chief management of affairs in this Island.

To the above Address, 104 signatures were affixed.

His Majesty's sloop *Penguin*, of 18 guns, which lately arrived in Simon's Bay, with dispatches for Vice Admiral Sir Roger Curtis, has, in pursuance of Orders in Council, for detaining all Russian, Danish, and Swedish vessels, taken possession of two valuable Swedish East-India Company's ships: and engaged between the Madeira and Canary Islands, a large French corvette, and two armed merchant ships; one of which, had struck; and the whole would probably have been captured, (the corvette being almost silenced,) when the fore-top-mast of his Majesty's sloop fell over the side; the inability of pursuit being immediately perceived by the enemy, they hauled off, and made sail, to the mortification of our gallant tars.

* *SIMON'S BAY, June 20th.*—Last night arrived in this Bay the Danish Ship *Prince Augustenberg*, from Bengal, after fourteen weeks passage; she was taken possession of by two armed boats of the Squadron. The Captain informed the Officers who boarded him, that there are two more Danes off the Cape. The *Adamant* and *Euphrosyne* have received orders to slip their cables when there are any signals made, to conduct them to this port if possible.

GENERAL INTELLIGENCE,

FOR OCTOBER, 1801.

FRIDAY, OCTOBER 2, 1801.

THE Hon. the Court of Directors having been pleased to appoint G. H. Barlow, Esq. and George Udny, Esq. to be Members of the Supreme Council of Fort William in Bengal; Mr. Barlow and Mr. Udny; accordingly, this day, took their seats as Members of the Supreme Council of Fort William in Bengal, under the usual salutes from the Ramparts of Fort William.

His Excellency the Most Noble the Governor General has been pleased to nominate the Honorable George Hilario Barlow, Esq. to be Vice President and Deputy Governor of Fort William.

By Order of the Honorable the Vice President in Council.

C. R. CROMMELIN,

*Acting Chief Secretary to the Govt.*

October 2d.—The American ship the Horace, Capt. John Bickford, is arrived from Salem, with a cargo of spars,—whence she sailed on the 1st May.

After the wreck of the Real Fidelissima, the soldiers of H. M. 80th regiment, who were on board of that transport, to a man subscribed a sum as a compensation to the officers and crew of the Perseverance snow, Capt. Mackay, who afforded them, in their critical situation, every relief and assistance in his power.

The money, with the best written letter these honest Yellows could produce, was forwarded to Major Ford, their commanding officer, requesting he would present their small tribute, in humble testimony of their gratitude for kind and humane attention in their distress;—they acknowledge themselves incompetent to reward Captain Mackay's conduct, in any manner agreeably to his deserts; they spoke and wrote of him in the highest terms of gratitude.

From every account we have seen, it appears that the people on board the Perseverance conducted themselves in the most commendable manner, and exerted all their abilities in the best of causes, that of humanity,—no praise of ours, is adequate to their merits.

The following ships for England with rice cargoes have lately taken their departure hence all well, viz.

|                   |                   |                 |

| William Dent,     | _____ Muffin,     |                 |
| Rose,             | _____ Kymer,      |                 |

| Sir Ed. Hamilton, | _____ Robertson,  |                 |
| Nutwell,          | _____ Carse,      |                 |

The William Dent, we understand, has been obliged to put back, after being eight days at sea.

Captain Thomas, in the Cecilia, from hence to the Red Sea, discovered a spring of fresh water on Burnt Island,

situated in the Lat. 11 14 No. and Long. 47 15 East of Greenwich, and about 9 or 10 miles distant from the Abyssinian shore.

On the south side and nearly about the centre of the Island, the water oozes out of the crevices of the Rock, and forms a small pool at the foot of the precipice;—with a very little trouble a ship in want of water might easily supply herself, particularly as there is very good anchoring ground (sandy) opposite to the spot, and thence round the east point of the Island, so that a ship may anchor in safety and avoid the strong westerly gales.—On this Island there is a remarkable Cave or rather natural Dock, sufficiently large to admit a ship of about 300 Tons, and there moor by clinching the end of a cable through the holes in the rock.

When the boat of the Cecilia was on shore, the people in her discovered the remains of two clinches of cables fastened to the rock.

There appears to be no danger near to the Island, except on the western point; where a reef runs off, about a cable's length, and where there is a sunken rock with only 12 fathom water on it. ●

---

The Bellisarius is the vessel that lately made her appearance off Vizagapatam, and of which we gave some account in our last; not being able to fetch Madras roads, she put into a port on the coast for water, and by not having communication with the shore, gave rise to a supposition that she might be an enemy's privateer.

*Copy of a Speech made by Lieutenant Colonel Murray, to the British Officers on the 24th August, upon presenting the Union Colours to the 2d Battalion 1st Native Regiment, at Dacca.*

“The Imperial Standard which I have had the honor to present to this Corps, exhibits the grateful sign of a Union of Interests amongst the best and happiest People of the first nation on the theatre of the World. I flatter myself that in the Field of Battle it will ever be displayed in the cause of justice, of honor, and humanity, and I feel fully persuaded, that, in the moment of danger, it will be defended, by every British Officer present,—with fervent zeal, and with cool, and determined courage.”

WESTMINSTER MEETING.

The Gentlemen educated at this famous Seminary, having for sometime discontinued their Anniversary Meeting, assembled on the 22d ultimo at Scornec's Tavern, to the number of twenty-one.

Commodore Sir Home Popham, as a Brother Westminster, was particularly invited on this occasion. General Fraser, Colonel Green, of the Artillery, the Honorable Mr. Bruce, Mr. Thornhill, &c. &c. attended. At seven P. M. the company sat down to dinner. Mr. Hickey, as the senior Westminster, being in the chair; the Artillery Band playing during the repast.

After dinner, the following toasts were given by the President, and repeated by the Vice President in due order, the band playing an appropriate tune to each toast.

All the Boys !

Several Songs were then sung with obliging kindness by different Gentlemen, and the remainder of the evening was passed in classical conversation, genuine cheerfulness, and festive mirth. The mind is sorely gratified in the recollection of those generous habits, which formed in early infancy, are matured and perfected by the knowledge and experience of our riper years.

Nec me meminisse pigebit ELIAS,  
Dum memor ipse mei, dum spiritus hos reget artus !

On the 27th ultimo, as Mr. Gregory Jackson, Company's Agent at Kodercoo, with his wife and family, and several other ladies and gentlemen, in all seventeen persons,

were proceeding to town, in his Cutter, it accidentally upset below Culpee, when Mrs. Jackson's mother and sister were unfortunately drowned, and the remaining fifteen, after enduring unparalleled hardships, and just on the eve of perishing, were providentially saved, by the exertions of a poor deserving fisherman and his boat's crew.

*October 7th.*—On Monday two Arab ships arrived, one from Bombay, which she left on the 1st August, the other from the Island of Palta, with a cargo of Cowries, from whence she sailed on the 22d July.

In the Bay of Bengal, the American ship the *Horace*, Captain Bickford, saw a brig, that chased him, whose decks were full of men, and whom he supposes to be a cruiser.

The brig came nearly within hail; then hauled his wind to the Eastward, and was soon out of sight.

When the Philip, under Arab colours, left Muscat, the Honorable Company's late ship the *Kent*, was at anchor in those Roads. She had been purchased by the Imaum of that place for 50,000 Rs. and was to be fitted for a ship of War.

The ship *Clarisse*, Captain C. James, and the ship *Phoenix*, have arrived at Madras from Bombay, as also has the new ship *Gilwell*, Captain C. H. Sheen, from this port.

We understand that a very considerable Bridge, now building at Burdwan, has lately been opened for the accommodation of foot Passengers. The Bridge consists of five Arches, and is altogether near 400 feet long, it is, we believe, the largest work of the kind within the provinces of Bengal, and promises to be of great utility to the inhabitants of the very populous, and flourishing District in which it is erected.

*Oct. 14th.*—On Thursday arrived the brig *Trimmer*, Capt. Alex. Foggo, from Botany Bay, and Amboyna, the last of which places she left on the 4th August.

When Captain Foggo sailed from Botany Bay, the settlement was in the most flourishing state—plenty of all kinds of provisions, of the best quality, and cattle of every species numerous.

It is said to be the Governor's intention to offer a reward for taking or killing the wild ones, (that had very greatly

increased) after the receipt of two hundred Cows, that had been contracted, to be imported from India. \*

The Royal Admiral, with several Whalers, and an American, with stores, were at that settlement when the Trimmer sailed.

At Amboyna, Captain Foggo left the Cartier, Captain Fulton, from Eugland, with an ample supply of articles for that settlement.

The Albion, Captain Wallace, and Farquhar brig, Captain Meldrum, were at anchor at that port.

On Sunday arrived the Ann, Captain Stewart, likewise from Botany Bay, having sailed thence on the 11th July, she confirms the statement previously received by the Trimmer of the prosperity of Port Jackson, and brings an account of the arrival there in June, of the Cornwallis, Captain Tennent, from England, with convicts.

The Harington, Capt. Campbell, belonging to this place, but last from Madras, had also arrived there before the Ann sailed.

Captain Stewart spoke His Majesty's ship Centurion, and learnt from her, that she had been off Manila, and cut out with her boats, two vessels, and destroyed two others, in defiance of two Spanish line of battle ships and one frigate, which were lying there at the time this gallant piece of service was performed by our brave countrymen.

The American ship the William Penn, Captain Volans, arrived on Sunday from Portsmouth, and the Island of Madeira, the latter of which she left on the 21st June.

Letters have been received in town from on board the Bellona, Captain James Down, captured by the Republican Frigate La Chiffonne, that state she struck without resistance; in fact resistance would have been temerity, when the odds were so much in favour of the enemy.

In removing the prisoners, the Chiffonne ran foul of her prize, and carried away her own foremast and bowsprit, the Bellona's people thinking this afforded them a fair chance of escaping, immediately made all sail upon the ship, but the attempt to get off proved ineffectual, for the frigate even in her disabled state soon overtook her.

The officers and crew were then immediately removed on

board the Chiffonne; Captain Down, and the Ladies that were passengers, only remaining on board the Bellona.

During the stay of the Chiffonne at St. Ann's Island, accounts were said to have been received of the Bellona's arrival at the Mauritius.

A Man of War brig of 22 guns, sailed from Nantes, with La Chiffonne, having parted company, she fell in with an English Cutter, who engaged her, and damaged her masts and rigging—the Frenchman notwithstanding had the good fortune to escape into Bilbao.

La Chiffonne was to be surveyed and valued on the 25th September; and would immediately afterwards, if found worthy, hoist the British Flag, and be Commissioned for His Majesty's Navy.

*October 16th.*—On Monday evening Mr. I. P. Green, purser of the Honourable Company's extra ship Admiral Rainier, Captain William Lay, arrived in town, with accounts of the safe arrival of that vessel at Kedgerce, last from Madras, whence she sailed the 24th ult.

The Salchee Grab, from Muscat, arrived on Tuesday.

*October 23d.*—We are sorry to announce the loss of the snow Dove, Captain Duffin, from the west coast, to the eastward of Saugur:—the commander, officers, and crew, came up to town on Wednesday.

The Mehan Buccus, a vessel under Arab colours, is arrived in the river from Madras, whence she sailed about the 2d instant.

On Saturday arrived the ship Hydrossey, under Travancore colours, from Cannanore.

The Porcher, on her outward bound passage touched at the Cape of Good Hope, and sailed thence on the 1st of August; the day preceding, the Honourable Company's ships Sir Edward Hughes, City of London, and Castle Eden, with the Lucy Maria, Captain Dawes, took their departure for England.

At the time the Admiral Rainier left the Cape, the colony was in the greatest distress for grain; so much so, that each person was an allowance of three quarters of a pound of coarse bread, per day.

Letters from Kistnagherry mention, that on the 23d ultimo, about five minutes after eight in the evening, a smart shock of an earthquake was experienced at that place; it is stated to have come on apparently from the north, exactly,

under the Kistnagherry Hill, and pursued its course down the valley between the Hills which run directly south to Daramporam. This is the second shock that has been felt at Kistnagherry within these last two years.

On the delivery of the Treaty to his Highness, Royal Salutes were fired from the garrison of Fort St. George, from the Shipping in the Roads, and volleys of musquetry by the troops under arms.

Yesterday at Noon, his Highness paid his first visit to the Right Honorable the Governor, at the Government House in the Fort.

The Troops were formed into a Sreet for the reception of his Highness, and a Salute of Nineteen Guns was fired on his entrance into and departure from the Garrison.

On Wednesday morning arrived the Honorable Company's Ship Preston, Capt. Murray, from England—left the 13d of April.

*September 26th.*—On Tuesday last arrived in the Roads, His Majesty's Ship *La Sybille*, Captain Adam, with her prize the *Chiffonne*, a French Republican Frigate.

The *Chiffonne* sailed from Nantz on the 14th of April, with thirty persons on board, who were concerned in the attempt to assassinate Bonaparte, for which they were sentenced to be banished to the Seychelles.

Captain Adam arrived off the Island of Mahé (Seychelles) on the morning of the 10th August, and observed a Frigate at anchor, with several small vessels in shore, about 10 A. M. after passing a number of dangerous Shoals, the *Sybille* anchored within a cable's length of the *Chiffonne*.

The Colours were now hoisted, and a smart action commenced, which lasted 17 minutes, when the enemy struck, cut her cable, and drove on shore, but was afterwards got off without damage.

The *Chiffonne* was commanded by Captain Guieyffe, 250 men, carries twenty-eight 12 pounders on her main deck, four 36 pounders carronades, and ten 8 pounders on her quarter deck and fore-castle.

The enemy had 23 men killed and 30 wounded, the *Sybille* two killed and one wounded.

.. Captain Guieyffe had erected a four gun battery on shore, which kept up a constant fire, during, and for some short time after, the engagement.

On the Coast of Brazil, in May last, the *Chiffonne* captured a Portuguese Schooner, and a Frigate of 26 guns, after a short action, which they returned to their Commanders, after throwing the guns overboard.

On the 16th of June she captured the *Bellona* extra ship from Bengal, and which had arrived at the Isle of France.

Captain Adam took at the Seychelles two Schooners and a Grab, under French Colours; one of the former, an exceeding fine Vessel, was given to Lieutenant Campbell, late of the *Spitfire*, wrecked on the African Islands on the 21st ultimo, but whole Crew and Stores, we are happy to say, were saved.

The New Madras Insurance Company after expressing themselves highly sensible of the gallant conduct of Captain C. Adam, of His Majesty's Ship La Sybille, in the capture of the French Republican Frigate, La Chiffonne, and adverting to the benefit that must accrue by it to their commercial interests, have requested his acceptance of a Sword, valued at two hundred Pounds Sterling. Captain Adam in complying with their request, declared himself highly gratified by the very obliging manner in which the above resolution of the Insurance Company had been communicated to him.

### OCTOBER, 1801.

On the 23d ultimo, the snow Nancy, commanded by Capt. J. M'Carthy, arrived in Masulipatam Roads from Prince of Wales's Island, which she left on the 22d August; and by accounts which had reached the shore we learn that on the 20th ultimo, about noon, she experienced a dreadful thunder storm, which shivered her main-top-gallant mast, main-top-mast, and main-mast.

Eight of the crew were struck down with the lightning, and two of them very severely wounded, for some seconds vast columns of smoke issued from the main hatch-way, from which it was concluded that the vessel was on fire, but happily on this head their fears were groundless.

Lieutenant Colonel Brunton and Mr. White, Surgeon, being passengers on board, were eye witnesses of the scene.

ous, active, and manly exertions used by Captain M'Carthy, for the preservation of his ship, crew and cargo, in this difficult and trying situation.

On the 4th instant arrived the Ship Admiral Nelson, Capt. Slater, from Bombay.—Passengers, Captain and Mrs. Rees and family.

7th.—On Monday last arrived the Shrewsbury, Capt. R. Campbell, from Calcutta:—Passengers, Captain and Mrs. Charlton, and family,—Miss Ricketts, and Miss Jessup.

EXTRACT, COLUMBO, 17th SEPTEMBER.

“Yesterday arrived here the Hon. Company's Ship Henry Dundas, from England; the Passengers are, Colonel Carleton, four Young Ladies, whose names I have not yet learnt, and ten Gentlemen, for the Civil Departments of this Government. The whole of this valuable Island is in a state of tranquillity, and its prosperity daily increasing.”

*Particulars of the Loss of His Majesty's armed schooner Spitfire, Lieut. Campbell, Commander.*

“The Spitfire was wrecked on a Reef which is off the Southern part of certain African Islands, on the 21st of August 1801, and at 10 minutes past 5 in the morning:—she was then going about 4 Knots under her Foretop sail, and had foundered often during the night, and had no Ground with 20 fathom Line a short time before she struck.”

“On her striking her Masts were immediately cut away to prevent her Oversetting, and soon after she was driven over the Reef into a kind of Sandy Basin, and at low Water her crew were able to walk on shore:—most of her Stores and Provisions were saved.

“On the 27th of August, Lieut. Campbell with four Men, quitted the Islands in a small Boat belonging to the Schooner, with a view of procuring relief from the Seychelle Islands.

“On the 29th about 9 A. M. they saw the principal Island, and arrived there on the 31st at 5 P. M. being in urgent want of Water, of which they had only one Bottle left.

“Lieut. Campbell having landed and procured some Cocoa Nuts, quitted the shore, and soon after saw and went on board of His Majesty's Ship Sybelle in Mahé Roads.

“The African Islands, on which the Spitfire was wrecked, are two in number, very small and low, situated about six leagues to the North of the Bank which surrounds the Amiraute Islands, and were discovered about six Years ago, by some of the small Vessels.

which belong to and navigate in the Seychelle Archipelago; their vegetation consists only of a few Shrubs, generally about four feet high, they abound however in Turtle and Sea-birds, but there is no fresh water, although Wells were dug to the depth of 40 feet.

"Both Islands are nearly covered with the Sea at high spring Tides:—the largest Island lays to the southward, and is joined to the smaller one by a land Bank which is dry at low water spring Tides.

"The whole length of the Islands from South to North is not above 2 miles; they are surrounded by a Reef of Breakers on the East side, but on the West side there is safe and commodious Anchorage in a Bay, formed by the extremes of the Isles, and the Reef which joins them.

#### LATITUDE & LONGITUDE:

The Latitude taken on the South Island is  $4^{\circ} 55'$  South. Longitude by the mean of many observations of Antares & Arcticles, and the Moon is  $54^{\circ} 9' 28''$  East,—Variation  $7^{\circ} 44'$  West: Time of high water, at full & change 9. 59. The Tide rises about 8 feet.

We have great pleasure in laying before our Readers the following letter from Admiral Lord Keith, being an answer to a letter addressed to His Lordship by Mr. Roebuck, on the behalf of the Underwriters of Madras.

AUDACIOUS, *Leighorn Roads,*  
3d April, 1800.

SIR,

I, yesterday, received your letter of 7th August last, acquainting me that the different Insurance Office of Madras had resolved on presenting, to the representative of the late Captain Cooke, of His Majesty's Ship *La Sybille*, a service of Plate, of Fifteen Hundred Pounds value, (which had been originally intended to be offered to himself, had he survived,) as a tribute to the memory of so gallant and amiable a Man; and that the Committee, appointed to carry the resolution of the different Insurance Offices into effect, had directed you to request that I would, in their name, present the Service of Plate on which Captain Cooke's Crest is to be engraved and such an Inscription as I may think most suitable to the subject.

I request, Sir, that you will assure the Gentlemen, who have honored me by their selection for the conveyance of this

tribute of their respect and regard, that it is a task most acceptable to me, and highly gratifying to my feelings, as an Officer, who must view with satisfaction the estimation in which Military merit is held: as a Friend, who cannot fail to be pleased with an active Agency on an occasion so honorable to a private Character that I respected and esteemed: and as the humble servant of those whose confidence has not been limited to the period of my services upon their Coasts, but which has, in this flattering manner, accompanied me into other seas.

In compliance with your desire I have sent to Mr. Chafso the following inscription, to be engraved over the Crest:

*Occidit Nobilis Multis.*

(Crest)

LA FORTE taken —  
EDWARD COOKE, Ob.

} Dates to be inserted.

That I have not been able to determine on one which might have been considered as more appropriate, I trust will not be imputed to any want of consciousness of his merits, (which I have personally witnessed during his service with me) or of my inclination to express, in the best manner that I can, the sense which, I am sure, is entertained of them, by the Gentlemen who have honoured me with this mark of their confidence, on the present occasion.

I feel considerable regret at being unable, in consequence of my absence from Britain, to deliver the Present myself; but, as I am unwilling to delegate the charge, I shall write to Captain Cooke's representative on the subject, and, on my return, take an early opportunity of expressing, in person, the sentiments of respect and esteem which his friends at Madras entertain for his memory.—My best acknowledgements are due to you, Sir, for the polite and flattering manner in which you have conveyed their wishes to me.—I beg your acceptance of them, and that you will believe me to be with great respect,

SIR,  
Your most obedient, much obliged,  
and very faithful Servant,

KEITH.

*Benjamin Reebuck, Esq. Madras.*

## CIVIL APPOINTMENTS.

Mr. Thomas Anstey, Malabar Translator to Government.  
 Mr. George Travers, Deputy Accountant in the Revenue  
 and Commercial Departments.

## B O M B A Y.

*September 18th.*—On Saturday last anchored in the harbour the Honorable Company's Cruiser Rodney, Commodore Edward Stephenson, from Surat, whence she sailed on the 10th instant.—By this opportunity came passengers, the son of Mendi Ali Khan, and suite, consisting of twenty three women and twenty-eight men.

The Sheriff of Juddah's ship from the Red Sea, arrived in Surat roads on the 6th instant, and on the 9th got safe over the bar into the river.

By a recent departure, Captain and Mrs. Rees have proceeded to Madras, where, we understand, Captain Rees will take upon himself the duties of Master Attendant at that settlement;—Mr. Taswell being absent on account of his health.

General Baird's army by the last accounts was embarking at Ginna for Cairo; a mode of conveyance that must be attended with considerably less inconvenience to the troops than marching in such a country in such season.

We find, however, that the passage of the Desert between Cosier and Ginna, was effected without that extreme inconvenience, that from the general idea of the measure, might naturally have been expected.—The judicious arrangement for marching chiefly in the night must have been found highly advantageous.

It is understood that although want of water was one of the chief inconveniences, it was not felt in any extreme degree, notwithstanding great losses were experienced from the Skins provided on the occasion: the intense heat of the climate and consequent dryness of the atmosphere we should conjecture would render it very difficult to keep Skins in order for holding water, as remaining exposed empty for a few hours only would make them unfit for immediate service.

It may also be presumed that the alertness, necessary in military movements, did not afford time for sufficient preparatory seasoning—for it is well known that in this country, a skin, be it ever so good, requires to be filled eight, ten or more days, before it ceases to leak—but it is not so well known that *soaking* them in water will saturate them equally well in less than half the time, and that it is of little moment whether they be soaked in salt or fresh water, provided they be well washed or rinsed before filling with the water to be preserved—remarks that we are here induced to offer, in the wish that they may tend to obviate any similar inconvenience on similar future occasions.

The ample supply of boats provided for our Indian army on the banks of the Nile; from the friendly exertions of the Beys and inhabitants of Upper Egypt, will soon enable our troops with ease to reach Cairo; the current of the Nile being so rapid that it was supposed the voyage, after being fairly embarked, would not take up more than four or five days. All the letters we have had access to from Ginna, speak highly of the fertility of the country, particularly in wheat, great quantities of which are laden annually at Cosier on dingies and dows, for Mocha and Judah.

Mr. St. John Fancourt, formerly a Lieutenant in his Majesty's 77th regiment, stationed at this presidency, has been promoted to the rank of Lieutenant Colonel in his Majesty's 69th regiment; and Brevet Lieutenant Colonel Robert Bell, to be Lieutenant Colonel of his Majesty's 86th Regiment.

*September 30th.*—On Saturday evening last anchored in the Harbour His Majesty's hired armed ship the *Babelmandel*, from *Buffah*:

By the *Babelmandel* came passengers, Benjamin Philipps, Esq. Surgeon on this establishment; and Mr. James Watkins, of the Honorable Company's Marine.

The principal Merchants of Bombay have made the following handsome and well merited acknowledgement to

Capt. Selby, of the Hon. Company's Marine of this establishment, in return for his judicious conduct while Commodore on the Surat Station.

TO CAPTAIN WILLIAM SELBY

SIR,

The attention paid by you to the protection of trade between this and the Northern Ports, and the unexampled Security that has been experienced during the last season by your judicious arrangement to prevent the Piracies heretofore committed, merit our particular thanks, which we request you will accept, for the essential service thereby rendered to our Commerce, which has been uninterrupted by any capture since these arrangements have taken place.

We further beg your acceptance of a Sword, as a small token of our sense of the meritorious discharge of the duties of your Station.

We have the honor to be,

SIR,

Your most obedient Servants,

Bruce, Fawcett, & Co. Smith, Forbes, & Co. Alexander Adamson, Miguel D'Limma e Souza, Pestanjee Bomanjee, Ramdals Manordass, Ardefer Dady, Dorabjee Rustomjee, Patell, Nasservanjee Monackjee, Hormasjee Bomanjee, Sorabjee Muncherjee.

To which Capt. Selby has returned the following answer: To Messrs Bruce, Fawcett, & Co. Messrs. Smith, Forbes, & Co. Alexander Adamson, Esq. Miguel D'Limma e Souza, Esq. Pestanjee Bomanjee, Ramdals Manordass, Ardefer Dady, Dorabjee Rustomjee, Patell, Nasservanjee Monackjee, Hormasjee Bomanjee, and Sorabjee Muncherjee.

GENTLEMEN,

I am most highly flattered by your favourable sentiments of my conduct, as expressed in so public and handsome a manner in the letter I have been honored with from you under date the 25th ultimo, and am particularly happy that I have been placed in such a situation as to make my exertions useful. I am likewise much gratified by the Sword you have offered me on the occasion, which I thankfully accept as a token of your approbation.

I have the honour to be,

GENTLEMEN,

Your very obedient and humble servant,  
(Signed) WILLIAM SELBY.

Mr. Charles Howard, late Purser of *La Forte*, to be Purser of the *Fox*.

*October 28th.*—On Sunday arrived the ship *Milford*, Capt. Henderson, from Bombay, whence she sailed on the 29th ult.

On his passage to this port, Captain Henderson fell in with and spoke H. M. ship *Leopard*, Capt. Surridge, and on the 21st of this month saw the *Mornington* cruizer, in chase of a ship Privateer.

It was a fortunate circumstance that the *Mornington*, so opportunely hove in sight, otherwise, it is more than probable that both the *Milford* and the *Georgiana* would have been captured.

Another rover is in the Bay, named the *Eugenie*, well known last year, under the denomination of the *Diana*, she has commenced her depredations on our trade, by the capture of the new ship *Orient*, from Chittagong to Madras, on the 2d instant; and of the *Friendship*, Captain Tapson, on the 11th; from the Coast bound to Fort St. George, with a cargo of Sugar, on account of the Honorable Company.

The crew, passengers, &c. of these two captured ships, were landed at Narfipore, on the 11th instant.

We are concerned to state that off point Guadawar, this privateer took the *Nancy Gibbs*, Captain Peters, bound from hence to Madras, and landed the officers and crew at Soonapour, on the 17th instant.

On Friday arrived the new ship *Adamant*, Captain E. C. Kemp, from Rangoon, on the 5th instant.

The snow *Generous Friends*, Captain White, has also arrived from the same place, and states the arrival there of the snow *Malesia*, Captain Grant, from this port.—Timber of every sort and quality excessively dear.

The H. C. ship the *Henry Dundas*, Captain Carruthers, arrived on Saturday last at Diamond Harbour, from Portsmouth on the 23d April, and Colombo on the 21 instant.

The following Ladies and Gentlemen have come passengers on this ship, viz.

Mrs. Carleton, Mrs. Griffin, Miss Carruthers, Miss A. Boileau, Miss M. Boileau, Miss Merat, Miss S. Pattle, Colonels Carleton and Garstin, —Lieutenant S. M. Boileau, —Messrs. Plowden and Impey, Witters, —Messrs. Arrow, Isidore, Young, Plumtree, Montgomerie, Hay, Bacon, Cooper, Braddon, Gilbert, Richardson, Sickville, Tylden, and Tickle, Cadets, —Messrs. Rees and Beck, —85 Recruits for the Company, and 14 for 11. M. 29th Light Dragoons.

Oct. 30th. —Yesterday accounts were received in town of the arrival of the American ship *Eclipse*, last from Madras. We understand she spoke the schooner privateer *Eugenie*. —Lieutenant Douglas came passenger on this vessel, from Madras.

Letters received in town from the Cape of Good Hope, by the *Porcher*, mention the arrival of the *Dart*, from St.

Helena, bringing accounts of the safe arrival at that Island of the H. C. ships *Bengal*, Captain Cuming, *Lady Burges*, Captain Swinton, and *Lady Jane Dundas*, The Honorable Captain Lindsay, on the 6th June,—having sailed from hence on the 24th February.

They were to proceed in a few days for England, under convoy of one of His Majesty's ships then laying there.

We have been obligingly favoured with the following Extract for publication :

"On the morning of the 21st instant, a sail was seen from the mast head of the *Mornington* to the Southward, coming down with a crowd of canvas, having every thing prepared, sent the people to breakfast—kept our wind to the Westward and W. S. and soon found her to be a Cruiser—as soon as she was hull up, she fired a gun to Leeward, giving a broad sheet to the Eastward, but as we kept on, she wore round and stood for us, keeping us a little abast her beam, she then wore to the Eastward, we tacked, she then wore to the Westward and stood for us, but soon hauled her wind again, we then tacked and commenced chasing, being about 1½ gun shot on her Lee quarter.

The enemy finding, she could not escape while standing to the Westward, tacked and stood to the Eastward, steering E. S. E. we fired our weather guns at her, some of which went over her, and one fell under her main chains, but did her no damage—we were about, nearly as soon as the privateer, but whilst sailing free, she went at least three feet to our two.

"She is a beautiful little vessel, Cutter hull, with a long projecting head, ship rigged, 18 guns, red top poles over her guns, very taunt and square rigged, new sail, a boat over her stern, a red vane at the main made like a Pendant, Royals bucketting on the top gallant yards, sets very low in the water, and much by the stern.

"Finding she outtailed us so much, we bore up for the protection of the trade in company. The privateer's staysails are all cut with little or no luff, being nearly triangular."

The *Mornington* cruiser, spoke Captain Watt, in the *Har- naby*, all well on the 13th instant,

We have been obligingly favoured with the following particulars of the loss of the ship Dove, Captain Duffin.

"The Dove left Soosoo, the 21st of September, and nothing material occurred until her arrival off the Little Andamans, when she experienced continual, hard squalls, attended with rain, that caused a very cross and high Sea, and made the ship leaky, as to oblige us to keep one Pump constantly going, by which means we found that the water did not gain on us, tho' the bad weather continued, till we made the land in the Bay of Bengal, and not having had an opportunity of taking an observation but ~~since~~ since we left the Little Andamans, found ourselves driven a great deal to the Eastward, with a strong Easterly current prevailing all across the Bay.—On the 5th instant, being then in Lat. per account 20, 50 N. and Long. East 90, 30, struck soundings in 32 fathoms, at midnight.—At 1 A. M. hove to under close reefed topsails in 13 fathoms water, it blowing very hard and the sea running high; we however found that the Pumps did not gain upon us, tho' the wind and sea were increasing, and at 8 A. M. there was a most tremendous sea running and continually breaking over us, also found the ship to make considerable water and the pumps gaining upon us, and not being able to work more than one pump, the other being choked with pepper;—at 9 A. M. an immense sea unshipped the companion and poured a great quantity of water down the hatchway—Wind and sea still increasing, and carrying a press of sail to the Westward to get into Pilot's water.—At 10 A. M. the wind shifted to the W. S. W. with constant hard gales, and by this sudden shift of wind, such an high Sea was occasioned as I had never before beheld, and put us to the necessity of wearing the ship to the Southward, and still the Sea continually breaking over us; and from the violent motion of the Sea, the ship sprung a very alarming leak forward.—At 11 A. M. found 2½ feet of water in the hold, the leak still gaining on us very fast; at 10 minutes before P. M. wore ship to the Southward and hove to with an intention of baling out the larboard Pump well, to clear her if possible, having then 3½ feet of water in her, got the Pump up, but the Sea still breaking over her, obliged us to put it down again, as more water went down the Pump hold than we could bale out, notwithstanding a Tarpaulin was laid on to keep out the water, but the Sea was too powerful for it to be of any advantage to us; thus unfortunately situated, and the leak gaining on us, the ship lowering considerably forward, and not rising to the Sea, I had no alternative left but to bear up right before the Sea, and endeavour to lighten the ship by throwing the Cargo overboard, when to our astonishment in attempting to wear her, she would not answer the helm; we hove the Guns and an Iron Caboos overboard and cut away an heavy Anchor from her Bows, which had the desired effect; she wore round, and we got

before the wind, having then  $5\frac{1}{2}$  feet in the hold and the ship at least 3 feet more by the Head than the Stern; the wind now shifted to the S. S. W.—we altered N. and N. N. E. right in for the land, as we now found it utterly impossible to save the ship, the leak continuing to gain on us.—At 2 P. M. saw the land from N. W. to N. E. and stood direct for it, to save the Crew; as we must have all perished had she gone down before we made the land, owing to such an immense high Sea running, so as to prevent any boat from landing. Nearing the land, we shoaled our water from 7 fathoms to  $\frac{1}{2}$  less 3.—At 3 P. M. the wind and Sea abating very much, we were within two or three miles of the shore, and came to in 4 fathoms, being about low water and the Sea moderate, enabled us to take off the Hatches and lighten the ship by throwing the Cargo overboard, having  $6\frac{1}{2}$  feet water in the hold; we took down the Top-gallant Yards and Masts, it still blowing hard; but the water not gaining on us, by midnight, we had cleared the Pepper from between-decks, which lightened her forward, and she appeared more lively to the Sea, and we began to have hopes of saving her; but alas! they were but transitory, for the water that had lodged forward began by the ship being by the Stern to find its way to the Pump well, and at 2 A. M. of the 7th instant, she had 8 feet water in the hold;—at 4 A. M. the water had gained so much on her, that we could fill the Buckets out of the Pump well, from the lower deck, without the assistance of a lay-yard to them; and not being able to keep her situation any longer a secret from the people, they were struck with a general terror and consternation; and at day light requested to get the long boat out to save themselves, which was accordingly done, and tho' all possible caution was used not to hurt the boat, we unfortunately gave a hole in her bottom on one of the stumps of the timbers on the ship's gun-wale, however we soon nailed a piece of Canvas over it, and lowered it down, when before we could clear her of the tackles, she had stowed her starboard side very much, against the ship—the water now was up to the lower deck, and I saw it quite impossible to save her,—a head of us appeared round a point of land to the N. E. a fine smooth Bay under the lee of the Island, we were at an anchor off, my people being now in despair and continually crying to *Allah*, and seeing no chance of the ship being saved, I cut the Cable, made sail, and run in round the point alluded to, the water being now above the upper deck; but having very smooth water, and the ship setting down fast, her fore and main chains being under water, at 7 A. M. she went down in 16 feet:—we then hauled in the long boat and ten of us went on shore in her, taking a few shifts of clothes, a bag of rice, about 6 lb of biscuit, half a dozen of maderas, &c. &c.—We left the whale boat for the rest of the crew to come ashore and promised to send the boat as soon as we

found a place to land, but finding some difficulty in obtaining the same, finding the shore a complete jungle; however at last we found a fine sandy beach; here we landed, but being ebb tide and the boat leaky, we were obliged to retain it till the tide made, during this time the people on board had got the whale boat stowed, and those that were left on board except the ad mate, gunner, and two lascars, made rafts with the spars and came on shore safe, and as soon as the tide made sufficiently to float the long boat, we went off to the wreck, and fortunately procured another bag of rice, and some light sails, and at 10 P. M. the long boat arrived safe and not a man missing."

The Admiral Ramet, Captain Smith, from this port, and Betsey Brig, Mafjuerier, were lying at Sissoo when the Dove left that place.—The Mary, Captain Sparrow, also from this port, had touched there and sailed for Padang

His remains were interred with Military honours, and were attended by most of the Gentlemen of the Settlement, and by all those belonging to the profession, of which Mr. Constable has been for many years a respectable member.

The pall was borne by Colonels Kerr and Page, in front; Captain Gorman and Mr. Hurde, in the center; and Colonel Carnac, and Mr. Adamson, in the rear.

At the request of a correspondent we insert the following short sketch of the late Mr. Constable.

"The decease of that late worthy and respectable character, Mr. Constable, has afforded universal concern to every person acquainted with a life which has been constantly distinguished by an uniform support of the most amiable qualities.

"His practice of sympathy and humanity kept pace with his disposition to benevolence, and to a great and clear understanding, he united a firm and capacious mind.

"But the merits of Mr. Constable as a sound Lawyer and an industrious practitioner, were highly eminent.

"As Company's Solicitor he was peculiarly qualified for the execution of his duty, having acquired an extensive knowledge of the geography of the Country, and the Laws and Customs of the Natives.

"He was an elegant classical scholar, and remarkable for the mildness and urbanity of his manners.—His moderation and complacency in his professional avocations, were as conspicuous as his amiable and endearing disposition in private life.—He arrived in this country at the age of sixteen, and after upwards of seven and twenty years residence in Bombay, he departed life, with a character for honor and honesty truly unimpeached, and which even enemies, did he possess any, must confess to be unpotted.—He had a fine feeling soul, a quick perception of others' woes.—And on that day of final reckoning, when mortal frailties shall meet the all piercing eye of judicial perfection, he will receive the reward of his virtue—Eternal Happiness.

"Had Mr. Constable attended as minutely to the care of his pecuniary interest, as he has so indefatigably to public concerns, he might have been happy in a handsome independence, and closed the evening of his days retired from an active life, in a manner worthy of himself."

Lambert, Ross and Company, who are Agents for the Society; they resolved to present the Mother of Mr. Faulkner, (late Second Officer of the ship *Armenia*, Captain Meek, and killed last year, while bravely defending that ship, when engaged by the French Privateer *La Clarisse*), with a donation of One Hundred Pounds Sterling,—and to Mr. John Lorimer, of the same ship, who likewise distinguished himself in her defence and was severely wounded, Fifty Pounds Sterling.

Extract of a letter from Captain Down, late of the Bellona, dated Isle of France, Sept. 9, 1801.

"It is with the greatest concern I have to inform you of the unfortunate capture of the Bellona, by the French national frigate la Chiffonne, of 38 guns, and 290 men, on the 16th of June last, in the latitude of 33° 50' S. Longitude 34° East, in a violent gale of wind;—in the evening it moderated, when he sent the second Lieutenant and 18 men on board, and took possession on the following morning;—both ships going at the rate of six knots with a very high sea; she ran on board of the Bellona, and carried away her fore-mast, bowsprit, main and mizen-top-gallant-mast. Judging this a favorable opportunity, I took the ship from the Frenchmen, and made all sail to the southward; but from her soon getting clear of the wreck and being an amazing fast sailer, after four hours chase he came up with me and took me the second time; and God knows how long I may remain at this place."

We are much concerned to state the capture of the ship *Clarisse*, Captain James, on the 11th ultimo, by a French privateer named *L'Hyronnelle*, commanded by M. Le Mème. —We have been obligingly favoured with the perusal of a few letters, from which we have made the following Extracts.

Extract of a letter from Captain Charles James, late Commander of the Ship Clarisse, dated from Burwah, (50 miles South of Ganjam,) 8 P. M. 29th October, 1801.

"So long a period being elapsed since I departed from Munfur-cottah, and no account of me, many people will, no doubt, be induced to conclude that I have been either lost or taken:—The latter, I am sorry to say, has been the case, having been captured by the *L'Hyronnelle* privateer on the 11th instant, and until this period detained by these marauders a close prisoner with many others. The fellow who took me is a Captain Le Mème, who was in February last released from Bombay, where he had received every civility and attention, for which treatment it might be expected I should have had some indulgence, but quite the reverse:—after he had come up with me, and expending some of his shot, I was compelled to surrender.—I was sent on board the privateer with Mr. Dunn, (a passenger) and in my absence I was most unmercifully plundered; they took my bed, and refused to give me even a palampore to cover me."

From the same, dated Burwah, 30th October, 1801.

"I wrote you a few lines last night, when I was so wholly ingrossed on my own misfortunes, that I forgot those of others;—to inform you of your loss is needless, as you will be, of course, acquainted with it. The privateer is again gone up for the Sand Heads—we were nearly re-taken on the 23d by the frigate, but she gave over the chase and went back."

N. B. [Captain James has not, in any letter, mentioned what frigate chased him on the 23d, as above alluded to, but we suppose it might have been the *Mornington*, as she was in pursuit of a vessel about that period.]

Copy of a letter from Mr. Conductor Dunn, on board the Clarisse, Captain James, dated Burwah, 29th October, 1801.

"I am sorry to inform you that we had the misfortune to be taken on the 11th instant, by the *Hyronnelle* privateer, Captain Le Mème:—it was not in my power to save any of your effects, as we were completely plundered;—I have even lost my cloaths.—I forbear mentioning particulars, as Captain James is writing to you, and will give you every information."

We are concerned to state, in addition to the captures above mentioned, the losses of the *Bellisarius* from Madras, and of the *Ravenworth* from Ganjam, both taken by L'Eu-genie privateer. The *Ravenworth* after being plundered, was given up to the Captain, on condition of his returning immediately to Ganjam, without proceeding to any other port.

The *Sophia* brig, Captain Hayes, was also captured by the above privateer, on the 25th ultimo, and the commander of her sent to the Isle of France.

On Thursday the *Ann and Eltz* bath, Captain T. Haigs, arrived in the river from Bombay, whence she sailed the 21st of September. The *Milford* is the only vessel Captain Haigs saw, during the passage.

By advices from the Southward, it appears, Colonel Agnew, met with a favorable opportunity of attacking the refractory Polygars, and totally defeated them: killing vast numbers, and dispersing the remainder.

Extract of a letter from Goomsur, Oahla, 23.

"Yesterday being the Fifth Full Moon, since the accession of His Excellency Maha Raje Dinkyahbunge to the Musnud of this Province, was celebrated with uncommon pomp and grandeur, an elegant entertainment was provided for the British Officers here, consisting of mutton and all kinds of animal food (except beef, and fish) with that delicious variety of fruit, which this truly delightful province produces. His Excellency in person, presided at the festive board, assisted by his maternal uncle Beckabunge, Bhavanie, Bhavertah and other Chiefs; the evening concluded with an elegant display of fireworks, and a nautch in the most superior style of pre-eminence I ever witnessed: at intervals Persian Odes were recited; highly expressive of that happy state of peace, and plenty, which now pervades these lately hostile Fields."

November 11th.—On Friday afternoon, arrived in town, Mr. Forth, owner of a small vessel named the *Shree-Angelo*, from Rangoon to this port, with a cargo of Timber,—having experienced much bad weather in the early part of last month, she was driven far to the Eastward with the loss of three anchors. The people on board ran her upon a mud-bank and made her fast by ropes to the shore. Mr. Forth, after a passage of near thirty days thro' the Sunderbunds, reached Calcutta, to procure the requisites for her relief.

By a private letter received from a Correspondent, dated Mocha, the 15th September, we are sorry to announce the loss of the Fuzzy Allum, Captain Baird, from this port.—The letter mentions that she was wrecked off Cape Orfin on the coast of Africa.

We are happy to learn from our Correspondent at Chittagong, that a considerable part of the Teak cargo of the ship Sir George Younge, lately wrecked off the Island of Mascall, has been fortunately recovered through the vigilance and activity of Mr. Molony, the Judge and Magistrate of the district; whose unremitting exertions on that occasion, deserve the highest applause, and entitle him to the particular thanks of the Insurance Company, at this port.

Extract of a letter from Ganjam, dated 2d Nov.

"About an hour ago anchored in these roads the brig *Ravenfworth*, Capt. Holmes. She sailed from hence for Calcutta many days since, and has twice been as far as the latitude of Point Palmiras, and as often lost ground to the southward—On the 30th ult. she was captured by the French privateer *Engene* nearly in this Latitude—After having been plundered of whatever the enemy thought worth carrying off, she was released and given up to Capt. Holmes. Lieutenants Arbuthnot and Duffin were passengers on board the *Ravenfworth*, proceeding to Bengal for their health: they are this moment landed, and report that, every thing considered, they were treated well, being allowed to keep possession of their clothes, &c. This is the fourth capture made by the *Engene*; she is supposed to be

now hovering about the latitude of this place, and not far off shore: this must, however, be conjecture, although not improbable considering the season of the year."

On the 10th instant, the Union Colour was presented to the second European regiment, at Berhampore, by Lieut. Colonel Henry White, who addressed the officers and soldiers, on the occasion, in the following neat and appropriate speech.

"Soldiers!

"It has fallen to my lot to discharge the pleasing and honorable duty of presenting to the second European regiment this Imperial Standard.

"The great and auspicious event which this occasion naturally recalls to your recollection must awaken the most grateful emotions in the bosom of every Briton who rejoices in the glory of his King, the prosperity of his Country, or who justly appreciates its Constitution and Government. I cordially participate with you in these sentiments, and well know their influence on the minds of British soldiers. And now, while committing these Colours to your care, I fondly and confidently anticipate you will defend and maintain them untarnished, not less by your valour against their enemies in war, than by your fidelity, honor, justice, and good conduct, to all who claim or ought to possess their protection."

Nov. 17th.—The Ganges, Captain Thomas Scott, proceeding to Columbo, going down the river last week, unfortunately struck on the James and Mary, under full sail, and was totally lost; we are happy, however, to say, that no lives were lost; but not a particle of cargo was saved, nor scarcely a vestige of the ship remained; fortunately for the owner, he was insured.

Several other ships in going down the river lately, have grounded, but without suffering any material injury; the frequent occurrence of which at this season is attributed to the shifting of the sands, occasioned by the unusual strong freshes which prevailed in the River during the last rains.

The Albion and Cartier are arrived at Madras from Am-

boyna, they bring the melancholy particulars of the wreck of the *Success Galley*, Captain Binny; it appears that the *Success Galley*, was proceeding to Amboyne from some of the neighbouring Islands, and was in sight of it, when a heavy gale of wind set in, which tore her sails to pieces; the *Success Galley* anchored, but parting she drove into the surf and was literally dashed to pieces; Mr. Glass, First Officer, and about thirteen *Lascars*, alone saved.

The following extract of a letter, dated Mocha, 15th September, is the only account yet received of the loss of the ship *Fuzzy Allum*. We are anxious to hear further particulars of this unfortunate accident.

"The ship *Fuzzy Allum* was lost on the 7th June, at 10 P. M. in the latitude of about 10 10 North on the Coast of Africa. Capt. Baird, the 2d and 3d Officers, I am afraid are no more. I travelled over the country and was taken off by a Bombay ship, on the 19th August, and arrived here on the 9th September."

Letters from Port Jackson of the 11th March, received by the Trimmer, Capt. Foggo, mention that the most flourishing settlement on the banks of the Hawkesbury, had suffered much by a flood, the river having risen more than forty feet perpendicular. The rain continued incessant for ten days.

On the 12th of February, about half past eleven o'clock at night, a very severe shock of an earthquake was felt. It lasted about one minute; but except shaking some plaster off the houses, no accounts of damage occasioned by it had been received at the date of the letter.

A great number of United Irishmen had lately arrived. The *Anne* transport, from England, had landed one hundred and twenty-seven persons of this description, most of whom had been found guilty of murder. The great increase of those desperadoes had caused serious alarm in the colony. They had been detected in making pikes, and laying plans for overthrowing the established authority. At Norfolk Island they had nearly carried their point; but were timely discovered, and two of the insurgents suffered death.

A vessel called the Lady Nelson, with sliding keels, had been dispatched to the southward, to survey that part of Bass's Straights, which had not, till then, been ascertained.

This colony promises to yield a fund of entertainment to the lovers of natural history. Many non-descript plants have been discovered, and two new quadrupeds. One called by the natives *Whombott*, is found to the southward, near Bass's Straights, in lat. from 38° to 40° . It also frequents the Islands adjacent to those Straights. It burrows in the ground. In colour, it nearly resembles a Fox, and approaches in form to a Bear. It has the pouch of the Opossum, but differs in every other respect, from that class of animals. The Pelvis, with two bones belonging to the false belly, is the very same as that described by Mr. Home, in his observations on the Kangaroo, published in the Philosophical Transactions: but it differs from that animal, by having only two nipples in the false belly. The teeth are two incisors in each jaw: no canine teeth: grinders, four double and one single in each jaw. Their flesh is good to eat. Eight of them had been brought alive to Sidney Cove, weighing from 17 to 20 pounds each. The dimensions of one of them were as follows.

	Ft.	In.
Length from the point of the nose to the end of the tail,	2	$2\frac{1}{2}$
Length of the tail, (which is without hair,) -	7	$1\frac{1}{4}$
Head, -	—	6
Fore legs, -	—	5
Hind legs, -	—	5
Circumference of the body across the shoulders, -	1	7
behind, -	1	7
of the head, -	1	3
Distance between the ears, -	—	6

In the mountains, living under rocks, is a distinct species, of a different colour, and nearly three times the size of the last.

The second animal, called by the natives *Buaboo*, was only discovered in the late overflowing of the Hawkesbury. It is about the size of an Ichneumon, and is said to live on fish; so that it is seldom seen, except when there are freshes in the river.

Extract of a letter dated Ternate, July 7, 1801.

"I have the pleasure to inform you that the reduction of this important place was achieved on the 21st ult. The works consisted of three forts, and several batteries, mounting 100 cannon of different calibres. We also captured at sea the whole of the enemy's annual supply from Batavia, with 37,500 dollars in specie, and various articles to nearly the same amount. The Honorable Company's ship Swift, commanded by Captain John Hayes, made three very close and spirited attacks on Fort Orange and the Batteries ere they surrendered:—much praise indeed is due to the little Squadron in general, and to every officer belonging to it."

Extract of a letter from Mocha, dated the 16th September, 1801.

"I avail myself of the departure of the ship Phoenix, Captain Moffat, who sails for Bombay tomorrow, to give you all the news in this quarter; Lieutenant Colonel Ford, the officers and detachment of his Majesty's 80th regiment that sailed from Goa in the Portuguese frigate that was lost, sailed from hence yesterday on board the Cecelia for Suez. I suppose this you must have heard of the loss of the ship Fazy Allum, she struck off Cape Orfoy on the 7th of June last, and shortly after went to pieces, the chief officer was picked up and brought here after having been two months on shore, and almost starved to death.

"I am sorry to inform you that the commander Captain Baird, and almost all the crew, were either drowned, or put to death by the savages, after getting on shore from the wreck; the only military officer on board the Fazy Allum, was Lieutenant Dundas, of the 80th regiment, he poor fellow was unfortunately drowned in attempting to get on shore."

Nov. 16th.—On Tuesday, was held at Carlier and Scornec's Rooms, the first Subscription Assembly of the season, which was graced by the attendance of the greatest part of the beauty and fashion of the settlement. The Dance was kept up with great spirit till a late, or rather an early hour, when the Company retired apparently satisfied with the evening's entertainment.

Nov. 21st.—By advices received in town on Thursday morning, we learn, that the snow Fancy, Captain Gilbraith, from Bufforah, had arrived at Bombay on the 27th ultimo, bringing official accounts of the fall of Alexandria; which was announced by a royal salute on the 28th at sunrise.

This event took place on the 1st September; the despatches from that quarter are dated the 5th, and preparations were then making for removing the enemy out of Egypt. Our troops were to take possession on the 12th.

We understand the foregoing is the substance of the public advices. Private letters add that the British army had advanced their approaches to within pistol shot of the outworks of the place before the garrison surrendered.

Sir Sidney Smith had sailed for England in a frigate, with General Sir J. Hutchinson's despatches on the occasion, and it was expected Lord Keith would proceed to Malta.

All the enemy's ships and stores in the inner harbour of Alexandria had fallen into the hands of the captors.—The French carry nothing away with them but what is strictly private property.

General Menou is said to be either insane, or affects the demeanor and conversation of a person in that unhappy state.

We have much satisfaction in announcing the arrival, at Diamond Harbour, of the French Privateer *L'Eugene*, captured by the Hon. Company's cruiser, *Mornington*, Capt. Henry Frost. Lieutenant Hamilton, 1st of the *Mornington*, came in charge of the prize. The following are the particulars we have been obligingly favored with.

The *Mornington* Cruiser, on the morning of the 9th inst. latitude $21^{\circ} 24'$, about 9 leagues Eastward of Saugor Sand, saw the *Eugene* in the S. E. Quarter, 9 miles distance. The *Mornington* disguised herself so much as to induce the *Eugene* to chase her, and at 7 P. M. to come close under her stern, she then hailed the *Mornington*, desiring her to back her main-top sail and send a boat on board.—The *Mornington* shortened sail, squared after yards, and put her helm a-weather.—The *Eugene* immediately commenced a brisk fire from her great guns, and a heavy discharge of musquetry from below and aloft, at the same time making sail, and received the whole of two broadsides from the *Mornington* before she shot a head of her. The *Mornington* chased her, and after about 4 hours, (during which the *Eugene*

threw all her guns, excepting one, over board, cut away her anchors, and sawed her gunwales through, &c.) was again within hail of her :—the *Eugene*, after a few shot, then surrendered.

She was formerly called the *Diana*, commanded by Citizen Cautance;—left the Isle of France on the 12th September, and has captured the ship *Orient*, brig *Friendship*, and ship *Nancy Grab*. Pierced for 18 guns, and sails uncommonly well—mounted 6 carriage guns, with a tier of swivels and blunderbusses round her gunwale. Her crew 83 Europeans, chosen from the crews of *La Confiance* and *La Nympe*.

The *Victor* sloop of war, commanded by Capt. Collier, (formerly in the *Suffolk's* tender in this country), sunk after an obstinate defence, at Mahé, the National corvette *La Fleche*, of 22 guns, and 145 men, quite a new vessel—4 months from France, with 37 of the conspirators on board, who attempted the life of the Chief-Consul, besides 20 of the crew of *La Chiffonne*, who escaped on shore when the ship surrendered to *La Sybille*.

The *Victor* belongs to Sir Home Popham's Squadron, and considerably inferior in force to her opponent—her being sent off the *Sechelles*, and the success of the measure, is another instance of the zeal manifested by Sir Home, for the protection and prosperity of the trade of India.

La Fleche was a remarkably fast sailer, and doubtless, had she escaped the vigilance of Captain Collier, who had chased her a few days before, would have committed considerable depredation on our trade.

A brig, with stores, a prize to the *Victor* sloop, is also arrived in the river. We understand the *Victor* sloop sunk another Corvette at the Isle of Mahé, named the *Arrow*.

The following are, we understand, the particulars of the action between H. M. sloop of war the *Victor* and the National Corvette *La Fleche*.

The *Victor* fell in with *La Fleche* on the 27th of August, when, after a smart action of about an hour, the latter sheered off—The rigging of the former was so cut that it was impossible to give chase; but from the course the enemy was

steering, Capt. Collier judged her to be destined for the Mahé Islands, whither he accordingly shaped his course—On the 4th of September, towards dusk, the Victor arrived off the Islands, and seeing a ship at anchor close in shore, Capt. Collier concluded it to be his antagonist; but, to avoid the danger of an intricate channel, abounding with sunken coral reefs, he deferred an attack till the morning, when a boat was sent off to sound, which having effected, without any loss, under the fire of La Fleche, the Victor was towed in so as to bring her carronades to bear—A tremendous fire now commenced from both ships, which lasted for about three hours, when La Fleche was observed to be sinking and on fire—Captain Collier immediately hoisted out his boats to her assistance, and the fire was soon extinguished; but unfortunately the cable of La Fleche having been burnt, she was driven by the current on a coral rock, and totally lost.

CALCUTTA GAZETTE EXTRAORDINARY,

Company in perpetual Sovereignty, certain Portions of His Excellency the Vizier's Territorial possessions, yielding an Annual Revenue of One Crore and Thirty-five Lacs of Rupees; in consideration of the Subsidy hitherto payable to the Company by the Vizier:

Ordered, that a Royal Salute be fired and Extra Batta served to the Troops at Fort William, and at all the Garisons and Stations of the Army in honor of this event.

By Order of the Honourable the Vice President in Council,
C. R. CROMMELIN,
Act. Chief Sec. to Govr.

November 25th.—On Saturday last, was launched at Howrah, from the yard of *Messrs. Archer and Smith*, a new Ship of between 7 and 800 tons burthen, named the *Stirling Castle*. This Ship is justly admired both for beauty and strength of form, and is certainly equal, perhaps superior, to any merchantman heretofore built in India. The large supplies of Teak Timber, which arrived while she was on the Stocks, presented unusual advantages in the selection of her materials; and these have been employed with such skill and ability, that whether considered with respect to model, with respect to materials, construction, or workmanship, the *Stirling Castle* will do full credit to the Character of Bengal Naval Architecture.

Yesterday arrived at the presidency in a Pattamar boat:

from Mangulore, Lieutenant Colonel George William Mignan, his lady, and family.

Oct. 24th — On Tuesday evening anchored in the harbour the Hon. Company's ship *Fort William*, Capt. Bowlderson, from Surat, Capt. Drummond, of this establishment, and two Misses Drummond; C. R. Wren, Esq. Lieut. Dickenson, of the engineers, and Lieutenant Marton and Esq. Allison, of His Majesty's 86th regiment, came passengers on the *Fort William*.

On Wednesday last, the Bombay Fencibles were inspected by the Honorable the Governor, who has been pleased in the Presidency Orders of the 22d inst. to express his entire satisfaction at the appearance and performance of that fine Corps.

On Thursday last, was launched from the Dock yard at Mazagón, a beautiful Brig, for the service of the Hon'ble Company's Marine on this establishment. She was named the *Ternate*; and is commanded by Capt. Thomas Dobinson. The *Ternate* is to mount fourteen 24-pounder carronades, and a brass 12-pounder in the cabin.

October 31st. — On Monday last Philip Dundas, Esq. Superintendent of the Hon'ble Company's Marine, arrived in the Company's Yatch, from Surat. We understand that the Hon'ble, the Government in Council has been pleased to appoint James Fisher, Esq. to be Deputy Superintendent of Police for the Town and Island of Bombay.

Letters from Surat mention that as Captain and Mrs. Munn were crossing the bar of the river Tappi in an armed boat for the presidency, she unfortunately struck, and received so much damage as to oblige them to put back in great distress.

Advises received from Peshaweer state, that Zemaun Shaw only survived the operation of having his eyes put out two days, when he expired in great agony.

We understand that Scindia has given a serious defeat to Jesswant Row Holkar, and taken about twenty of his Guns, but this affair does not seem to have been decisive, as Holkar.

had only retreated about three cofs from the field of battle. Colonel Filose, the Commander of one of Scindia's Brigades, has we hear put an end to his life, but the cause is yet unknown. Ho kar had completely gutted Ougien, having torn up every floor in the City and got into his possession it is said immense riches by that means.

PRESIDENCY ORDERS.

The Hon'ble the Governor embraces with pleasure, the opportunity offered to him, of expressing the great satisfaction he experienced from personally observing, at the inspection of yesterday evening, the very forward state of discipline, martial appearance, and steady order under Arms, of the Hon'ble Company's Corps of Fencible Infantry.

The degree of perfection to which this Corps is now brought, reflects on its Officers the highest Credit, and the Governor requests that Colonel Carnac in particular, the other Field Officers, Regulating Officer, Captains and Subalterns of the Corps, will accept his best thanks for Services thus voluntarily contributed, as useful to the public, as honorable to themselves.

The Governor assures the Colonel and Officers of the Fencible Corps, that it will afford him peculiar pleasure to bring their Merits to the Notice of the Hon'ble the Court of Directors. The Zeal and Readiness they have displayed in attaining a competent knowledge of their Military Duty—and the accuracy with which that Duty is now executed, entitle them not only to individual applause, but to the approbation of their Country.

By Order of the Honorable the
Governor in Council,

ROBERT RICKARDS.

Sec. to Government.

The following Copy of a Letter from Sir HOME POPHAM, K. M. Captain of His Majesty's Ship *Romney*, &c. &c. &c. enclosing a Copy of a Letter from Captain G. R. COLLIER, Commander of His Majesty's Sloop *Victor*, is published by Order of the Honorable the Vice President in Council.

TO THE HONORABLE G. H. BARLOW,
Vice President, &c. &c.

SIR,

I have much pleasure in transmitting you a copy of Captain Collier's letter of the 10th September, giving a very detailed account of his sinking the French National Ship *La Fleche*, of 22 guns, and 170 men.

The result of Captain Collier's unremitting perseverance under every trying circumstance, and his determined conduct in warping the *Victor* into Mahé harbour is likely to be of material service to the commerce of India, as *La Fleche* was unquestionably intended to cruise in the Bay of Bengal.

I have the honor to be Sir,

Your most obedient humble servant,

(Signed) HOME POPHAM.

Calcutta, Nov. 12, 1801.

*His Majesty's Sloop Victor, Mahé
Road, September 10, 1801.*

SIR,

The extreme sickly state of the crew of his Majesty's Sloop under my command after leaving the Red Sea, induced me to put into the Island Deigo Garcia: after procuring a large supply of turtle and good water, I left that harbour on the

27th of August, and proceeded on the execution of the particular service pointed out in your orders of the 22d July; and, on the 2d instant, in sight of these Islands, his Majesty's Sloop fell in with a French National Corvette, and after a few ineffectual manœuvres on her part from the superior sailing of the Victor when going large, I had the pleasure of bringing her to close action at $\frac{1}{2}$ past 5 P. M. The disguised state of the Victor, did not long deceive the enemy, the second broadside proved sufficient; the Corvette, hauling her wind and endeavouring to escape, which, in about, 20 minutes, I was sorry to observe, by having almost solely directed her fire at our masts and sails, she had a fair prospect of effecting, for on her tacking under our lee, I endeavoured to wear, with the hope of boarding on her bow, when I had the mortification to find, both lower and top-sail braces shot away on the starboard side, as well as preventure ones and bowline; and before others could be loosed, the Corvette was half a mile to windward; night fast approaching added to the chagrin I felt on observing the Corvette sail better than the Victor on a wind. The chase continued all night, frequently within gunshot; and at sun-set the following day, from the wind having favoured the enemy, she was four or five miles to windward. In the night of the 4th, lost sight of the chase, when probably by tacking she escaped.

In this affair I had one man wounded with two musket balls, and Mr. Middleton, master's mate, slightly. The damage sustained in the hull trifling, the foremast shot through, and I have to regret our sails and rigging much cut.

Judging from the course, the Corvette was steering when first seen, she must be bound to these Islands, I pushed for them; and towards sun-set of the 5th, she was again seen running in for this anchorage; I kept under easy sail till dark, when the Victor was anchored; at day light, I had the satisfaction of seeing the Corvette moored, with springs, in the basin or inner harbor, with a red flag at her fore (which as I since learn was in defiance,) being unacquainted with the channel, and having no Pilot, Mr. Crawford the Master (though ill of a fever,) and Mr. Middleton being volunteers, were sent to sound, which service they completely performed, nor did the latter gentleman desist till repeatedly fired at by a boat from the Corvette.

The extreme narrowness of the Channel, added to the wind, not being very favourable, compelled me to use warps and the stay sails only, which exposed the ship to a raking fire for some minutes, till shaling our water, I was obliged to bring up, having two springs on the cable, our broadside was soon brought to bear, and at $\frac{1}{2}$ past 11 A. M. a well directed fire.

was opened, which was kept up incessantly from both vessels till twenty minutes past two, when I plainly perceived the enemy was going down, in a few minutes her cable was cut, she cal round, and her bow grounded on a Coral Reef.

Mr. McLean, the first Lieut. with a party of officers and men were sent to board, though scarce had they put off 'ere we discovered the Enemy to be on fire; Lieut. Smith and other officers were then sent with proper assistance, but just as they had succeeded in extinguishing the fire, she fell over on her larboard bilge into deeper water, and *sunk*.

She proves to have been the French National Corvette La Fleche, mounting twenty long French eight-pounders, answering to English nines, with two stern chasers, though it appears all her guns were not mounted in the first action; was larger than the Victor, in dimensions, perfectly new, a remarkably fast sailer, and not four months from France, commanded by Captain Bonamy, Lieutenant de Vaisseau, with four Lieutenants, and a complement of one hundred and forty-five men, some of whom had been left sick at Bourbon; had thirty-seven passengers sent into banishment by the first Consul of France, for an attempt on his life. From a number of dead and dying men reported to be found on her fore-castle as well as two along side, I am induced to believe the carnage was great, though only four are acknowledged by the French Captain.

She had twenty men to assist at her guns, forming a part of the crew of the French Frigate Chiffone, captured here a few days since by his Majesty's ship La Sybille, Capt. Adam.

The obstinate defence made by La Fleche, was on the supposition of the Victor being a privateer.

From the length of time elapsed 'ere this business was brought to a close, I have felt it necessary to be thus particular in my detail, and I trust for your excuse should I dwell longer; as I feel I should do an injustice to every officer and man on board, did I neglect paying a just tribute to the cool and determined bravery they evinced; even men labouring under the severity of a lingering fever (of which unfortunately I had thirty) felt a proportionate zeal.

I beg leave to recommend to your notice, Lieutenant McLean, as well as solicit your interest for the confirmation of my second Mr. Smith, as also Mr. Hyde, Gunner: observing that whenever Mr. Middleton, or Mr. Graves, (both having passed for Lieutenants,) shall obtain the rank, they will do equal credit to your patronage.

In this action I most fortunately had not a man either killed or wounded; our hull, rigging and boats, have suffered much, besides having some shot between wind and water, {

I am sorry to say that in warping out of the channel, from a hawser parting, the Victor drove on a coral reef, from which she was completely extricated the next day. The fish on the foremast is now on, our other damages repaired, and I hope to proceed on the execution of the remaining part of your orders to-morrow.

I have the honor to be, SIR,

Your most obedient and very
humble Servant,

(Signed) GEO. COLLIER.

To Sir Home Popham, K. M. Captain of his Majesty's ship Romney, and Commanding a Squadron of his Majesty's ships in the Red Sea.

By Order of the Honorable the Vice President in Council,

C. R. CROMMELIN,

Adj. Chief Sec. to Govt.

The following extract from a letter dated the 16th instant, from Captain Frost, commander of the Honorable Company's cruiser Mornington, to the Secretary to the Marine Board, is published by order of the Honorable the Vice President in Council.

"I have the pleasure to acquaint you for the information of the Board, that on the morning of the 9th instant, at 8 A. M. being in the Latitude of $21^{\circ} 2'$ and about 9 leagues to the Eastward of Saugor Sand, we discovered a Schooner in the S. E. quarter distant 9 miles, I soon perceived she was chasing us; judging it to be the French Privateer, I had been informed of, I kept the Mornington shaking in the wind and disfigured her so much as to induce the Schooner to continue the chase the whole day, and at 7 P. M. she was so close up under the stern as to hale, desiring us to back our main top sail and send a boat on board. We shortened sail, squared the after yards, and at the same time put our helm a weather in order to bring the larboard guns to bear. He perceiving this, instantly commenced a brisk fire from his great guns, also a heavy discharge of musketry both from below and aloft, at the same time making all sail. The Enemy received the whole of our broadside twice before he shot a-head of us; I evidently perceived his intention was to get on a wind: this we prevented, and after a chase of about four hours, (during which

he threw the whole of his guns excepting one overboard, cut away his anchors and sawed his gunwhales through, &c.) we were again within hail of him, when he after a few shot called out he had surrendered. The prize proved to be L'Eugene, French privateer, (formerly Diana) commanded by Citizen Coutance. She left the Isle of France on the 18th of September, and has made three Captures as per margin*.

The vessel is pierced for 18 guns, and sails uncommonly fast, she mounted (agreeable to her commission) six carriage guns, with a tier of swivels and blunderbusses round the gunwhale. Her Crew consisted of eighty-three Europeans, chosen from the Confiance and La Nymph. For further particulars I refer you to Lieutenant Hamilton who comes up in charge of her.

I feel infinite satisfaction in having had an opportunity to bear testimony to the excellent conduct of the Officers and Crew of the Mornington; their prompt obedience to my orders, and the quick execution of the different evolutions we were obliged to go through, to prevent this Privateer getting on a wind (which she frequently attempted, and by which she would most probably have escaped) does them great credit. Their behaviour while at their quarters has also convinced me, that had the Enemy been of that force to have required their exertions in this way, they would have acquitted themselves equally well.

The Privateer had one man killed and one wounded. Her sails and rigging very much cut, and two of our galb. shot through her hull. One of the Mornington's seamen wounded by a grape shot.

Dispatches having been this day received by His Excellency the Most Noble the Governor General, from His Excellency Vice Admiral Lord Keith, commanding His Majesty's Naval Forces in the Mediterranean, announcing the Surrender of Alexandria to His Majesty's Forces, on the 1st of September, 1801.

Extra Batta to be served to the European Troops.

By order of the Honorable the Vice President in Council,

C. R. CROMMELIN,

Adj. Ch'f to Secretary Genl.

We are concerned to state, that accounts have reached us from Madras, which mention that the French privateer *Hirondelle*, has taken a Brig, commanded by a Captain Brown; she was captured, it is said, four hours after her departure from Madras Roads. The *Hirondelle* is described as ship-rigged, mounting 18 guns, and has a crew of one hundred and sixty men, including her Officers.

We have much pleasure in communicating to our readers, that accounts have been received in town from Vizagapatam, stating that the *Autamafia*, Captain Curtis, bound from this port to London with rice, had retaken the brig *Friendship*, lately captured by the Eugene French privateer, and sent her into the above port. The date is not mentioned, but supposed to be about the 26th ultimo, in latitude 7° 16'. It is hoped Captain Curtis will fall in with the *Orient*, also taken a few days before by the same privateer.

Published by Order of the Honorable the Vice President in Council,
J. LUMSDEN, *Chief Sec. to the Govt.*

On the 27th ultimo, Major General George Deare, Commanding Officer of the Troops in the District of Benares, and John Neave, Esq. second Judge of the Provincial Court of Appeal and Circuit, and Agent to the Governor General, at Benares, waited on His Excellency the Most Noble the Governor General, having previously obtained His Excellency's permission for that purpose, and presented to him the following Address on the part of the British inhabitants of Benares :

TO HIS EXCELLENCY THE MOST NOBLE
RICHARD MARQUIS WELLESLEY, K. P.

Captain General and Governor General in India, &c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY,

We, the European Inhabitants of Benares, impelled no less by the highest respect and admiration of your Excellency's character, than by an ardent love of our native Country, cannot refrain from offering to your Excellency our sincerest congratulations upon the late glorious successes of the British arms in Egypt. While we exult in the general effect of your Excellency's administration, which has, in the short space of three years, extended and consolidated the British empire in India, in a degree which must ever be contemplated with astonishment, we cannot repress the emotions, which are, on the present occasion, excited in our minds by a consideration of the prompt and vigorous manner, in which resources, so recently acquired, were applied by your Excellency to the aid of the general cause of the British empire: and when we rejoice as Britons at the glorious success, which has followed the animated exertions of our brave Countrymen in Egypt, we feel indebted to your Excellency for the proud reflection, that a force from British India has co-operated on this important service; and that a part of that army, which so lately entitled itself to the approbation of its Sovereign, and of its Country, by the reduction of Seringapatam, is at this moment employed on the shores of the Mediterranean.

The casual, but to us fortunate, occurrence of your Excellency's having received the intelligence of the fall of Alexandria, and total expulsion of the French from Egypt, at this place, has suggested the idea of the present address, which we confidently hope, your Excellency

will graciously accept as the honest and unpremeditated effusion of sentiments, which we are conscious of only entertaining in common with the rest of our Countrymen in India

To which His Excellency the Most Noble the Governor General was pleased to return the following answer :

GENTLEMEN,

I accept with the most sincere satisfaction this testimony of your constant and unabated zeal for the interests and honor of our Country.

The glorious success of His Majesty's arms in Egypt must raise in the mind of every British subject the emotions and sentiments, which you have expressed.

In obeying the wise and provident commands of His Majesty's Ministers, and of the Honorable the Court of Directors for the invasion of Egypt from India, I was happy to afford a convincing proof of the extensive and vigorous resources of these flourishing Dominions, and of the effectual aid to be derived from this part of the Empire, in maintaining the arduous cause in which we are engaged.

My orders in this important crisis have been carried into effect by every subordinate Civil and Military Officer, whom I have employed, with the same spirit of loyalty and public zeal, and with the same anxious desire to participate in the danger and honor of the war, which I have uniformly experienced since the commencement of my administration.

This address is dictated by a similar spirit, and I deem it to be an indispensable article of my duty to encourage and animate, in the heart of every British Subject resident under my authority, sentiments equally calculated to maintain in these distant possessions the purity of our character, and the stability of our power.

I receive with cordial gratitude the flattering terms in which you have conveyed your favorable opinion of the general tenor of my administration: the confidence, which you are pleased to repose in me, will greatly contribute to my happiness, if it shall enable me to confirm in your minds a respect for the British Government, an affectionate attachment for our Country, and an honorable pride in the honest and zealous discharge of the important duties of your respective stations.

(Signed) WELLSLEY.

His Lordship the Chief Justice addressed the Grand Jury in a charge which fully detailed to them the various duties of their arduous and important office. All the offences that the law has made cognizable by them, were enumerated, and the nature of them individually, was amply explained by the learned Judge. Addressing to their separate, and their combined effects on society, he impressed on the minds of his auditors in general an abhorrence of vice, and a love for the peace and security of virtue. The crime, which, unhappily most frequently occupies the attention of Juries in this place, in the criminal jurisdiction of the Court, is murder: Of this, with the frauds of the natives, from the high and dangerous offence of conspiracy, to the meanest and most contemptible acts of dishonesty, is composed the catalogue of subjects that are commonly laid before an Inquest for determination. Burglary and high way robbery are attended with too much personal danger to be favorite instruments of procuring wealth by the timid *Indigènes* of Bengal. His Lordship remarked particularly on the crime of conspiracy. This crime consists in an unlawful combination of two persons at least, for the sake of procuring money from any one, by threats tending to create fears of having his reputation injured or his life and property endangered by false and groundless prosecutions, or by any other illegal means; or in falsely and maliciously procuring an innocent person to be actually indicted for a felony. Our crowded and uncomfortable situation in Court, precluded the possibility of taking notes in writing, which might have refreshed our

memory and enabled us to gratify our readers with his Lordship's luminous and elaborate explanation of this offence. It is an engine in the hands of the vilest of men, which is most formidable and alarming even to the upright and innocent. The fairest character and the most intrepid spirit behold it with dismay. The breath of the Upas of Java is not more deleterious to the life, than this mortal poison is, to the happiness of human beings. We understand that an indictment has been preferred by a gentleman high in the civil service against some opulent natives, for a conspiracy. We hope, in a future number to present our patrons with a summary of the trial, which, is postponed to the next Session.

The Grand Jury having gone through all the business before them, were discharged on Saturday.

The offences in the Calendar, were twelve in number, of which, four were for murder.

John Brennan, a soldier, was tried on Friday for the wilful murder of one Bucket; and being found guilty, received sentence of death;—and, on Saturday, Samuel Bone, for the murder of George Sleaford; and Simon Bird, for the murder of his wife, received similar sentences.

The unhappy Culprits were executed yesterday.

At the place of execution, Brennan and Bone were attended by the Reverend Mr. Limerick, who administered to them in their last moments, the consolation and hopes which the Christian religion affords to penitent sinners. Brennan was dressed in a suit of full mourning, and Bone, in the uniform of his regiment. The Reverend Padre Pinheira accompanied Bur. The unhappy culprits behaved with the greatest decorum, and with a degree of fortitude, which seemed occasioned by their trust in the assurances of the gospel, rather than the consequence of hardened guilt and the obstinacy of an impenetrable heart.

We understand Henry Stone, Esq. has been appointed Sheriff, for the ensuing year, and Edward Lloyd, Esq. Deputy.

His Majesty has been pleased to grant the dignity of Knight-hood unto J. Royds, Esq. one of the Judges of the Supreme Court of Bengal; and H. Gwillim, and B. Sullivan, Esqrs. Judges of the Supreme Court at Madras.

APPOINTMENTS.

Revenue and Judicial Department, December 10, 1801.

Mr. J. Rattray, Collector of Tirhoot.

Mr. G. P. Ricketts, Collector of Behar.

Mr. J. Barton, Collector of Benares.

December 11th.—We have much pleasure in announcing, that accounts have been received of the arrival of the Porcher, Captain Blake, in the roads, after a tedious passage from Madras.

We understand H. M. ship Albatross accompanied the Porcher from Madras to the roads.

The following vessels arrived during the past week.

Ship Albion, Captain A. Wallace, from Madras.

Brig Thamar, Captain Stewart, from Chittagong, left 29th November.

The ship Caroline, Captain Lambert; and the brig Malcolm, Captain Robinson, both from Rangoon.

Ship Cartier, Captain Fulton, from Madras.

Ship Shrewsbury, Captain Campbell, from Masulipatam.

American ship Louisa, Captain Champlin, last from Madras; and the American ship Wanslands, Captain Randall, from Madras, whence she sailed on the 4th of July.

Ship Diligence, prize to the Victor, Captain Da Santos, from the Sechelle Islands, whence she sailed in September last.

Ship Pomona, Captain Hull, and brig Tay, Captain Stuart, from Prince of Wales's Island; two Hamburgers, an American snow, the Mary, Captain Brownlie; the Ravensworth, Captain Holmes, from Coringa; and the American Schooner Mary, Captain Kimball, from the Mauritius, which she left on the 16th of October. On the 3d instant, Captain Kimball spoke the H. C's. frigate Nonuch in the Eastern channel, from whence they were driven out to sea, and continued beating up till the 7th, when they reached Kedgerree.

On the 20th ult. arrived at Madras the American ship Voltaire, Captain Bowen, after a passage of eight days from hence:

PASSENGERS

Per Pochee.—Dr. and Mrs. Phillips; Miss Le Gallais; Miss Thomson; Miss McArthur; Miss Hardyman; Miss Mathews; Dr. Ross; Mr. Field; Miss Romney, and Mr. Roworth, from Madras.

Per Thamar.—Captain Joseph Campbell.

Per Mary.—Mr. Richard Sparrow.

December 15th.—Yesterday Mohun Lall was set in the Pillory according to his sentence, for wilful and corrupt perjury. He is likewise sentenced to seven years transportation for the same offence.

December 19th.—On Thursday, accounts were received in town of the arrival of His Majesty's ship Leopard.

On Thursday last, arrived the American ship Hazard, Captain Tibbatts. She left New York 9th July, arrived at the Cape 9th Sept. left 10th Oct. This vessel sailed from Calcutta about eleven months since, and delivered dispatches at the Cape after a very short passage from hence.—Her Capt. there contracted with Government for a full freight of flour, which she landed at Cape Town on her present voyage out. The number of barrels that she delivered was 2000.

We must presume that plenty has again blessed the Cape of Good Hope with one of the articles, at least, that are necessary to health and life. Another American vessel had touched at the Cape, on her way to Batavia, but was not permitted to land a single barrel of flour.

The Countess of Sutherland was nearly refitted, when the Hazard sailed, and expected to leave the Cape for St. Helena about the 20th October.

Some days prior to the sailing of the Hazard from the Cape, the long pending cause of the Danish ship Holger Danske's cargo was brought to a final hearing in the Vice Admiralty Court; and the whole of that humane property condemned as lawful prize to the private ship of war Harriett, Captain William White, owned by Mr. Michael Hogan. The original cost of this most valuable cargo, according to the invoices produced in Court, amounted to 416,000 Rix Dollars, (four hundred and sixteen thousand) which, on the lowest calculation, after paying all expences, must yield the fortunate captors at least from £. 50 to 60,000. sterling.

On Thursday arrived at Kedgerree the English brig Dec, Capt. Stewart, from Jangeylore, whence she sailed the 1st December.

The Charlotte, under Hamburg colours, is arrived at Kedgerree from Bombay, whence she sailed on the 22d October last.

On Sunday forenoon the *Active*, Captain W. B. Greenway, arrived in the river from Malacca on the 10th, and Prince of Wales's Island on the 24th November.

Captain Rice, of H. M. 51st regiment, was a passenger by this vessel.

December 23d.—The Brig *Success*, arrived off town yesterday forenoon from Trincomalee, but left from Chittagong, saw nothing during her passage.

Previous to her leaving Trincomalee, three Danish ships had sailed for this port, and several others were to sail shortly after the departure of the *Success*.

The *Maria*, Captain Andrew Stone, arrived on Monday from Prince of Wales's Island, on the 28th October.

Lieutenant G. Wilson, of the Madras, and Lieutenant S. Brown, of this Establishment, with Mr. Linart and Son, were passengers by this vessel.

Yesterday between three and four o'clock, P. M. was launched from the Yard of Messrs. Gillett, Blackmore, and Co. a beautiful Ship of about 800 tons, named the *Althea*.

On the same day and same hour, was launched from the Yard of Messrs. Hudson, Bacon, and Co. at Howrah, another fine Ship of 650 tons burthen, named the *Bessey*.

LIST OF PASSENGERS.

PER CHARLTON:

John Buller, Esq.—Hon'ble Captain Pat. Stewart, H. M. 27th Light Dragoons; Miss Charlotte Barlow; Masters Henry and Robert Barlow, and Mrs. Sarah Winne, servant; Miss Harriot Dashwood and Alexander Dashwood, and a native Servant; Masters William and Thomas Shaw.

To Fort St George.—Mrs. Young; Mrs. Smith, European Servant; Ensign Fluker, H. M. 73d Regiment; Lieutenant Northcote, 77th do. Ensign Keenan, 74th do. Mr. M. Thomas Harris; Lieutenant G. R. Grand, Madras Establishment.

PER SIR STEPHEN LUSHINGTON.

Lieutenant Ferguson, H. M. 29th Light Dragoons; Mr. and Mrs. Stonhouse, Miss Maria, and Masters John Brooke Stonhouse, Timothy Vanstuart Stonhouse, with a servant; Mrs. Anne Hayes, Miss Mary Anne Hayes, Masters Henry Horace and Charles Hayes, and an European female Servant; Mr. W. Douglas, and Miss Mary Douglas, and a native servants; Master Thomas Shouldham O'Halloran.

Fort St. George; Madame Marie de Cañan; and Mr. W. O'Neill.

The *Mary*, Captain Brownlie, on her way from Padang to Calcutta, spoke H. M. ship the *Fox*. The American ship the *Wanflands*, had also fell in with H. M. ships the *Victorious* and *Arrogant*.

While Captain Brownlie was at Padang, the ship *Fanny*, bound from Karikal, to the Cape of Good Hope, with grain, put into that port from stress of weather, having experienced on her passage from Tranquebar, (whence she was charged with dispatches for England) a most tremendous gale, in which her main-mast was shivered to pieces by lightning, besides sustained several other material damages;—it is with sincere regret we learn that Captain George Thomson, her commander, died at Sea some days before the ship reached Padang.

By the American schooner *Mary*, which left the Isle of France on the 19th October, we learn that the *Bellone*, a privateer (frigate built) of 36 guns, and well manned, had arrived at port Nord Ouest, from Europe, last from Rio La Plata, where she had made prizes of three Portuguese ships.

The *Bellone*, is well known in Europe, as a fast sailing, (and unfortunately) too successful a cruizer against our trade in that quarter of the globe, and when the *Mary* sailed was on the point of quitting the French Isles, to try her fortune in these Seas.

A ketch of 16 guns, was also ready to commence her predatory excursions in the Indian Ocean. We however, now look forward, with a well grounded hope, to hear of both their intended objects, being soon and happily frustrated.

The *Pomona*, that left Prince of Wales's Island on the 9th November, brings us accounts of the safe arrival at the Island, of the ships *Dart*, Capt. Allen, and *Prosper*, Captain Smith, belonging to this port, also of His Majesty's ship the *Lion*, of 64 guns, from England, in May, having under her convoy, the following China ships, viz.

• Woodford,	Capt. J. Martin,
• Abergavenny,	— J. Wordsworth, juar.
Albion,	— A. Timbrell,
Warley,	— H. Wilson,
Belvidere,	— J. P. Fearon,
Taunton Castle,	— T. B. Pierce,
Alfred,	— J. Farguharson,
• Duke of Buccleugh,	— T. Wall,

3108 THE CALCUTTA MONTHLY JOURNAL;

By the Pomona we are concerned to hear that the Ajax; Captain Moffat, bound to the Cape of Good Hope, the Thomas, Captain Bannantyne, and the Arran, Capt. Lindsay, bound to Europe from this port, had unfortunately encountered excessive bad weather in the Bay, and had been obliged to put into Prince of Wales's Island to refit; Capt. Lindsay, of the Arran, we are concerned to add, had died on the passage.

The H. C. ship Ganges, Captain Gray, sailed from Macacca for China, on the 3d November, as did likewise the China fleet under convoy of H. M. ship Lion, from Prince of Wales's Island, on the 17th November, to the same destination.

Private letters from China of the latter end of June, received from the Viper cruizer, viz. Anjengo, give the pleasing accounts of the safe arrival at Macao of the following Portuguese ships from this Port, viz. the Carmo, Princesa de Portugal, Diligencia, Roza de Macoa and St. Antonio.

The average price of the Opium sold at the Honorable Company's sale the 15th Inst. was Sicca Rupees 744 15 the Chest for the Behar, 731 10 for the Benares.

Letters have been received in town, that state the complete discomfiture of George Thomas and his army by some of Scindeah's Battalions.

In this affair George Thomas is said to have lost 32 pieces of Artillery, the whole of his Baggage, and himself to have escaped with only seven horsemen.

Extract of a Letter from Prince of Wales's Island, dated November 4, 1801.

"This day was landed from the Honorable Company's ship the Duke of Buccleugh, Capt. Wall, under a royal salute from his Majesty's ship the Lion, of 64 guns, and all the Indiamen for China, an original Hunting in full livery of his Royal Highness, the Prince of Wales, done by the late Sir Joshua Reynolds, which the Prince has been graciously pleased to send as a mark of his respect to the merchants here, to be put up in the Government House.

" This elegant Painting, with the Royal Letter, has been forwarded through Sir John Macpherson, by whom, and under whose auspices when Governor General of Bengal, this valuable settlement was first established.

" The Picture was landed in the Lion's Barge, attended by others of the fleet, under a royal salute from the garrison, and was received on the Beach by Captain Mitford, of the Lion, who was accompanied by the Captains and many of the Officers of the Indiamen from the landing place to the Government House, where the troops were drawn up on each side of the road forming a street; the Picture was admirably well carried in an upright position by the crew of Captain Mitford's Barge, who were neatly and uniformly dressed for the occasion,—also the bands of the different ships, who during the time the Picture was in the Barge, played *Rule Britannia*, and after it was landed until lodged in the Government House, *God save the King*.

" The Lieutenant Governor and the Principal British Inhabitants received the Picture at the Government House, where the Royal Letter, and that from Sir John Macpherson, was read.

" It is likewise understood, that his Royal Highness has been graciously pleased to promise to take the Island and its concerns, under his royal patronage and protection "

Extract of a Letter from Canton, dated 11th May, 1801.

" We despatched our last fleet of the season the 6th instant, consisting of the following Company's Ships, under convoy of his Majesty's ship *Belleguez*, ROWLEY BULFEE, Esq. Captain, Viz *Britannia*—Bombay Castle,—Dorsetshire,—Courts,—Hugh Inglis,—Exeter, and *Nep-
tune*."

Extract of a Letter from Macao, dated June 29, 1801.

" You will be glad to hear of the safe arrival of the *Carmio*, and all the ships belonging to this place from Bengal. Opium is at 560 Dollars (five hundred and sixty,) but I depend on its rising very shortly."

Extract of a Letter dated Golconda, Nov. 16, 1801.

" The old city of Hydrabad Bhagungur is a wonderful ruin, apparently of no ancient date. Yet, though its circumference is about twelve miles, its being built is not mentioned by a single historian. It was never finished; one reason the people at present alledge for its being discontinued was that a Tiger killed several workmen, and was invulnerable! but the other, which does not appear to me much more rational, is the want of water. In fact, not a soul knows any thing of the matter. The whole country plainly evinces the immense wealth and magnificence of the ancient

government; but now the venerable piles of former splendor are wasting away to the state whence they arose."

Extract of a Letter from Lucknow, dated November 21st, 1801.

General Martin's superb Mausoleum at Lucknow, tho' not yet completed to answer all the various important objects of its institution, has been lately opened by the Administrator with a considerable degree of judgement and eclat.

The Hon. Mr. Wellesley having expressed a wish to have an opportunity of inspecting the plan and progress of the Buildings, &c. at leisure, Mr. Queros provided an elegant Breakfast for him and a large company at Constantia, on the 11th instant.

And on the 20th instant, with a view to give the Commander in Chief an opportunity of seeing the place with every conveniency and advantage, Mr. Queros gave a splendid Dinner in the great Hall to His Excellency, to Mr. Wellesley, Col. Scott, the Resident, and to all their suites, and indeed to the whole European station, the company amounting to about fifty persons.

The entertainment was in the best stile of hospitality. All the furnished part of the noble edifice was illuminated. There was great abundance of the best dishes and choicest wines, well served and giving general satisfaction. As the company naturally felt themselves in this place, in the character of pilgrims, there was no tendency to excess, notwithstanding the abundance of excellent Claret. No toast was even mentioned excepting one towards the conclusion, which will doubtless be a standing regulation of the House, and the devout repetition of which three times, or three times three imposed as an indispensable duty on all pilgrims, viz.

"To the Memory of General Martin; and may the Mausoleum at Constantia last as long as the Pyramids of Egypt!"

The following relation of a most barbarous ceremony that lately took place in Gungar Saugur, and to which Mr. Bartlett, a branch pilot, with some other Europeans, our Correspondent mentions, were eye-witnesses, appears unparalleled in the annals of history.

" Being at Gungar Sangur, with some other Pilots, the last full Moon, and hearing that some extraordinary absurdities were to be performed among the Fauquiers of that part, among others such as persuading the ignorant natives to go into the water, no doubt from interested motives, to be devoured by Sharks,—Mr. Bartlett with his party went to the place, from curiosity, where these cruelties were to be exercised, and witnessed, these facts—that several men and women at the instigation of the Fauquiers, were made to throw themselves into the river, amidst innumerable Sharks, that were seen floating upon the water, which almost immediately devoured these unfortunate victims of superstition; and particularly mentions that a man remarkably strong, on being attacked, seemed to set the Shark at defiance, and had a long struggle with his antagonist, till others came up and dispatched him.

" Mr. Bartlett upon hearing that a young boy was to be sacrificed in the same manner, was desirous if possible to rescue him, and waited till late in the evening, in hopes of performing this act of humanity, but suspicions arising among the barbarous Fauquiers that such an attempt might be made, put it out of Mr. B's power to effect it, by secreting him.

" This horrid practice it appears takes place twice a year, in the months of February and November, about the time of the full moon."

December 29th.—On Wednesday accounts were received in town, of the arrival of the Brig Clyde, Captain A. Burnside, from Bencoolen, with she left the 5th November.

By her we learn, that the ship Thomas, Captain Bannatyne, had put into Bencoolen, in a very leaky and distressed state, and was obliged to dispose of her cargo at that place.

The Louisa, Captain Weatherall, from this Port, and Anne, Captain Crockatt, from Madras, had arrived there during the stay of the Clyde,—The Phoenix, Captain Maxwell, was expected to sail soon from thence for this port.

Europe articles, as well as Rice, Opium and Piece Goods, were in great demand there.

Accounts are received in town of the arrival in the river of the *Lydia Elizabeth*, Captain John Butler, from Prince of Wales's Island, whence she sailed the 4th instant.—We have not learnt any news by this vessel.

His Majesty's sloop of war, *Trincomalee*, is also arrived in the river.

M A D R A S.

November 14th.—Yesterday at Noon, a Royal Salute was fired from the Garrison of Fort. St. George, in honor of the Capture of Alexandria, and the complete expulsion of the French from Egypt.

December 5th.—On Monday last, *St. Andrew's Day*, the Tutory Saint of Scotland, the Officers of His Majesty's Scotch Brigade gave a very splendid Ball and Supper to the Ladies and Gentlemen of the Settlement at the Exchange.—The Great Room had been previously fitted up for the occasion in an admirable stile—for decoration and convenience.

The Dance was kept up with great vivacity and glee, until one o'clock—when the Company were invited to the Supper Table—containing all the Good Things of the Season.

After Supper the Dance resumed its Charms, and continued to a late hour on the ensuing morning.

The Right Hon. the Governor, the Hon. Sir Thomas Strange, His Excellency General Stuart, Mr. Petrie, Mr. Dick, and the Nabob, Azeem ul Doulah—were amongst the many Gentles that partook of the liberal Hospitality of the Evening.

It would be endless to particularize the Beauty—which graced the Entertainment.

Extract of a private Letter from Rosetta, 12th Sept. 1801.

"After a few days of open trenches and a few smart attacks of outposts, in which the British Troops were invariably successful, the French on the 28th ultimo sent out a flag of truce. A cessation of Hostilities accordingly took place from that date, and on the 30th a Capitulation was concluded. They marched out with all the Honors of War, carrying 10 Pieces of Cannon, all their Arms and their private Baggage. They were to be transported at our Expence to some Port in France, and not be considered as Prisoners of War. These are better terms than they deserved, and especially as we had the power of compelling a surrender.

" The French were allowed 10 days to settle their private concerns in Alexandria, without any of our Troops entering the town during that time. But on the 2d instant our army took possession of all the out-works which completely command the town. On the 12th the Garrison marched out and were to embark from Aboukir, they amount to 11,500 Soldiers, and the number of all descriptions that embarked from Cairo exceeded 13,000.

" The first division of the Indian army left Cairo in boats on the 27th ultimo, and arrived at Rosetta on the 30th.

" General Baird arrived with the Second Division the day following. The whole are encamped on the banks of the Nile, within a mile of Rosetta. The whole of the English army return either to England or to different parts of the Mediterranean as soon as the ships are ready to receive them. General Craddock with 4000 Troops has already embarked for Corfu.

" Colonel Capper will in a few days set off for India with dispatches from General Hutchinson by way of Coiffier."

G. O. BY GOVERNMENT. *Fort St. George, 12th November, 1801.*

The Right Honorable the Governor in Council has great pleasure in publishing in General Orders the following Extract of a Letter lately recd.

ceived from the Honorable Court of Directors, referring to the conduct of the Honorable Colonel Wellesley, and the Officers, and Troops, under his command, employed in the operations against the Rebel Dhoondia.

Letter dated 10th June, 1801.

Para. 2d.—In the early part of the operations against the Rebel Dhoondia, We noticed with particular satisfaction the judicious and spirited conduct displayed by Colonel Stevenson, and Lieutenant Colonel Dalrymple.—From subsequent advices, particularly a letter from Governor Duncan of the 15th September last, which speaks of the decided and brilliant advantage, gained by the Honorable Colonel Wellesley on the 30th of July over a division of Dhoondia's Army, We entertained a well founded expectation of a speedy termination to the present contest, more especially as it was stated on the 31st August the Colonel was within two days march of the Enemy.—Your dispatches by the Triton have announced the important intelligence of the defeat and destruction of the Rebel, and his Army, on the tenth of September last—strongly impressed with a sense of the Political advantages which must be the consequence of the complete overthrow of Dhoondia, and his Forces, We desire that our thanks may be conveyed to the Honorable Colonel Wellesley for his distinguished Services in the late Campaign, and to the Officers, and Troops, under his Command, for their zealous, and successful, co-operation.

HEAD-QUARTERS,—Choultry Plain, 17th Nov. 1801.

G. O. BY THE COMMANDER IN CHIEF

It appearing by the Returns of the army that parties of Troops are frequently employed in escorting Officers, and Officer's Baggage, which is irregular both as it relates to the employment of the Troops, and to the incurring unauthorized expence, the Commander in Chief is pleased to order that all detachments so employed shall immediately join their respective Corps; and further, that escorts shall henceforth be granted only to Officers, who from their rank in the army, or situation in the Service, are entitled to a Military Guard.

The Commander in Chief at the same time deems it necessary to declare that General Officers when employed as Officers Commanding divisions of the Army, are alone entitled to a Military Guard; and that Officers in command of Garrisons, or Corps, during their presence with either, are only entitled to Sentinels from a public or regimental Guard.

Extract of a Letter from Nundydroog, dated 22d Nov. 1801.

G. O. BY THE HON. COLONEL WELLESLEY.

The State of discipline and order in which the 2d Battalion 18th Regiment, appeared at the Review this morning, reflects the greatest Credit upon Lieut. Colonel Cuppage, and the Officers of the Corps.

But little more than a year has elapsed since the orders were given for raising the 18th Regiment, and shortly after the necessities of the service in other parts, required that the disciplined troops should be withdrawn from the Nundydroog district. Since that period this newly raised Battalion has done the duty of the Nundydroog district, and has had large detachments at other places: notwithstanding which it is nearly 12,000 men strong, and appeared at the Review this morning in a state of discipline and order that would have done credit to the oldest Corps in the service.

Colonel Wellefley proposes not only to report this state in the most favourable terms to the Commander in Chief; but he takes this opportunity of drawing to it the attention of Commanding Officers of Corps under his Command as to an example, which if followed cannot fail to ensure to them the approbation of their superiors.

It gives Colonel Wellefley the greatest satisfaction to see so numerous and so fine a body of men raised in the territories of the Rajah of Mysore, and he has no doubt but that in their fidelity and attachment to the Government which they are serving, they will equal the other Native troops, as they do in their discipline.

Colonel Wellefley cannot conclude without taking this opportunity of returning his thanks to Lieutenant Colonel Cuppage for the assistance which he has received from him in establishing and preserving tranquillity in this heretofore disturbed district.

B O M B A Y.

November 4th.—On Sunday night, the Honourable Company's Cruiser Panther, Lieutenant Lowis, anchored in the harbour, from Goa, which place she left the 26th ultimo.

A very singular but unfortunate accident happened on Sunday last, a young Gentoo of the name of Nagoo, was amusing himself with loading an old rusty musquet, with a broken lock, and without any flint, he used every means he could devise, but ineffectually, to fire it off, as the touch hole was too rusty to admit of any communication with the barrel—he at last hit on a very curious expedient, which was putting a piece of firey wood in at the muzzle, and as it did not immediately take fire, he put his mouth to the muzzle to blow it, when unfortunately the fire communicating with the powder, it went off and killed him dead on the spot—a Coroner's inquest was held on the body, who brought in a verdict—accidental death.

For some days past the weather had prognosticated an approaching storm, and yesterday we experienced some very severe weather with thunder, lightning, and rain, but not of

so destructive a nature as that experienced here two years ago nearly at the same season of the year.

November 14th—On Monday morning, two Dows arrived from Bussorah, bringing a number of horses for the Honorable Company's cavalry. Lieut. C. Pasley, and Doctor Briggs, two Gentlemen of the suite of the late Envoy to the Court of Persia, arrived passengers by those Dows.

On Monday evening anchored in the harbour, the Portuguese ship the *Rainha dos Anjos*, Captain Francisco Goncalves de Lima, from Lisbon, which she left on the 28th February; she touched at Madern, Rio Janeiro, and Mo-sambique, on her passage.

By a recent departure we are again doomed to experience a considerable diminution in our society by the return to England of many of its valuable Members, viz. William Page, Esquire, his Lady and family; Philip Dundas, Esquire; Miss Saville; Robert Taylor, Esquire, his Lady and two Children; Colonel John Little; Colonel and Mrs. Mignan, and three Children; Colonel and Mrs. Marshall; Colonel John Wiseman; Lieutenant Colonel Cumine; James Smith, Esq. his Lady and child; the Lady of Major Woodington and son; Captain and Mrs. Billamore; Major Grant; Major Lauriston; Lieutenant Colonel Romney; Joseph Laplain, Esq. his Son and Daughter; Captain Scobie; Captain Johnson; Captain William Roome; Lieutenant Baywick, of the Marine; Lieutenants Dyson, Forbes, Brownrigg, Ferrabee, and Charles Morfe; of the H. C. Military establishment; Master Thomas Carnac, William David Adamson, two Children of John Hector Cherry, Esq. viz. Charlotte and John Hector, and Master Charles James Munn, and Mr. Nash.

Nov. 28th.—On Thursday afternoon arrived the Honourable Company's cruiser the *Viper*, Lieutenant Jeakes, Commander, from China. The *Viper* sailed hence on the 21st February last, and after vicissitude of weather arrived in Macao roads on the 1st June; in the afternoon she run into the Tyra, where, on the 12th of that month, she drove ashore in a hard gale of wind after parting both bower cables, which had a whole cable out on each, every

other precaution, by striking lower yards and top-masts, &c. being previously adopted. She unluckily went on at high water, but by taking every thing out of her with assistance from the shore and from His Majesty's ship Centurion, was got off on the 14th without material damage; the bottom on which she lay being deep soft mud, part of which was cleared on each side, and a sort of Dock formed, through which she was floated off.

December 5th.—On Sunday forenoon last Colonel Close embarked from the Dock pier head for Poonah on his way to Poonah; the Colonel on his embarkation was complimented by the Garrison with the salute due to his diplomatic character.

On Tuesday last anchored in the harbour the Ship Admiral Nelson, Captain Joseph Blaker, from Madras, which place she left on the 16th October. The Passengers by this ship are William Skirrow, Esq. late Merchant in Calcutta; Captain Robert Ley, of the country service, and Mr. Mounier, Merchant of Madras. The Admiral Nelson touched at Columbo and Cochin on her way round.

Extract and Substance of a Letter from Lieut John Hayes, Commander of the Swift, to the Superintendent of Marine, dated Ternate, 5th July, 1801.

"The copies of letter from the *rehdem* at Amboyna will shew the nature of my late employment; immediately after the receipt of that dated 1st April, I weighed with the fleet and proceeded to the island of Ternate. The letter of the 17th June alludes to the previous transactions of the Squadron in which I had made two close attacks on the enemy's batteries with the ships under my command.

"On the 17th May we captured two Padnachers from Java, and on the 21st the American brig *Hazard* from Batavia, all bound to Ternate with supplies; the cargo of the *Hazard* was the entire property of the Dutch government, whose passes are in my possession.

"On the morning of the 21st June the third and last attack was made on Fort Orange, in this I was most gallantly supported by the *Star*, Lieutenant Scott; the ships lay stationary within Pistol shot of the Batteries for more than 30 minutes, exposed to a cross and raking fire from twenty four 12 and 18 Pounders; the attack was continued and attended with the desired effect. At 11 A.M. Ternate and its dependencies surrendered and was taken possession of by the Land Forces, the Vessels in the roads had previously struck to the *Swift*.

"I have been fortunate in having on this service lost only one man killed and nine wounded, the latter all recovering; but the ships Hull, Masts, Rigging and Sails, have been very severely handled. I shall send you a regular detail of our proceedings hereafter."

"The marine Lieuts. Scott, Dean, Rawling, Ross, and Henderson, have particularly distinguished themselves. I beg leave to introduce to your notice Mr. Daniel Owler, master; Mr. John Burgh, 3d lieutenant of the Swift, and Capt. Richard Hughes, the H. C. Surveyor at the Molluccas, as men of undaunted courage and superior abilities. Mr. Eggar, commanding the Honorable Company's Brig Resource, is also entitled to the highest commendation; the seamen I brought from the presidency fought with me in the ranks against Tokoka on the 11th February, and have behaved equally well ever since."

ROBERT RICKARDS, Sec. to Government.

We mentioned in our last that an action had taken place between Scindia's army and Jesswant Row Holkar, and have since been favoured with the following particulars in a letter dated Camp at Indore, 8th October 1801.

When Scindia's army crossed the Nerbuddah at Hundea on the 24th September, as formerly mentioned, Scindia himself remained at that place with a corps of between three and four thousand cavalry and two battalions of the first brigade for the protection of the baggage. Colonel Sutherland having marched from the banks of the River at 12 o'clock on the night of the 26th, joined Captain Brownrigg's detachment on the 30th, which was then encamped on the Cottah Scind River above the Ghaut. Here the army assembled and consists of 7000 good cavalry, about as many of inferior quality, and the following troops of the 1st brigade under Colonel Sutherland, viz. nine battalions of Infantry, 400 Rohillas, of whom 200 were mounted, and a respectable train of artillery; of Colonel Filose's brigade there were four battalions. The second Brigade which had been anxiously expected from Hindostan, was then known to be 50 coss distant from Cota, so that no assistance could be derived from them.

On the 3d instant the army commenced its march towards Indore, and were harassed night and day by large bodies of Jesswant Row's cavalry, which made two serious attempts to break in upon the Infantry, were repulsed with considerable loss. On the 13th the whole army entered Indore and encamped two coss from that city, where Holkar was waiting for them; having evacuated Cawnpore on finding by Colonel Sutherland's route, that the former was threatened.

During the night of the 13th, Colonel Sutherland made preparations for attacking the enemy at day light with eight battalions of the 1st Brigade, and the Rohillas, and as many guns as could be serviceable on each flank and in centre, besides the battalion guns of which there are 4 or 5 attached to each corps. The other five battalions were allotted for the protection of the baggage, which as usual in these armies, was immense.

Holkar however having changed his ground during the night, Colonel Sutherland was under the necessity of making a movement to his right over such broken ground, that it was three o'clock in the afternoon before the action commenced. The enemy about that time opened a fire from upwards of eighty pieces of cannon, and the action soon became general. The behaviour of Scindia's Infantry on the occasion is spoken of in terms of the highest praise, and they were led on by English officers who burned with impatience to revenge the late massacre of their countrymen. In this they fully succeeded; for at 6 o'clock Holkar's army was totally defeated—75 pieces of cannon, of which three are 24 pounders, and an immense quantity of ammunition remaining in the hands of the conquerors, who on the following day entered Indore, Holkar's capital, in triumph. No other particulars of the loss of the enemy are mentioned; and the killed and wounded of Scindia's troops do not exceed 170, among whom there is fortunately no European officer.

Holkar after his defeat fled with his cavalry towards Mahasra, and it is reported he had disbanded his broken battalions which fled with him. Scindia was expected to join his victorious army in a few days.

Another account, also dated from Indore 18th ultimo, states the number of guns of what is called the great Park which Colonel Sutherland had with him to have been twenty, and the horse to have consisted of 7000 Pindaries and between 5 and 6000 Hindooilancee and Mahratta cavalry. By this account it appears to have been at a River called the Giphara, where Holkar's cavalry made the most serious attack on Colonel Sutherland's march. This correspondent mentions that it was in a fit of delirium during a fever, that Col. Filose put a period to his existence, and that he was succeeded in the command of his brigade by Captain Manöel de Buzo Rato. The number of Holkar's guns are stated in the letter at present before us to have been no less than one hundred and eleven, of which one hundred are said to have been taken. It is said that for Jeshwant Row's cruelty at Ougien, the city of Indore was given up to plunder, and many parts of it were set on fire and reduced to ashes.

By Order of the Acting President and Members of the Marine Board,

J. SHORE, Sec.

Fort William, Decr 26, 1801.

The following is the narrative of the loss of the ship FAZY ALBON, Capt. BAIRD, and the subsequent proceedings of the crew. It was drawn up by Mr. WILLIAM KINSEY, the first officer of that unfortunate ship who arrived at MOCHA, on the 10th Sept. on the ship JEHANGIR in company with the HERCULES. We are happy to hear that three more of the Crew had found their way to Mocha, and a Dow had been dispatched to BUNDER FELIX to ascertain the fate of the remainder and bring back as many of the survivors as possible.

On the 7th June at 1 P. M. they saw the land bearing W. b. S. at a distance off shore about 10 miles; after steering different Courses, making and shortening sail as was requisite, breakers were seen at 10 P. M. The Ship's head then to the Westward lying to. Capt. Baird immediately made sail and wore but soon after struck and then made a breach over the ship's fore and aft. The lanyards of the Fore

Main rigging were cut in order to dislumber the wreck of the Masts, and soon after the main mast and fore mast went over board, the mizen mast being very short, stood.

The Narrative proceeds as follows.

At this time the ship lay more upright, and the Lee Guns were ordered to be thrown over-board, but not one of the Lascars would lend a hand nor a man to clear the wreck from along side. The wind increased every minute. The sea about 12 o'clock stove in the Cabin windows and the Gun Deck was immediately full; we now saw no resource and accordingly secured all the small spars as well as we could to furnish the means of getting on shore at day light. We at first were apprehensive that it was a reef on which we had struck; but about 4 A. M. when the moon got up, to our great joy we saw the main land; and at day light discovered a fine sandy beach, full of small bushes: at last a few of the Lascars ventured on shore, first on small planks and spars. About an hour after, the Captain, second officer, and all the Seacunnies went off on a raft, made of flogging sail booms, the people after they saw the Captain leave the ship went off in numbers upon small rafts.

About 10 A. M. the 2d mate with about thirteen more left the ship in the long boat; soon afterwards I left the ship in a raft with 10 more, and left Lieut. Dundas on board, who I could not persuade to leave the ship at that time. About 10 minutes after I left the ship I got on shore and got a dry shift of cloaths for the Lascars, which they had preserved dry by putting it in the scuttle cask, half an hour after I met the 2d officer, who told me that he had found the body of Lieut. Dundas, and had buried it in the sand: about 2 P. M. we were visited by a few natives, who were very shy at first; they did not offer us any violence, and after picking up what they could, they left us, and were followed by all the Lascars. Captain Baird then directed the Europeans to roll up all the empty water casks they could find, and make a barricado, for defence, if necessary against the natives; at 6 P. M. the 8th, a few Lascars came back from the place where they had followed the natives, and informed us that there was a village a few miles from where we were, and that the natives were very ill disposed towards us. We slept all night under the cover of our main royal, which we had the good fortune to find on the beach at day light; we who slept together, to the number of about 20, Captain, Officers, and Seacunnies, with 3 or 4 Europeans and Lascars, went on the beach to roll up all the full casks of water and Salt.
